

Faculty of Women for
Arts, Science and Education,
Botany Department

Genetical and molecular studies on some potato (*Solanum tuberosum*) cultivars grown under salinity and radiation stress

Presented by

Amal Salah Ali Awad

B.Sc., Chemistry–Botany, Faculty of Women for
Arts, Science and Education, Ain Shams University, 1999.

M.Sc., Cytology and Genetics, Botany Department,
Faculty of Women for Arts, Science and Education,
Ain Shams University, 2009.

A Thesis

Submitted in Partial Fulfillment of the Requirements for

Ph.D. Degree of Science

Cytology and Genetics

Botany Department, Faculty of Women for

Arts, Science and Education, Ain Shams University

2018

Faculty of Women for
Arts, Science and Education,
Botany Department

Genetical and molecular studies on some potato (*Solanum tuberosum*) cultivars grown under salinity and radiation stress

**Presented by
Amal Salah Ali Awad**

B.Sc., Chemistry-Botany, 1999. M.Sc., Cytology and
Genetics, Botany Department, Faculty of Women for Arts,
Science and Education, Ain Shams University, 2009.

A Thesis

Submitted in Partial Fulfillment of the Requirements for
Ph.D. Degree of Science Cytology and Genetics,
Department of Botany, Faculty of Women for Arts,
Sciences and Education, Ain Shams University.

SUPERVISION COMMITTEE

Prof. Dr. Zakia Mohamed Adam

.....

Professor of Cytology and Genetics, Botany Department,
Faculty of Women, Ain-Shams University.

Prof. Dr. Thoria Rashad Mohamed

.....

Professor of Cytology and Genetics, Botany Department,
Faculty of Women, Ain-Shams University.

Prof. Dr. Ayman Abd El-Megeed EL-Fiki

.....

Professor of Biotechnology, National Center for Radiation
Research and Technology, Atomic Energy Authority.

Dr. Shaimaa Selmi Sobieh

.....

Lecturer of Cytology and Genetics, Botany Department, Faculty
of Women, Ain-Shams University.

2018

Faculty of Women
(Arts, Science and Education),
Botany Department

Genetical and molecular studies on some potato (*Solanum tuberosum*) cultivars grown under salinity and radiation stress

Presented by
Amal Salah Ali Awad

B.Sc., Chemistry-Botany, 1999. M.Sc., Cytology and
Genetics, Botany Department, Faculty of Women for Arts,
Science and Education, Ain Shams University, 2009.

A Thesis

Submitted in Partial Fulfillment of the Requirements for
Ph.D. Degree of Science Cytology and Genetics,
Department of Botany, Faculty of Women for Arts,
Sciences and Education, Ain Shams University.

Approved by:

Prof. Dr. Zakia Mohamed Adam

Professor of Cytology and Genetics, Faculty of Women,
Ain-Shams University.

Prof. Dr. Thoria Rashad Mohamed

Professor of Cytology and Genetics, Faculty of Women,
Ain-Shams University.

Prof. Dr. Ayman Abd EL-Megeed EL-Fiki

Professor of Biotechnology, National Center for Radiation Research
and Technology Center, Atomic Energy Authority.

Prof. Dr. Awatif Ibrahim El-Nahas

Professor of Cytology and Genetics, Faculty of Education, Ain-
Shams University.

Prof. Dr. Zakia Ahmed Abo El-Kheir

Professor of Cytology and Genetics, Faculty of science (Girls),
Al-Azhar University .

Date 10 / 4 / 2018

ACKNOWLEDGEMENT

THANKS TO ALLAH

*I wish to express my deepest gratitude and sincere appreciation to **Prof. Dr. Zakia Mohamed Adam** professor of Cytology and Genetics, Botany department, Faculty of Women, Ain- Shams University for valuable assistance and suggestions, useful advice and guidance throughout this investigation.*

*I would like also to express my great thanks and appreciation to **Prof. Dr. Thoria Rashad Mohamed** professor of Cytology and Genetics, Botany department, Faculty of Women, Ain- Shams University for her kindly help, continuous supervision and encouragement.*

*I am greatly thanks to **Prof. Dr. Ayman Abd El-Megeed El-Fiki** professor of Biotechnology, National Center Radiation and Technology for his supervision, support, solving the problems, great help and encouragement during this study.*

*My deep thanks are also extended to **Dr. Shaimaa Selmi Sobieh** Lecturer of Cytology and Genetics, for her kind support , for reading and correcting over and over again , Botany department, Faculty of Women, Ain- Shams University .*

Grateful thanks are also extended to all staff members of Genetic Engineering Research Laboratory and all colleagues of Natural Products Department, National Center for Radiation Research and Technology, for their encouragement, cooperation and friendly, attitude. Thanks also to all members of Botany Department, Faculty of Women, Ain- Shams University.

Finally, I can't find enough words to express my deepest gratitude and thanks to my family for helping me all over my life and everyone helped me and wished me success.
