

Stress Distribution of Different Implant Supported FPD Designs Using Two Connection Systems of Implant Abutments

*A Thesis Submitted to the Faculty of Dentistry- Ain Shams University,
for Partial Fulfilment
of the Requirements of Doctor Degree in Fixed prosthodontics*

By

Ahmed Wagdy Hashem

B.D.Sc. October University (2007)

M.Sc. Cairo University (2013)

Ains shams University

Faculty Of dentistry

2017

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

رَبِّ السَّمْعِ السَّمْعِ
وَسَمِعَ السَّمْعِ

Supervisors

Dr. Amina Mohamed Hamdy

Professor of Fixed Prosthodontics,
Faculty of Dentistry,
Ain Shams University

Dr. Nadia Fahmy

Professor of Fixed Prosthodontics,
Faculty of Dentistry,
MSA University.

Dr. Marwa Mohamed Wahsh

Ass, Professor of Fixed Prosthodontics
Faculty of Dentistry,
Ain Shams University

A decorative rectangular border with ornate floral and leaf patterns at each corner and along the sides.

Dedication

*I dedicate this work to my
supportive and devoted father
and my beloved mother.*

ACKNOWLEDGMENT

First of all, I'd like to express my deepest thanks and sincere gratitude to my supervisor **Dr. Amina Mohamed Hamdy**, for her kind hearted generosity, knowledge and scarifying her precious time to meticulously over look every aspect of the research from the planning phase till its completion offering some very valuable insights along the way.

I also want to express my appreciation to **Dr.Marwa Wahsh** for her kind suggestion, cooperation and constructive opinions that were essential to dress this work in its final form and for all the time she gave me to make this thesis possible.

I also would like to express my profound sense of gratitude and appreciation to my mentor, **Dr. Nadia Fahmy** for teaching me various aspects of life both professional and personal, and for always motivating me to do everything myself.

My deep gratitude to thank all the staff members in MSA university especially **Dr.Heba Darwish ,Dr. Mai Hesham** and **Dr.Faisal Hamza** for giving me a great hand throughout this thesis.

I would like to specially thank **Dr.Mohamed Kandeel** for helping in this thesis.
