Acknowledgements

God has blessed us with my gifts, and finishing this thesis is one of them. Thank you God.

The researcher would like to express her appreciation and sincere gratitude for Supervisor Dr. Ossama Zaki for helping her out all along the path, ever since the early college years, besides providing continuous assistance all through the proposal which has been of tremendous support.

The researcher would also like to thank all her former professors, some of which have helped me through the two year courses needed for the master degree, especially Dr. Ashraf El Sharkawy who has provided me with the tools that made me capable of writing a thesis and conducting an appropriate argument. Also Dr. Mohamed Hegazi, which gave the researcher a lot of support, believed in her and provided her with the skills and confidence needed to peruse a presentation. Also Dr. Khaled Hegazi which trained us on stimulated thinking and how to perceive issues from different angles. Also Dr. Abd El Moniem Awadalla which is a master of his subject that helped the researcher think in an organized manner and constantly provided useful opinions and guidance. Thanks to all my professors that have done too much.

The researcher would also like to express her gratitude to the committee members

A sincere appreciation is given to the EISA's IT consultant Ragaii Hassan for all the information he provided and all the useful comments that helped the researcher all along the preparation of the thesis. The researcher would also like to thank the EISA's former Chairman Khairy Selim and Dr. Sawsan Shafeek a member of his team that helped the researcher a lot and sacrificed a great deal of their time to help the researcher. The researcher would also

like to thank Dr. Susan Shafeek, the board member of Misr for Insurance for her precious time and the valuable information she provided.

A special thanks to Dr. Saaed Daw, and his exquisite contribution to helping the researcher out. Also thanks to Dr. Shawky Beshady who has taught the researcher a lot.

Dedication

I know that there are seven wonders in the world, I know that miracles sometimes happen, I know that there's a chance that life exists on other planets, but what I don't know is how to thank God for giving me the most precious gift ever, my dad.....

People live and die without knowing why they were granted life, only the lucky ones find their way to paradise.....

I want to thank my dad for paving the way ahead, making life a better place, making the path full of roses, which he always gives me without thorns. He made me know why we live, and how to love life, and most important of all how to survive and how to win a battle and fight to be who you really want to be.....

Words would never be enough, what I could only say is that I will always thank God and pray that I would always see a smile on my dad's face; "a smile from the heart" full of satisfaction and happiness ☺

A zillion thanks papa,
From one heart to another.
