## ACKNOWLEDGEMENT

First and foremost, **thanks to GOD** for helping me throughout the progress of this work and for letting it come to its end.

Words cannot adequately express my profound gratitude and appreciation to **Prof. Nawal Abdel Rehim El Sayed**, Professor of Nutrition, High Institute of Public Health, University of Alexandria, for her unlimited generous efforts, persistent continuous support and encouragement. Her continuous guidance and keen supervision of all steps of this research were behind the completion of this work.

I am also deeply indebted to **Prof. Samir Helmy Assaad**, Professor of Internal Medicine, Faculty of Medicine, University of Alexandria, for his kind cooperation, constructive criticism, precious advice and guidance of all details of this work.

I am also grateful to **Prof. Ali Khamis Amine**, Professor of Nutrition, High Institute of Public Health, University of Alexandria, for his cooperation and active contribution in the fulfillment of this work.

I am sincerely grateful and indebted to **Prof. Mohamed Hussein**, Professor of Biostatistics, High Institute of Public Health, University of Alexandria, for his great effort and guidance. His particular experience in analyzing the data of the research was a cornerstone in the completion of this work.

I would also like to express my appreciation to all the medical and paramedical staff in **EL-Pharaana Health Insurance diabetes center** for their active support, cooperation and assistance in this work.

And most important, I would like to express my true thanks and gratitude to my great and sincere **parents** for their continuous support, kind care and precious effort during the whole period of the study. I am deeply grateful to my wonderful and dear **husband** for his patience, understanding, encouragement and unlimited generosity. Without their support this work could not be accomplished. I am also grateful to all those who helped me by time and effort to fulfill this work.
