**Spontaneous Bacterial Peritonitis: Diagnostic Value Of  
C-Reactive Protein And Tumour Necrosis Factor-Alpha  
And Their Blood-Ascitic Gradients**

Thesis Submitted in Partial Fulfilment for MASTER Degree in Internal  
Medicine

*By*

**MICHAEL TAWFIK FAWZY, (M.B.B.CH.)**

Resident of Internal Medicine Department  
EL-MINIA UNIVERISTY HOSPITAL

***UNDER SUPERVISION***

**Dr. MONA ABD EL-RAHMAN ABU EL-MAKAREM, MD**

Professor of Internal Medicine  
Faculty of Medicine, EL-MINIA UNIVERISTY

**Dr. ESMAT ABD EL-AZIZ EL-SHARKAWY, MD**

Professor of Clinical Pathology  
Faculty of Medicine, EL-MINIA UNIVERISTY

**Dr. SAHAR HOSSAM EL-DIEN EL-HINI, MD**

Lecturer of Internal Medicine  
Faculty of Medicine, EL-MINIA UNIVERISTY

FACULTY OF MEDICINE  
EL-MINIA UNIVERISTY

2006

## *Acknowledgments*

This work would never be crowned by success without the blessing of **Allah**. To him my loyalty will remain forever beyond any compromise.

First and foremost, I would like to express my sincere gratitude to **Professor Dr. Mona Abd El-Rahman Abu El-Makarem**, Professor of Internal Medicine, Faculty of Medicine, El-Minia University. A special grateful thanks to her indispensable advice, invaluable instructions, close attention, supervision of work details and friendly encouragement. She made my research work challenging and rewarding. She has been an exceptional mentor who has supported my intellectual growth as a physician. I feel extremely fortunate to have worked with her.

I wish to express my deep thanks and gratitude to **Dr. Sahar H. El-Din El-Hini**, Lecturer of Internal Medicine, Faculty of Medicine, El-Minia University for her kind help, continuous encouragement and general moral. She gave me a good chance of training. She was behind every step in this work by her continuous encouragement and enthusiastic guidance.

I would like to express my deep appreciation to **Professor Dr. Esmat A. El-Aziz El-Sharkawy**, Professor of Clinical Pathology, Faculty of Medicine, El-Minia University for her scientific advice and kind guidance. My cordial thanks for her advice throughout this work.

Finally, I wish to thank **Dr. Atef Farouk El-Akad**, Lecturer of Internal Medicine, Faculty of Medicine, El-Minia University for his kind help and sincere support during my research work.

September 2006

## *List of Tables*

	Page
<b><u>Table (1):</u></b> Pugh's Modification Of Child Classification.	17
<b><u>Table (2):</u></b> Types Of Ascitic Fluid Infection .	25
<b><u>Table (3):</u></b> Microbiology Of Primary And Secondary Peritonitis .	26
<b><u>Table(4)</u></b> :Indications For Abdominal Paracentesis In patients With Ascites.	39
<b><u>Tabl (5):</u></b> Recommended Antibiotic Regimens For Prevention Of Spontaneous Bacterial Peritonitis.	41
<b><u>Table (6):</u></b> Options For Empiric Antibiotic Therapy Of Spontaneous Bacterial Peritonitis.	42
<b><u>Table (7):</u></b> C-reactive Protein Response In Diseases .	52
<b><u>Table (8):</u></b> Routine Clinical Use Of C-reactive Protein Measurement .	54

<b><u>Table (9):</u></b> Systematic Effects Of Tumour Necrosis Factor-Alpha In Acute Versus Chronic Exposure.	70
<b><u>Table (10):</u></b> Pugh's Modification Of Child Classification	90
<b><u>Table (11):</u></b> Neutrophil Counts And The Results Of Microbiological Cultures Of The Ascitic Fluid Among Patients With Spontaneous Bacterial Peritonitis.	96
<b><u>Table (12):</u></b> Demographic Characteristics And Child-Pugh Classification Among Both Groups.	97
<b><u>Table (13):</u></b> Serum Biochemical Parameters Among Patients' Groups.	98
<b><u>Table(14):</u></b> Ascitic Fluid Biochemical Parameters Among Patients In Both Groups.	99
<b><u>Table(15):</u></b> Serum-Ascitic Gradient For Lactic Dehydrogenase , C-reactive Protein And Tumour Necrosis Factor-Alpha Among Patients In Both Groups.	100

<b><u>Table (16):</u></b> Correlation Between Ascitic Lactic Dehydrogenase , C-Reactive Protein And Tumour Necrosis Factor-Alpha Among All Patients.	100
<b><u>Table (17):</u></b> Correlation Between Blood-Ascitic Gradients Of Lactic Dehydrogenase ,C-Reactive Protein And Tumour Necrosis Factor- Alpha Among All patients.	101
<b><u>Table (18):</u></b> Logistic Regression Analysis Of Some Risk Factors For Spontaneous Bacterial Peritonitis With Ascitic Lactate Dehydrogenase As The Dependent Factor.	106
<b><u>Table (19):</u></b> Logistic Regression Analysis Of Some Risk Factors For Spontaneous Bacterial Peritonitis With Serum-Ascitic Lactate Dehydrogenase As The Dependent Factor.	107
<b><u>Table (20):</u></b> Logistic Regression Analysis Of Some Risk Factors For Spontaneous Bacterial Peritonitis With Ascitic C-Reactive Protein As The Dependent Factor.	112
<b><u>Table (21):</u></b> Logistic Regression Analysis Of Some Risk Factors For Spontaneous Bacterial Peritonitis With Serum-Ascitic Gradient For C-Reactive Protein As The Dependent Factor.	113

**Table (22):** Logistic Regression Analysis Of  
Some Risk Factors For Spontaneous Bacterial  
Peritonitis With Ascitic Tumour Necrosis  
Factor Alpha As The Dependent Factor.

116

**Table (23):** Logistic Regression Analysis Of  
Some Risk Factors For Spontaneous Bacterial  
Peritonitis With Serum-Ascitic Gradient For  
Tumour Necrosis Factor Alpha As The  
Dependent Factor.
