AIN SHAMS UNIVERSITY
FACULTY OF SCIENCE

ASSESSMENT OF THE PHYSICAL PROPERTIES OF THE SILICONIZED
COATING PRODUCED BY PYROLYTIC DECOMPOSITION
OF
TETRAPHENOXYSilane (TPOS) AT HIGH TEMPERATURE ON
IRON ALLOY

BY
OSSAMA MAHMOUD ABO-ELENIEN
M. Sc. In CHEMISTRY

A THESIS
SUBMITTED
TO
THE FACULTY OF SCIENCE
AIN SHAMS UNIVERSITY

THE Ph. D. DEGREE OF PHILOSOPHY In CHEMISTRY
PETROLEUM RESEARCH INSTITUTE

1996

B 777.

Approval Sheet

**ASSESSMENT OF THE PHYSICAL PROPERTIES
OF THE SILICONIZED COATING PRODUCED BY
PYROLYTIC DECOMPOSITION OF TETRAPHENOXY-
SILANE (TPOS) AT HIGH TEMPERATURE
ON IRON ALLOY**

THESIS ADVISORS

- 1- Prof. Dr. Maher M.A. El hashash
- 2- Prof. Ass. Dr. Khaled M.E. Hashem
- 3- Prof. Dr. Maher A. El Sockary
- 4- Prof. Dr. Nazmi A. Ramdan

APPROVED

Prof. Dr. A. F.M. Fahmy

A. F. M. Fahmy
Head of Chemistry Department

ACKNOWLEDGEMENTS

ACKNOWLEDGEMENTS

The author would like to express his gratitude to Professor Dr.M.A.ELHASHASH, Professor of Organic Chemistry, Faculty of Science, Ain Shams University, for kind supervision.

The author wishes to express his special thanks and sincere gratitude to Professor Dr.Kh.M.E. HASHEM, Associate Professor of Physical Chemistry, Faculty of Science, Ain Shams University, for suggestion the point, planning the experimental work, his continual interest, valuable and helpful advice aiming the discussion critical reading of the manuscript which greatly overcomed and clarified all the academic difficulties met during the accomplishment of this thesis.

The author would also like to his great pleasure and thanks to Professor Dr. M. A. ELSOCKARY Head of Petroleum Application Department, Egyptian Petroleum Research Institute (EPRI), for overcoming non-academic problems, his kind supervision and continuous encouragement.

The author also wishes to express his thanks to Professor Dr. N. A. RAMADAN, Professor of Silicon Organic Chemistry, Petroleum Application Department, ERRI, for providing the organosilicon compound, his kind supervision, and continuous encouragement.

The author thanks the head and members of Central Chemical Laboratory of the Egyptian Electricity Authority, for facilitating and encouragement to carry-out the experimentals included in this thesis.

The author thanks Egyptian Petroleum Research Institute (EPRI), especially Professor Dr. M.F. EZZAT. Director of EPRI, Professor Dr S. H. IBRAHIM, Professor Dr.E.M. HELMI and all members of special Applications Laboratory.

DEDICATION

TO MY FAMILY,MY WIFE, AND MY SONS
