VENTRICULAR USES OF NEUROENDOSCOPY

Thesis

Submitted for Partial Fulfillment of
M.D. Degree in
Neurosurgery

By

Mahmoud Hamdy I. Kamel
M.B., B. Ch. & M. Sc.

Supervised By

Prof. Dr. Alaa Abdel Hay
*Chairman, Professor of Neurosurgery
Ain Shams University*

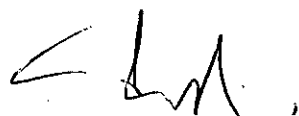

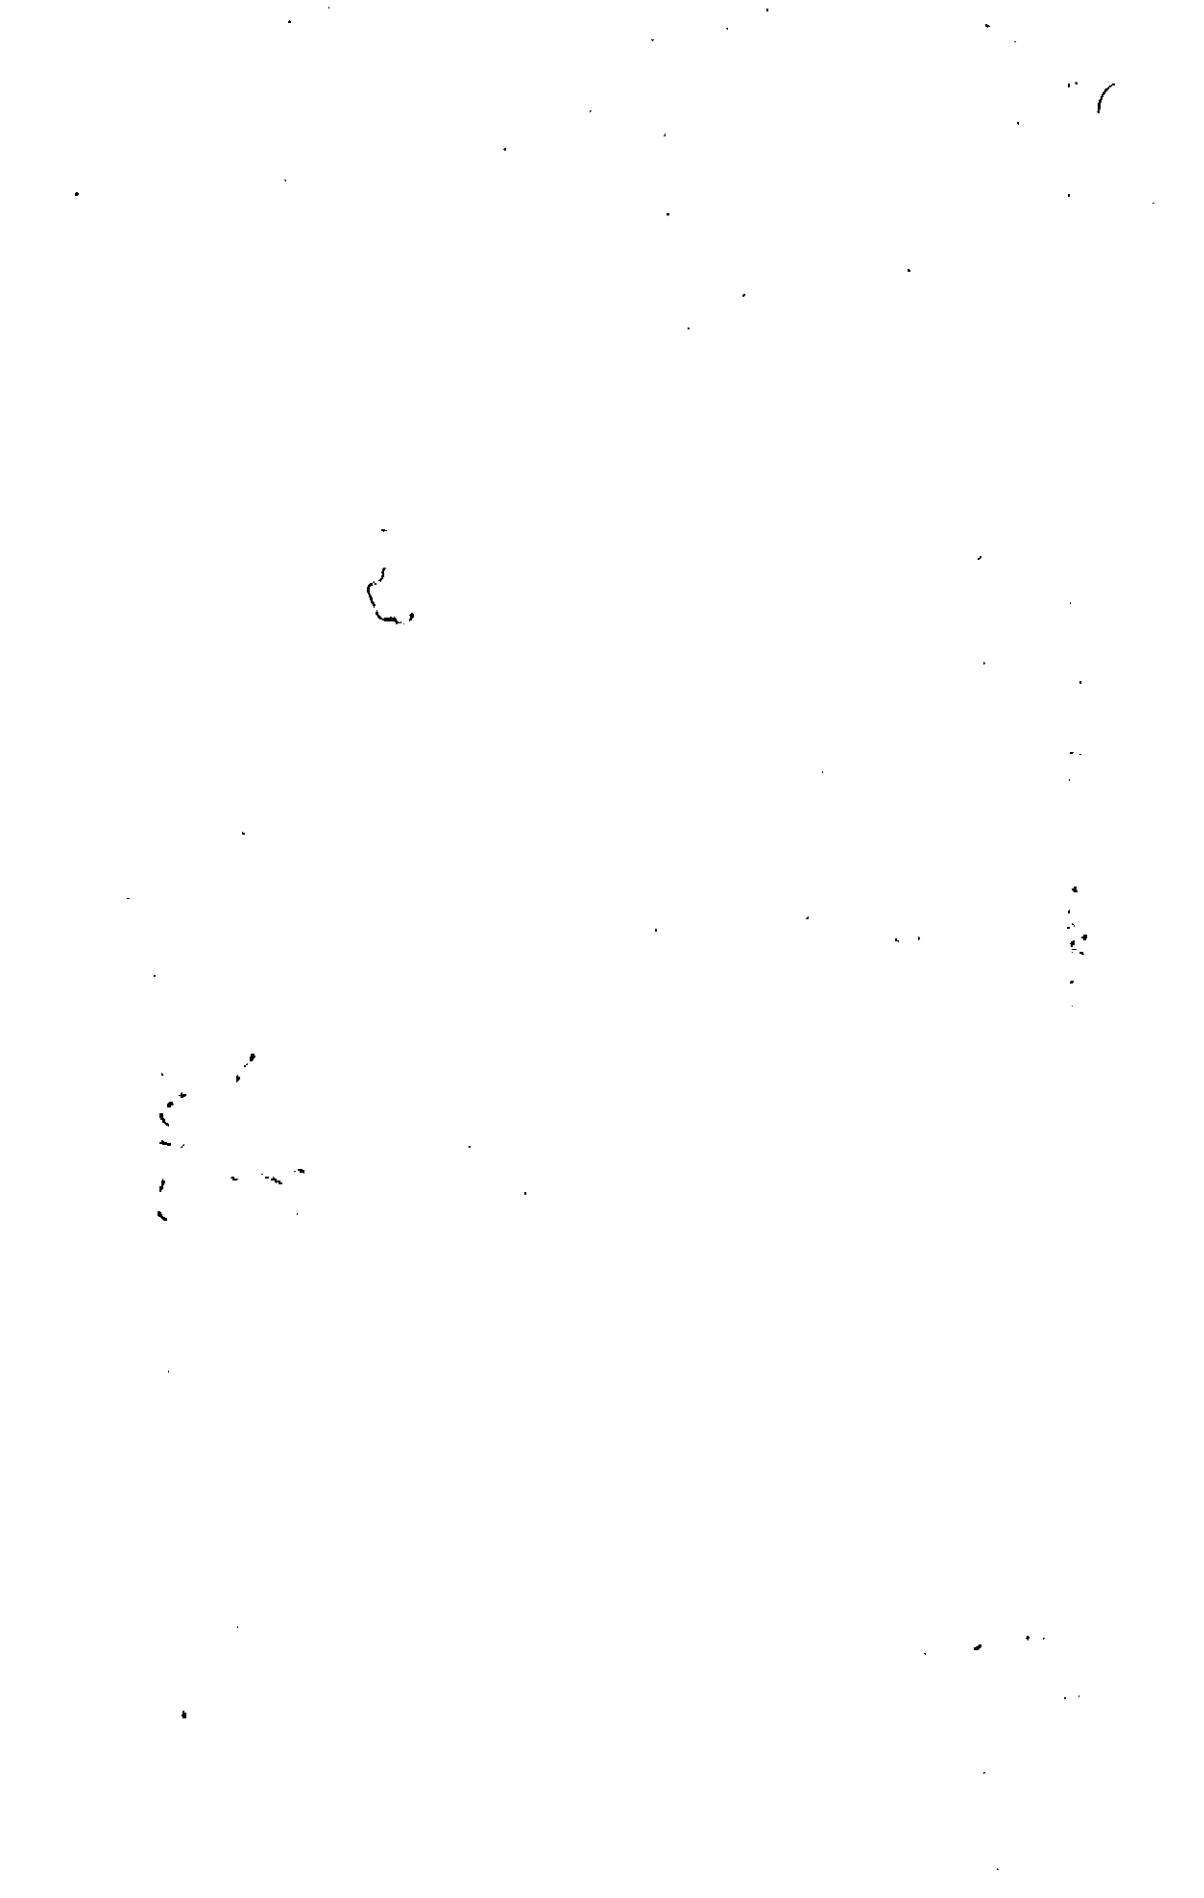

Prof. Dr. Alaa Fakhr
*Professor of Neurosurgery
Ain Shams University*

**Faculty of Medicine
AIN SHAMS UNIVERSITY
2002**

BT 12

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا عَلَّمْتَنَا
إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ

صدق الله العظيم

البقرة الآية ٢٢

Acknowledgement

To Allah, goes all my deepest gratitude and thanks for achieving any work in my life.

I wish to express my cordial appreciation and utmost gratitude to Prof. Dr. Alaa El-Din Abd El-Hay, Chairman, Professor of Neurosurgery, Ain Shams University, for his sincere guidance, supervision and kind encouragement throughout the whole thesis. Professor Hay was the body and core of this study by his energetic and scientific way of dealing with every task. His perservance and noble way of teaching were and still are unmatched, to him, I owe a lot.

My sincere thanks to Prof. Dr. Mohammed Alaa Fakhr, Professor of Neurosurgery, Ain Shams University, for his relentless support, splendid efforts, creative thoughts as well as providing an invaluable criticism and direction.

Special thanks and sincere appreciation to Prof. Dr. Jack Phillips, Professor of Neurosurgery, Royal College of Surgeons in Ireland, and Mr. George Kaar, Consultant Neurosurgeon, Cork University hospital for their valuable suggestions and kind assistance.

Last but not least, my deep appreciation is expressed to all the staff of Neurosurgery Department, Ain Shams University, Cork University, and Beaumont hospital as well as to all members of my family for their cooperation and encouragement.

CONTENTS

	Page
Introduction and Aim of Work	1
Review of Literature	
History of neuroendoscopy	3
Neuroendoscopic and video imaging	9
Transendoscopic instrumentation and techniques	20
Endoscopic anatomy of ventricular system	30
Treatment of complex hydrocephalus	59
Unilateral hydrocephalus	63
Placement of ventriculoperitoneal shunts	64
Removal of adherent ventricular catheters	66
Third ventriculostomy	67
Aqueductal plasty	71
Arachnoid cyst	71
Colloid cyst	74
Endoscopy assisted microsurgery	77
Patients and Methods	81
Results	101
Discussion	135
Summary and Conclusion	157
References	161
Arabic Summary	--

LIST OF TABLES

No.	Title	Page
1	Master Tables	102
2	Clinical presentation and diagnosis	107
3	Distribution of previous shunting	120
4	Success rate for third ventriculostomy	122
5	Pre and postoperative FORs	124
6	Success rate in patients older than 2 years	129
7	Success rate in patients younger than 2 years	130
8	Success rate in previously shunted and non-shunted patients	131
9	Success rate in relation to thickness of the floor of the 3 rd ventricle	132

LIST OF FIGURES

No.	Title	Page
1	A steerable endoscope passed into rigid endoscope applied to BRW stereotactic frame	11
2	Flexible endoscope	12
3	Endoscope's standing holder	12
4&5	Two examples of pen scopes	14
6	Disposable neuroendoscope	15
7	Tip of endoscope protruding through ventricular catheter	15
8	A dedicated system for neuroendoscopy	18
9	Endoscopic grasping forceps	21
10	Endoscopic needle	23
11	Fogarty balloon	23
12	Endoscopic electrode	24
13	Endoscopic laser endoprobe	25
14	Endoscopic ultrasonic aspirator	29
15	A cast of the ventricular cavities	31
16	View of the floor of the fourth ventricle	32
17	Schematic view of the ventricular system	34
18	Floor of lateral ventricle	35
19	Coronal section in 3 rd and lateral ventricle	36

No.	Title	Page
20	Corpus callosum	38
21	Coronal section at level of frontal horn	39
22	Superficial and deep venous drainage of the brain	42
23	Diencephalic components of the lateral wall of the third ventricle	42
24	Endoscopic view of interventricular foramen	46
25	Superior view of the velum interpositum	47
26	Occipital horn	49
27	Endoscopic view of posterior wall of third ventricle	54
28	Endoscopic view of anterior wall of third ventricle	57
29	Endoscopic view of floor of third ventricle	58
30	Iohexol contrast CT ventriculogram	61
31	Optimal placement of ventricular catheter	65
32	MRI showing adequate diameter of third ventricle	83
33	MRI showing narrow floor of third ventricle	83
34	Changes in head circumference with age	86
35	Storz and Zeppelin neuroendoscope	88
36	Endoscopic instruments	89
37	Mobile cabinet	90
