ACKNOWLEDGEMENT

*I want to express my deep gratitude and sincere appreciation to **Prof. Dr. Mohamed Shehata El-Keredy** Prof. of Crop Science, Faculty of Agricultural Kafr El-Sheikh Tanta University for supervision valuable guidance, encouragement during the progress of the work.*

*Special thanks and deep gratitude are also due to **Prof. Dr. Abdel-Aziz Galal Abdel-Hafez** Prof. of Crop Science, Faculty of Agricultural Kafr El-Sheikh Tanta University for Supervision, valuable advice during the progress of this work and requiring of the manuscript.*

*Deep gratitude and many thanks are also due to **Prof. Dr. Ahmed Fouad Hassan El-Okkia** Vice Director of Cotton Research Institute Agriculture Research Center for Supervision, Continuous interest, for his great help during the progress of this work and help in Preparation of the manuscript.*

Thanks are also due to the staff members of the Department of Agronomy Faculty of Agriculture, Kafr El-Sheikh, Tanta University, for their contribution in the academic part of my study.

Many thanks are due to all the staff members of Maintenance Research of cotton varieties Division, cotton Research Institute, Agriculture Research Center and providing facilities during this study are highly acknowledged.

I wish to thank my Family members for their moral and inspiration during the tenure of my study.
