Biochemical studies on the glutathione and the related enzymes in fresh water fishes

**Thesis
Submitted for Partial Fulfillment
of Master Degree in Biochemistry**

**By
*Rasha Awni Mohamed Guinidi***

**B.Sc. Biochemistry
Faculty of Science
Ain Shams University
1991**

Supervised by

PROF. DR.
Tahany M. Maharem
*Professor of Biochemistry
Biochemistry Dept.
Faculty of Science
Ain Shams University*

Tahany Maharem

PROF. DR.
Ragaa Reda Hamed
*Professor of Biochemistry
Molecular Biology Dept.
Genetic Engineering Division
National Research Centre*

Ragaa R. Hamed

**Ain Shams University
Faculty of Science
Department of Biochemistry
(1998)**

Biochemical studies on the glutathione and the related enzymes in fresh water fishes

Board of Scientific Supervision

Professor Dr. *Tahany Mahmoud Maharem*

Professor of Biochemistry

Biochemistry Department

Faculty of Science

Ain Shams University

Cairo - Egypt

Professor Dr. *Ragaa Reda Hamed*

Professor of Biochemistry

Molecular Biology Department

Genetic Engineering Division

National Research Centre

Dokki - Cairo - Egypt

ACKNOWLEDGMENT

I would like to express my sincere thanks to *PROF. DR. Tahany Mahmoud Maharem*, Prof. of Biochemistry, Department of Biochemistry, Faculty of Science, Ain Shams University for her close supervision, continuous guidance and valuable criticism.

I wish to express my sincere appreciation to *PROF. DR. Ragaa Reda Hamed*, Prof. of Biochemistry, Department of Molecular Biology, National Research Centre for suggesting this point, valuable supervision, continuous guidance, sympathetic help, and encouragement. It was a great honor to work under her supervision.

Deepest gratitude is indebted to my family for their help and constant encouragements.

Deepest gratitude is indebted to National Research Center for the facilities that enable me to participate in this work.

Thanks to every one who had helped me in this work.

*TO MY
PARENTS,
my husband
& my son*

TABLE OF CONTENTS

	Page
Abstract	I
List of Figures	III
List of Tables	V
List of abbreviations	VII
Aim of work	VIII
Introduction	1
Materials and Methods	30
Materials	30
I- Fish	30
II- Chemicals	30
III- Buffers	30
Methods	31
I- Analytical procedures.....	31
1- Preparation of tissue extracts	31
2- Separation of liver cytosol of fish	31
3- Determination of protein.....	32
4- Glutathione determination.....	34
II- Enzyme assays	35
1- Glutathione S-transferase (GST).....	35
a- Using 1-chloro-2,4-dinitrobenzene (CDNB).....	35
b- Using other substrates.....	37
2-Glutathione reductase (GR).....	39
3- Glutathione peroxidase (GP)	40
a-Using H ₂ O ₂	40
b- Using cumenehydroperoxide.....	41
III- Electrophoresis	42
1- Polyacrylamide gel electrophoresis. (PAGE).....	42

2- Sodium dodecyl sulphate polyacrylamide gel electrophoresis (SDS-PAGE)	43
IV- Chromatography.....	50
1- DEAE-cellulose column chromatography	50
2- Carboxy methyl cellulose column chromatography.....	51
3- Cellulose phosphate column chromatography.....	53
4- GSH-Sepharose affinity chromatography	54
V- Molecular weight determination.....	55
VI- Statistical analysis	57
Results.....	58
I- Glutathione and its metabolizing enzymes in fish.....	58
a- Glutathione	58
b- Protein	59
c- Glutathione S-transferase.....	61
d- Glutathione peroxidase	61
e- Glutathione reductase.....	64
II- Effect of pH on the GST activity of <i>O. niloticus</i> , <i>C. carpio</i> and <i>C. lazera</i>	64
III- Stability studies.....	70
1- Effect of freezing and thawing on GST activity	
a- Crude homogenate of <i>O. niloticus</i> , <i>C. carpio</i>and <i>C. lazera</i> liver tissues.....	70
b- Cytosol fraction of <i>O. niloticus</i> , <i>C. carpio</i>and <i>C. lazera</i> liver tissues.....	70
2- Effect of protein concentration on the stability of <i>O. niloticus</i> . GST in liver cytosol.....	72
3- Effect of freeze drying on the stability of <i>O. niloticus</i> . GST in liver cytosol.....	75
IV- Chromatographic behaviour of GST from <i>O.</i> <i>niloticus</i> liver on ion exchangers.....	75

1- Chromatography of GST from <i>O. niloticus</i> liver on cellulose phosphate column.....	75
2- Chromatography of GST from <i>O. niloticus</i> liver on CM-cellulose column.....	78
3- Chromatography of GST from <i>O. niloticus</i> liver on DEAE-cellulose column.....	80
- Affinity chromatography of <i>O. niloticus</i> liver GST on glutathione Sepharose column.....	80
- Purification of <i>O. niloticus</i> liver cytosol GST.....	83
V- Homogeneity.....	90
-Molecular Weight determination	90
VI- Characterization of GST of <i>O. niloticus</i> liver cytosol.....	94
a- Michaelis constant of the purified GST enzyme...	94
b- Effect of pH on the purified GST activity.....	94
c- Effect of inhibitors on the purified GST activity.	98
d- Substrate specificity of the purified GST.....	98
