

# **MOLECULAR STUDIES ON GENE MODIFIED MICROORGANISMS FOR BIOLOGICAL AND INDUSTRIAL PURPOSES**

**By**

**Abdel-Baset Mohamed Abdel-Latif**

**B.Sc. Agric., (Biochemistry), Cairo Univ. Egypt, 2000**

**M.Sc. Agric., (Biochemistry), Cairo Univ. Egypt, 2005**

**THESIS**

**Submitted in Partial Fulfillment of the Requirement for  
the Degree of**

**DOCTOR OF PHILOSOPHY**

**In**

**Agricultural Sciences  
(Biochemistry)**

**Department of Biochemistry  
Faculty of Agriculture  
Cairo University  
Egypt**

**2010**

## **APPROVAL SHEET**

# **MOLECULAR STUDIES ON GENE MODIFIED MICROORGANISMS FOR BIOLOGICAL AND INDUSTRIAL PURPOSES**

**Ph. D. Thesis**  
**By**

**ABDEL-BASET MOHAMED ABDEL-LATIF**

B.Sc.Agric. Sci. (Biochemistry), Fac. Agric., Cairo Univ., 2000.

M.sc. Agric. Sci. (Biochemistry), Fac. Agric., Cairo Univ., 2005.

### **Approval Committee**

**Dr. AHMED MAHMOUD ABOUL-ENEIN**

.....

**Professor of Biochemistry, Fac. Agric., Cairo University.**

**Dr. Hany Abdel-Aziz El shemy**

.....

**Professor of Biochemistry, Fac. Agric., Cairo University.**

**Dr. ABDEL- MOHSEN SABER ISMAIL**

.....

**Research Professor of Natural and Microbial Products Chemistry,  
National Research Center.**

**Date / /**

## **SUPERVISION SHEETE**

# **MOLECULAR STUDIES ON GENE MODIFIED MICROORGANISMS FOR BIOLOGICAL AND INDUSTRIAL PURPOSE**

**Ph.D. Thesis  
BY**

**ABDEL-BASET MOHAMED ABDEL-LATIF**

B.Sc.Agric. Sci. (Biochemistry), Fac. Agric., Cairo Univ. 2000  
M.sc. Agric. Sci. (Biochemistry), Fac. Agric., Cairo Univ. 2005

## **SUPERVISION COMMITTEE**

**Dr. AHMED MAHMOUD ABOUL-ENEIN**

Professor of Biochemistry, Fac. Agric. Cairo University

**Dr. AHMED IBRAHIM EL-DIWANY**

Research Professor of Natural and Microbial Products – NRC, Giza

**Dr. MOURAD ABDEL- MAGEED ABOUL-SOUD**

Associate Professor of Biochemistry, Fac. Agric. , Cairo University

## DEDICATION

*I dedicate this work to whom my heart felt thanks; to my late parents, my wife, my sons and my brothers, as well as my hearty lovely thanks to my professors.*

## *Acknowledgement*

*My thanks for Allah. Many thanks for my Professors who educated and trended me through all of my scientific life; **Professor Ahmed Aboul-Enein, Professor Ahmed El-Diwany and Professor Abdel-Mohsen Saber.** Many thanks for my family; my wife; brothers and my sons for their patience and encouragement. Many thanks also for **Dr. Sozan El-seesy -NODCAR-** for here support in the biochemical and histopathological studies.*

<b>ARABIC SUMMARY.....</b>	

## LIST OF TABLES

No	Title	Page
1.	Growth rate of MYPHINS500 grown on YPDA medium at different temperatures.....	75
2.	Growth rate of the Modified yeast MYPHINS500 grown on YPDA medium at different pH.....	77
3.	Growth rate for modified the Modified yeast YPHINS500 grown on YPDA medium at different incubation periods .....	78
4.	Growth rate for the modified yeast YPHINS500 grown on YPDA with camel milk medium at different temperatures.....	79
5.	Growth rate for the modified yeast YPHINS500 grown on YPDA with camel milk medium at different pH .....	80
6.	Growth rate for the modified yeast YPHINS500 grown on YPDA with camel milk medium at different incubation periods.....	81
7.	Growth rate for the modified yeast YPHINS500 grown on YPDA with YEM medium at different temperatures .....	82
8.	Growth rate for the modified yeast YPHINS500 grown on YPDA with YEM medium at different pH values.....	83
9.	Growth rate of the modified yeast MYPHINS500 grown on YPDA with YEM medium at different incubation periods .....	84

10.	Growth rate of the modified yeast MYPHINS500 grown on pure camel milk medium at different temperature.....	85
11.	Growth rate for the modified yeast YPHINS500 grown on pure camel milk medium at different pH values.....	86
12.	Growth rate for the modified yeast YPHINS500 grown on pure camel milk medium at different incubation period.....	87
13.	Growth rate for the modified yeast YPHINS500 grown on YEM medium at different temperature.....	88
14.	Growth rate for the modified yeast YPHINS500 grown on YEM medium at different pH.....	89
15.	Growth rate for the modified yeast PHINS500 grown on YEM medium at different incubation periods .....	90
16.	The sheet analysis of insugeast bands density related to standard insulin band.....	93
17.	The chromatogram parameters of the standard insulin peak.....	94
18.	The chromatogram parameters of insugeast produced by MYPHINS500/ PC medium peak.....	95
19.	The chromatogram parameters of insugeast produced by MYPHINS500/ PC medium with glucose inducer peak.....	96
20.	The chromatogram parameters of insugeast produced by MYPHINS500/ PC medium with	

	tryptophan peak.....	97
21.	The chromatogram parameters of insugeast peak produced by MYPHINS500/ PPC medium.....	98
22.	The chromatogram parameters of insugeast produced by MYPHINS500/ PPC medium with glucose inducer peak.....	99
23.	The chromatogram parameters of insugeast produced by MYPHINS500/ PPC medium with tryptophan inducer peak.....	100
24.	The chromatogram parameters of insugeast produced by MYPHINS500/ YEM medium peak.....	101
25.	The chromatogram parameters of insugeast produced by MYPHINS500/ YEM medium with glucose inducer peak.....	102
26.	The chromatogram parameters of insugeast produced by MYPHINS500/ YEM medium with tryptophan inducer peak.....	103
27.	The chromatogram parameters of insugest produced by MYPHINS500/ YPAD medium with glucose inducer peak.....	104
28.	The chromatogram parameters of insugeast produced by MYPHINS500/ YPAD medium with tryptophan inducer peak.....	105
29.	The chromatogram parameters of insugeast produced by MYPHINS500/ YPAD medium peak.....	106
30.	Peak calculations of parameters in the chromatogram of the protein mixture extract from the non-transformed yeast .....	107

31.	Concentration for recombinant insulin in comparison to standard insulin.....	108
32.	Absorbance values obtained by ELISA system.....	111
33.	The effect of biphasic insugeast form preparation injections on body weights of STZ-Diabetic rats...	112
34.	The effect of biphasic insugeast form preparation injections on lipogram of STZ-Diabetic rat.....	112
35.	The effect of different rapid insugeast form preparation injections on body weights of STZ-diabetic rats.....	112
36.	The effect of different modified yeast with insugeast preparation injections on body weights of STZ-diabetic rats.....	113
37.	The effect of biphasic insugeast form preparation injections on mortality rates of STZ-diabetic rat...	113
38.	The effect of modified yeast with insugeast (YPHINS500-delivery) preparation injections on mortality rates of STZ-diabetic rats.....	113
39.	The effect of biphasic insugeast form and MYPHINS500-delivery system preparation injections on FBG & after 2h for STZ-diabetic rats.....	114

40.	The effect of rapid insugeast form preparation injections on FBG & after 2h of STZ-Diabetic rats.....	114
41.	The effect of rapid insugeast form preparation injections on hepato-renal dysfunctions of STZ-Diabetic rats.....	115
42.	The effect of biphasic insugeast form preparation injections on hepato-renal dysfunctions of STZ-diabetic rats.....	115
43.	The effect of modified yeast with insugeast preparation injections on hepato-renal dysfunctions of STZ-diabetic rats.....	116
44.	The effect of rapid insugeast form preparation injections on lipogram of STZ-diabetic rats.....	116
45.	The effect of biphasic insugeast form preparation on injections on lipogram of STZ-diabetic rats.....	117
46.	The effect of modified yeast cells with proinsulin gene preparation injections grown on lipogram of STZ- diabetic rats.....	118
47.	Collection on Table for the histopathological effects of the examined tissues by the treated and non-treated <i>albino wistar</i> rats with the recombinant human insulin (Insugeast).....	139

48. Collection Table for the histopathological effects of the examined tissues by treated *albino wistar* rats with the modified yeast cells by proinsulin gene.....

140
