Science and Educations
Ain Shams University

**Realization of NIS (National Institute for Standards)
Viscosity Scale for the Third Time at Different
Temperature Ranges**

Presented by

Eman Mohy El-Dien Mohamed Abo El-Elaa
A Thesis Submitted to

PHYSICS DEPARTMENT

In Partial Fulfillment of the Requirements for the Degree of

DOCTOR OF PHILOSOPHY

Supervised by

Dr. Hoda Mohamed Mohamed Abu Dorra

Assist. Prof. of Solid State Physics

Faculty of women for Arts, Science and Education

Ain Shams University

Prof. Dr. Mostafa Mahmoud Mekawy

Prof. of Thermometry

Head of Thermal Metrology Laboratory

National Institute for Standards

2016

Faculty of Women for Arts
Science and Educations
Ain Shams University

Name of candidate:

Eman Mohy El-Dien Mohamed Abo El-Elaa

Thesis Title:

**"Realization of NIS (National Institute for Standards)
Viscosity Scale for the Third Time at Different
Temperature Ranges"**

Department: Physics Department

**Faculty: Faculty of Women for Arts, Science
and Educations**

University: Ain Shams University

Graduation Year: 2007

Awarded Year: 2016

Approval Sheet

Name of candidate: Eman Mohy El-Dien Mohamed Abo El-Elaa

Thesis Title:

"Realization of NIS (National Institute for Standards) Viscosity Scale
for the Third Time at Different Temperature Ranges"

Name of the Degree: Doctor of Philosophy in Science

Referees Committee:

Name:

Job:

Dedication

Dedicated To

*My father and mother,
Whose favors are beyond
description.*

*My brother and sister for
their never-ending support
and care.*

*Special thanks I owe to my
husband for his kindness,
support and love. Finally, the
way to the future is given by*

*eyes of my sweet heart
daughter and lovely son.*

Acknowledgements

*First and foremost, I kneel
meekly to **ALLAH**, thanking
HIM for paving the way for
me and helping me to be a
positive influence in this wide
world, I pray for **HIM** to
provide me with knowledge
that enlight the dark regions
in my mind for a better life.*

*I would like to express my deep
gratitude, appreciation and*

sincere thanks to Prof. Dr. Hoda Mahmoud Abu-Doura; Professor of Physics, Faculty of Women, Ain Shams University, Prof. Dr. Mostafa Mahmoud Mekawy; Mahmoud Thermal Laboratory, National Institute for Standards & Whose support were the first steps in my successful way.

Eman Mohy

	Acknowledgement	I
	List of figures	X
	List of tables	XVI
	Abstract	1
	Summary	3
	Chapter (1)	
	General Introduction	
1-1	Introduction.	5
1-2	NIS Mission.	6
1-3	Aim of The Present Work.	8
1-4	Scientific Meaning of Viscosity.	10
1-5	Types of Fluid Exhibiting Various Flow Behaviors.	16
1-6	Types of Viscometers.	20
1-6-1	Glass Capillary Viscometers	20
1-7	Units Used in Viscosity	28
1-7-1	Definitions	29
1-7-1-1	Plasticity	29
1-7-1-2	viscoelasticity	29
1-8-2	Classification of Fluids	
1-8-1	Newtonian Fluids	30

1-8-2	Non-Newtonian Fluids	31
1-8-2-1	Pesudoplastic	32
1-8-2-2	Dilatant	33
1-8-2-3	Plastic	34
1-8-2-4	Shear Thickening Flow Behavior	36
1-8-2-5	Time-Dependent Flow Behavior	36
1-9	Factors Affecting Viscosity	37

Chapter (2)

Apparatus

2-1	The Historical Development of Viscosity Scales	42
2-2	Factors Affecting Viscosity Measurements	47
2-2-1	Temperature Dependence	47
2-2-2	Pressure Dependence	49
2-3	Advantage of Using Water as a Standard Liquid and N-nonan as a Secondary Standard Liquid	50
2-4	Oils Used in the study at wide Temperature Ranges.	53
2-5	Equipment	54
2-5-1	Large Bath Used for Master Viscometer	54

2-5-2	The Bath Used for Maintain the Short Capillary Viscometer	56
2-5-3	The Cooled Unit	58
2-5-4	The Low Temperature Bath	61
2-5-5	The High Temperature Bath	63
2-5-6	Thermometers	65
2-5-7	Thermometer Bridge	68
2-5-8	Stopwatches	69
2-5-9	Ubbelohde Viscometers Used in This Study	69

Chapter (3)

Experimental Techniques

3-1	Metrological Procedure	73
3-2	Cleaning of the viscometers	73
3-3	Study of the Temperature Profile of the Large Bath	74
3-3-1	Thermal Profile Distribution	79
3-3-2	Temperature Stability	81
3-3-3	Thermal Gradient	82
3-3-3-1	Vertical Thermal Gradient	82
3-3-3-2	Horizontal Thermal Gradient	85
3-4	Long term stability of the bath	89

3-5	The realization of NIS viscosity scale	89
3-6	Experimental measurements	96

Chapter (4)

Results and Discussion

4-1	Results	102
4-2	Uncertainty of the Measurements	103
4-3-1	Results of the water analysis	105
4-3-2	Results of group No. (1)	105
4-3-2-1	Results of group No. (1) at 20 °C	106
4-3-2-2	Results of group No. (1) at 25 °C	108
4-3-3	Results of group No. (2)	110
4-3-3-1	Results of group No. (2) at 25 °C	110
4-3-3-2	Results of group No. (2) at 20 °C	112
4-3-4	Results of group No. (3)	114
4-3-5	Results of group No. (4)	116
4-3-6	Results of group No. (5)	118
4-3-7	Results of group No. (6)	120
	Conclusion	122
	Reference	125
	Annex 1	133
	Annex 2	138

Annex 3	154
Arabic summary	158
