ACKNOWLEDGEMENT

The author - wishes to express His sincere gratitude and appreciation to Prof. Dr. F.F. Mehlar, Professor of Plant Pathology, Agricultural Botany Dept., fac. Agric., Kafer El-Shiekh , Tanta Univ., Prof. Dr. S.F. Mashaal , Professor of Plant Pathology, the same department, Prof. Dr. E.A Salem, the Head of Research, Rice Disease Dept., Plant Pathol. Res. Inst., ARC, Egypt, for their encouragement, support, valuable scientific supervision, advice, continuous help and for the great effort and time they offer during the preparation of this dissertation.

Thanks also are extended to Prof. Dr. M.R. Sehly, the Head of Rice Disease Res. Dept, (Plant Pathol. Res. Inst., ARC, Prof- Dr. Z. H. Osman, Prof. Dr. M.R. Sherif, Dr. E.A.S. Badr, and Dr. S.M. El-Wahsh, Rice Research and Training Center (RRTC), Sakha, Kafer El-Shiekh, Egypt, for their valuable help throughout the accomplishment of the present work.

Thanks for all the staff member of Rice Research and Training Center (RRTC) for providing the materials of various experiments and offering all the facilities throughout this study.

Special thanks offered to my parents, my wife, my son and my daughter.

CONTENTS

INTRODUCTION.....	1
REVIEW OF LITERATURE.....	2
MATERIALS AND METHODS	16
EXPERIMENTAL RESULTS.....	25
I. Symptoms of rice false smut disease.....	25
II. Isolation, purification and identification of the rice false smut fungus	27
III.1. Morphological characters.....	27
a. Pseudosclerotia of green false fungus	27
b. Spore types (chlamydospores, conidiospores and secondary conidiospores) of green false smut fungus.....	27
c. Pseudosclerotia of white false smut fungus.....	27
III.2. Germination of different spores of <i>Ustilagoidea</i> <i>virens</i>	31
IV. Biological characters of <i>U. virens</i>	34
1. Effect of different media on mycelial growth, sporulation and culture characters.....	34
2. Effect of bran media taken from different rice cultivars on mycelial growth and sporulation.....	40
3. Effect of temperature on the morphological and biological characters	43
a. Effect on chlamydospores germination	43
b. Effect on mycelial growth, sporulation and culture characters.....	35
4. Effect of different light periods on mycelial growth, sporulation and culture characters.....	49
5. Effect of glucose rates in rice bran medium on mycelial growth.....	53
V. Occurrence of physiologic forms of <i>U. virens</i>	53
1. Symptoms.....	53
2. Mycelial growth	56

3. Morphological of different spores, sporulation and culture characters.....	56
VI. Effect of different storage conditions on viability of <i>U. virens</i>	61
1. Viability of chlamydospores	61
2. Viability of conidiospores.....	61
VII. Percentage and severity of false smut infection initiated by artificial inoculation under field condition.....	63
VIII. Effect of some fungicides on controlling rice false smut disease.....	65
1. <i>In vitro</i> studies.....	65
a. Effect of certain fungicides on mycelial growth.....	65
b. Effect of certain fungicides on conidial germination	68
2. Field experiment.....	70
