# Evaluation of the role of surgery in treatment of metastases of the dorsal and lumbar spine

Thesis
Submitted in partial fulfillment for the degree of M.D. in orthopedic surgery

#### By Mohsen Adeab Megalla

Assistant lecturer orthopedic surgery Beni-Suef medical school-Cairo university

Supervised by

#### Prof. Dr. Saleh Bedair

Professor of Orthopedics, and Dean of The Faculty of Medicine Cairo University

#### Prof. Dr. Akram Hassan Azzam

Professor of Orthopedics, Faculty of Medicine Cairo University

#### Prof. Dr. Abd El-Rahman El-Dessoukey

Assistant Professor of Orthopedics, Faculty of Medicine Cairo University

### ACKNOWLEDGMENT.

I am greatly indebted to Prof. Dr. Saleh Bedair, Prof. Dr. Akram Azzam, and Prof. Dr. Abd El-Rahman El-Dessoukey, the thesis supervisors, for their patience guidance and constructive assistance that they displayed during the period of my working on this thesis. They gave me much of their time, knowledge and fruitful advice. Their valuable comments and encouragement must be mentioned and appreciated.

I would like to express my gratitude and thanks to Prof. Dr. Talaat El-Hadidi for his skillful supervision and assistance in four cases in this thesis. He donated four ATLAS devices for anterior spinal stabilization.

A special thanks to DR. Wesam Gaber, lecturer of orthopedics, Cairo university for his assistance and follow up of in most of the cases.

#### **TABLE OF CONTENTS**

	Page
Chapter I : Introduction and aim of work	·:1
Chapter II: Review of literature:	
Biology of cancer metastasis	3
Diagnosis and detection spinal metastases	26
Assessment of the extent of skeletal dissemination	53
Management of spinal metastases	69
Chapter III : Material	111
Chapter IV : Methods	125
Chapter V: Results	146
Chapter VI : Discussion	154
Chapter VII: Summary and conclusion	168
Chapter VIII: Case presentations	170
Chapter IX : References	186
Chanter X : Arabic summary
