DEDICATION

To my darling father's spirit, Mr. Moawad Abd Elrhman, *the strong and gentle soul who taught me to trust in Allah and believe in hard work and pushed me towards success in life. I just want to say thank you for all the sacrifices you made, all the support you gave me, all the guidance you gave when I needed it. I love you with all of my heart and I am proud of you.*

To my darling mother, Mrs. Aisha Mohamed *for her love and her great support and help which surrounded by her forever love. I just wanted to say you are the driving force in my life and career. Without you, I cannot live, my mother.*

To ***my lovely sisters, Rehab and her husband, Asmaa, Sara, the beautiful girl Aya*** *and* ***my little brother Ahmed*** *for their help, support and patience during the preparation of this work.*

Acknowledgment

First to all, thanks to **Allah** for giving me this opportunity, the strength, the patience and the ability to complete this study, after all the challenges and difficulties. Thanks to **Allah** for all gifts given to me.

I am sincerely grateful to my supervisor **Prof. Mervat Aly Abo-State**, Professor of Microbiology, National Center for Radiation Research and Technology (NCRRT), Atomic Energy Authority who suggested the research point for her guidance, advices, and great efforts throughout all stages of this study. Special appreciation goes to her, for her supervision and constant support, her invaluable help of comments and suggestions throughout the experimental and Thesis works have contributed to the success of this research.

I would like to express my greatest gratitude to my supervisor **Assist. Prof. Sherif Moussa Husseiny**, Assistant Professor of Microbiology, Botany Department, Faculty of Women for Arts, Science and Education, Ain Shams University for encouragement, continuous supporting and helpful advices in all time to facilitate all my difficulties. His guidance helped me in all the time of research and writing of this Thesis.

I am greatly indebted and appreciate very much to my supervisior **Dr. Hala Abd Elmonem Ahmed**, Lecturer of Microbiology**,** Botany Department, Faculty of Women for Arts, Science and Education, Ain Shams University for her kind

assistance and cooperation in conducting the research. Thanks are also extended to her for helpful advices, guidance and encouragement.

I'd like to give a delicate dedication to my family who surrounded me with all love and care. Grateful and special thanks to **my mother, my sisters and their husbands, my little sister (Aya) and my brother (Ahmed)** for their helpful advice, patience, encouragements, understanding, motivation, everlasting support and endless love.

Faithful thanks are extended to the staff members and colleagues of the **Botany Department, Faculty of Women for Arts, Science and Education, Ain Shams University** as well as **Microbiology Department, National Center for Radiation Research and Technology (NCRRT), Atomic Energy Authority** for their friendship and nice help during this work.

No words are enough to express my great thanks to my family.

Thanks to all who helped me.

و الحمد لله رب العالمين .....
