ACKNOWLEDGMENTS

"I do thank God for all gifts he gave me"

I wish to express my deep gratitude and thanks to **Prof. Dr. Zeinab M. El-Kirdassy**, Professor of Medical Biochemistry, Faculty of Medicine, Cairo University, for her guidance and invaluable assistance throughout the work and preparation of the thesis. Her generous encouragement, supervision and critical discussions during the preparation of the manuscript made it possible to be prepared in the present form.

I would like to express my sincere thanks and deep appreciation to **Prof. Dr. Safwat A. Okasha**, Assistant Prof. of Physiology, Head of Zoology Department, Faculty of Science, Aswan, South Valley University, for suggesting the topic and planning the work. Her continuous supervision, helpful discussions of the results as well as facilities she offered during the progress of the work are acknowledged and the final preparation of the thesis to be in this appearance. Her critical revision of the thesis is also much appreciated.

I am greatly honored to express my deep gratitude to **Dr. ABDEL-KADER M. ABDEL-KADER**, Assistant Prof. of Physiology, Zoology Department, Faculty of Science, Aswan, South Valley University, for his kind supervision and cooperation. Much thanks for him for sparing much time in the constructive discussion during the practical part and writing of manuscript.

Deep thanks to **Prof. Dr. M. A. El-Maghraby** the Vice President of the South Valley University, for offering great facilities during this work. Also, deep thanks to **Prof. M. T. El-Haty**. Dean of the Faculty of Science, Aswan, South Valley University, for his encouragement and generous help.

Sincere thanks and appreciation to the Vice Deans. Faculty of Science, Aswan, South Valley University. **Prof. A. I. Koraeim** and **Prof. Dr. A. Arfeen** for their encouragement during the work.

Deep thanks are due to my family members for their help, encouragement during the preparation of the present work.
