PRODUCTION OF LETTUCE USING ORGANIC, BIO- AND MINERAL FERTILIZATION UNDER SALINE CONDITIONS

By

MOHAMMED MOUSTAFA ABD EL-MEGUID EL-MESSIRY

B.Sc. Agric. Sc. (Horticulture), Cairo University, 1991 M.Sc. Agric. Sc. (Vegetable Crops), Ain Shams University, 2003

A thesis submitted in partial fulfillment

of

the requirements for the degree of

DOCTOR OF PHILOSOPHY

in Agricultural Science (Vegetable Crops)

Department of Horticulture Faculty of Agriculture Ain Shams University

Approval Sheet

PRODUCTION OF LETTUCE USING ORGANIC, BIO- AND MINERAL FERTILIZATION UNDER SALINE CONDITIONS

By

MOHAMMED MOUSTAFA ABD EL-MEGUID EL-MESSIRY

B.Sc. Agric. Sc. (Horticulture), Cairo University, 1991 M.Sc. Agric. Sc. (Vegetable Crops), Ain Shams University, 2003

This Thesis for Ph.D. degree has been approved by:

| Prof. Dr. Abou El-Fotouh Mohamed Abdullah Prof.Research of Vegetable Crops, National Research Center. |
|--|
| Prof. Dr. Mohammed Hashem El-Deeb |
| Dr. Mohammed Mohammed Soliman Associate Prof. of Vegetable Crops, Faculty of Agriculture, Ain Shams University |
| Prof. Dr. Ibrahim Ibrahim El-Oksh Prof. Emeritus of Vegetable Crops, Faculty of Agriculture, Ain Shams University |

Date of Examination: 5/9/2009

PRODUCTION OF LETTUCE USING ORGANIC, BIO- AND MINERAL FERTILIZATION UNDER SALINE CONDITIONS

By

MOHAMMED MOUSTAFA ABD EL-MEGUID EL-MESSIRY

B.Sc. Agric. Sc. (Horticulture), Cairo University, 1991 M.Sc. Agric. Sc. (Vegetable Crops), Ain Shams University, 2003

Under the supervision of:

Prof. Dr. Ibrahim Ibrahim El-Oksh

Prof. Emeritus of Vegetable Crops, Department of Horticulture, Faculty of Agriculture, Ain Shams University (Principal supervisor)

Dr. Mohammed Mohammed Soliman

Associate Prof. of Vegetable Crops, Department of Horticulture, Faculty of Agriculture, Ain Shams University

Prof. Dr. Sohair Mohammed Khalaf

Research Prof. Emeritus of Vegetable Crops, Department of Plant Production, Desert Research Center

ACKNOWLEDGEMENT

The auther wishes to express deep sense of gratitude to the late **Prof. Dr. Ibrahim I El-Oksh**, Prof. of vegetable crops, Horticulture Dept., Ain Shams University, for valuable guidance, supervision, patience, continuous advice and encouragement.

I would like to extend my sincere gratitude to **Prof. Dr. Sohair M.Khalaf,** Prof. of vegetable crops, Environment and Dry Land Cultivation Division, plant production Dept. of the Desert Research Center (DRC) for supervision, patience, advice and constructive guidance.

Gratitude and thanks are also due to **Dr. Mohammed M. Soliman Abd-El-Maola,** associate Prof. of vegetable crops, Horticulture Dept, Ain Shams University, for constructive supervision, patience, advice, writing the thesis and editing of this manuscript.

Thanks are also due to the DRC, the staff, fellow workers, especially the crew of Sudr Experimental Station for their spiritual support and encouragement during the achievement of the experimental work of this study. Thanks is due to my colleagues in Environment and Dry Land Cultivation Division, Plant Production Dept. of the Desert Research Center, for their cooperation and friendly atmosphere.
