TO.... My Wife

And my lovely Kareem

ACKNOWLEDGMENT

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has become a major employer in the UK, and its growth has been a major factor in the overall growth of the economy. The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy.

The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy. The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy. The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy.

The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy. The public sector has also become a major source of employment for women, and its growth has been a major factor in the overall growth of the economy. ACKNOWLEDGMENT

This work would have never been crowned by success without the blessings of **ALLAH**, to whom my loyalty will remain forever beyond any compromise.

I would like to present my deepest thanks and gratitude to my eminent supervisor Prof. Fawzy M. Mostafa, professor and head of the department of General surgery, Faculty of Medicine, Assiut University, for his continuous support, keen teaching and patience during the performance of this work. May God bless him forever, may all the coming days bring him happiness and healthiness. For the rest of my life, whatever goals I achieve, I'll remain indebted to him.

It goes without saying that whatever the amount of gratitude I do express, it will be too little to pay back the great support, advice and guidance during all the steps of this thesis to Prof. Bahgat Abdelhamid Thabet, professor of Vascular surgery department, Faculty of Medicine, Assiut University, whose teaching extended beyond scientific scope to moral, ethical and arts of life. It's an experience that will never be forgotten.

I also would like to thank DR. Mostafa Saad Khalil, lecturer of vascular surgery department, Faculty of Medicine, Assiut University, for his sincere advices and the tedious work that helped me to bring up this study into light. I also thank him for the continuous enthusiasm and encouragement.

I would like to dedicate this work to my family for their help and support without which, this work would never have seen the light.

My great thanks are also for my patients, colleagues and all staff members for their co-operation and help.

A. Hassan Bakr
