Utilization of Virtual Water Concept to Analyze the Water Scarcity Problem in the Arab World

by

KIFAH MOHAMAD HSAYAN

A Thesis Submitted to Irrigation and Hydraulics Department
Faculty of Engineering – Cairo University
In Partial Fulfillment of the
Requirements for the Degree of
DOCTOR OF PHILOSOPHY
In
Irrigation and Hydraulics

o/cor

FACULTY OF ENGINEERING, CAIRO UNIVERSITY
GIZA, EGYPT

Utilization of Virtual Water Concept to Analyze the Water Scarcity Problem in the Arab World

by

KIFAH MOHAMAD HSAYAN

A Thesis Submitted to Irrigation and Hydraulics Department
Faculty of Engineering – Cairo University
In Partial Fulfillment of the
Requirements for the Degree of
DOCTOR OF PHILOSOPHY

In
Irrigation and Hydraulics

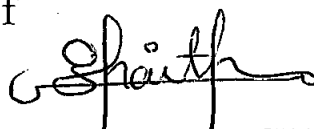

Under the Supervision of

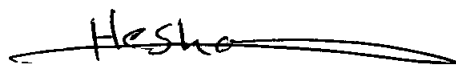

Prof. Dr. MOHAMAD N. ALLAM

Prof. of Irrigation and Drainage Eng.
Irrigation and Hydraulics Dep.
Faculty of Engineering
Cairo University

Dr. MOSTAFA A. GHAITH

Assistant Prof
Irrigation and Hydraulics Dep.
Faculty of Engineering
Cairo University

Dr. HESHAM B. MOHAMAD

Assistant Prof.
Irrigation and Hydraulics Dep.
Faculty of Engineering
Cairo University

FACULTY OF ENGINEERING, CAIRO UNIVERSITY

The Contents

List of Contents	Page Number
The Contents	i .
List of Tables.....	iv
List of Figures.....	vii
Abbreviations	xi
Acknowledgement.....	x
Abstract.....	xii

Chapter (1): Introduction

1-1 Introduction	1
1-2 Research Issues	2
1-3 Research Objectives	3
1-4 Methodology	3
1-5 Thesis Outlines	4

Chapter (2): Review

2-1 Virtual Water Concept	5
2-2 Features of Virtual Water Concept	6
2-3 Constraints of Applying the Virtual Water Concept	6
2-4 Water Footprint Concept	8
2-5 Indicators of Water Footprint	9
2-6 Literature Review	10
2-7 Conclusions	18

Chapter (3): Water Resources in Arab Region

3-1 Introduction	19
------------------------	----

3-2 Cultivated Lands	21
3-3 Water Resources	25
3-4 Water Uses	29
3-5 Future Water Demand	33
3-6 Case Study Countries	36
3-6-1 Arab Syrian Republic	36
3-6-2 Kingdom of Jordan	41
3-6-3 Lebanon	43
3-6-4 Egypt	45
3-6-5 Sudan	49
3-6-6 Saudi Arabia	51
3-6-7 Yemen	53
3-6-8 Libya	55
3-6-9 Morocco	58
3-7 Conclusions	59

Chapter (4): Computation of the Virtual Water Content and Water Footprint for Arab Countries

4-1 Introduction	61
4-2 Computation of the Virtual Water Content	61
4-2-1 Virtual Water Content of Primary Crops	61
4-2-2 Virtual Water Content of Live Animals	67
4-2-3 Virtual Water Content of Livestock's Products.....	74
4-4 Virtual Water Related to the Industrial Products	78
4-4 Water Footprint and its Indicators	79
4-5-1 Water Import Dependency and Water Self-sufficiency	83
4-5-2 Blue and Green Water	84
4-6 Conclusions	86

Chapter (5): The Status of Food Security and the intra-Arab Food Trade

5-1 Introduction	87
5-2 Food Production in the Arab Region	90
5-3 Food Consumption in Arab Region	92
5-4 Food Gap in Arab Region	93
5-5 Self-sufficiency of Food Production	96
5-6 Limitations of Local Food Security Application	97
5-7 Food Trade	99
5-8 Imported and Exported Virtual Water	105
5-9 Intra-Arab Food Trade	108
5-10 Conclusions	112

Chapter (6): Scenarios for Minimizing Food Gap and Improving Intra-Arab Food Trade

6-1 Introduction	113
6-2 Base Case	113
6-3 The Mathematical Model	116
6-3 Integrated Agricultural Planning for the Study Arab Countries ...	120
6-4 Agricultural Planning for Individual Study Countries	142
6-5 Conclusions	149

Chapter (7): Summary, Conclusions and Recommendations

7-1 Summary	151
7-2 Conclusions	156
7-3 Recommendations	157

References	158
-------------------------	-----

Annexes	165
----------------------	-----

Summary in Arabic

List of Tables

Table	Page Number
(3-1) Cultivated Areas in Arab Countries (1999-2003)	23
(3-2) Size of Farmland in Arab Countries.....	25
(3-3) Harvested Land in the Arab World and in the World, 2001.....	26
(3-4) Available Water Resources in Arab Countries in Year 2000	29
(3-5) Annual Water Uses of the Arab Countries in Year 2000	31
(3-6) Population in Access to Safe Drinking	33
(3-7) Per Capita Annual Present and Future Water Availability	35
(3-8) Available Water Resources by Basin in Syria in Year 2001	38
(3-9) Water Balance in Syria (1998-2003)	40
(3-10) the Water Resources and Water Uses in Egypt	48
(3-11) Water Resources and Water Uses in Sudan	51
(4-1) Criteria of Thermal Climate Classification	65
(4-2) Virtual Water Content of Some Crops	66
(4-3) Virtual Water Content of Oil and Sugar Refined Crops	67
(4-4) GNI Per Capita in Studied Arab Countries	68
(4-5) Farming System of Selected Arab Countries	68
(4-6) Animal Parameters for Farming Systems	69
(4-7) Weight of Livestock and Poultry	70
(4-8) Drinking Water Requirement of Animals in Farming Systems	71
(4-9) Feed Composition for Different Animals in Mixed Farming Systems	72
(4-10) Feed Composition for Different Animals in Grazing Farming Systems	73
(4-11) Service Water Requirement for Different Animals in Different	74
Farming Systems	
(4-12) Virtual Water Content of Some Livestock Products	77
(4-13) Virtual Water Content of Live Animal in Selected Arab Countries	77
(4-14) Virtual Water Content for Industrial Products	78
(4-15) Exported and Imported Virtual Water in the Selected Arab Countries ...	79
(4-16) Exported and Imported Virtual Water Related to Crops	80
and Livestock Products in Study Arab Countries
