Approval Sheet

Title of the Ph. D. Thesis :

Petrophysical Evaluation of Abu El-Gharadig Basin (Between Lat. 27° 30' & 28° 00' East and Long. 29° 45' & 30° 00' North) Western Desert, Egypt.

Submitted to :

Faculty of Science, Cairo University

Name of the Candidate :

Hossam Mohamed El-Sherbiny

Supervision Committee :

Prof. Dr. Yehia Abd El-Hady

Prof. of Geophysics, Geophysics Department

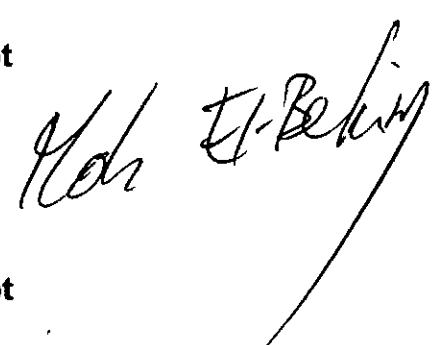

Faculty of Science, Cairo University - Giza, Egypt

Dr. Mohamed Gamiel El-Behiry

Associate Professor, Geophysics Department

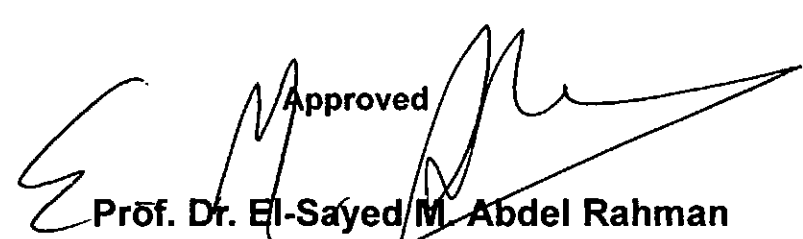

Faculty of Science, Cairo University - Giza, Egypt

Dr. Maher El-Azzony

Associate Professor, Exploration Department,

Egyptian Petroleum Research Institute

Approved

Prof. Dr. El-Sayed M. Abdel Rahman

Head and Chairman of Geophysics Department

Faculty of Science, Cairo University

Acknowledgements

Praise be to Allah. Lord of the world. Eternal guardian of the heavens and earths. I praise him for favours and ask him to increase his grace.

I would like to express gratitude to Prof. Dr. El-Sayed M. Abdelrahman, Head and Chairman of Geophysics Department, Faculty of Science, Cairo University.

Also I would like to express gratitude to Prof. Dr. Y. Abd El-Hady, Professor of Geophysics, Geophysics Department, Faculty of Science, Cairo University for his supervision, sincere criticism, valuable suggestions, fruitful discussion and reading the manuscript of this thesis.

Also, my graduated to Dr. Mohamed Gamiel El- Behiry, Associate Professor, Geophysics Department, Faculty of Science, Cairo University, for his guidance, criticism and fruitful discussion during the progress of this work.

I would like to thanks Dr. Salah S. Azzam, Exploration Department. Egyptian Petroleum Research Institute for his co-supervision and suggesting this work.

My sincere thanks are also due to Prof. Dr. A. Abu. El-Ata, Professor of Geophysics, Geophysics Department, Ain-Shams University for his suggesting this work, his effort in collecting the materials of this study, his valuable suggestions, discussions and valuable leading comments during the progress of this work.

Acknowledgments are due to the authorities of Badr El-Din Petroleum and Company and The Egyptian General Petroleum Corporation (E.G.P.C) for providing the exploration raw data necessary to conduct this work.

N.P. It should be emphasized here that all the interpreted sections as well as the results presented in this work are arrived at the author and not taken from any internal reports of the different oil companies who supplied the raw data.

The author is fully responsible for every statement considered in this work.
