# AN ENVIRONMENTAL STUDY ON THE CONTAMINATION OF MANZALA LAKE WITH PESTICIDES

Thesis

Submitted in partial fulfillment for the degree of  
**Master of Science in Environmental studies**

By

**Hashem Mohammed Mahmoud Abdel- Kader**

( B.Sc. in Environmental Science, 1995)

Faculty of Science ( Damietta), University of Mansoura.

Department of Environmental studies,  
Institute of Graduate Studies and Research,  
University of Alexandria

1999

# **SUPERVISORS**

**Prof Dr Hesham Zaki Ibrahim**

Professor of Pesticide Chemistry and Toxicology

Institute of Graduate Studies and Research

University of Alexandria

Egypt

**Dr Moustafa Mohammed Abbassy**

Lecturer of Pesticide Chemistry

Institute of Graduate Studies and Research

University of Alexandria

Egypt

## ACKNOWLEDGMENT

I thank God ,the beneficent and the merciful for helping and supporting me to accomplish this work.

I would like to express my deepest gratitude and thanks to professor **Hesham Zaki Ibrahim**, professor of Pesticide Chemistry and Toxicology, department of Environmental Studies ,Institute of Graduate Studies and Research, Alexandria University, Egypt for his continuos supervision, useful criticism during preparation of this work encouragement, and his constructive discussion of the results and reviewing the manuscript .

I am very grateful to **Dr.Moustafa Mohamed Abbassy**, Lecturer of Pesticide Chemistry, Department of Environmental Studies, Institute of Graduate Studies and Research, Alexandria University, Egypt for his supervision, encouragement, valuable device ,and devoted times, he has kindly given unlimited time through this work.

I would like to thank everyone who by any mean helped me to make this study possible especially Mrs. **Karima Abdel Monem**,Mrs.**Mofida Shiha** IGSR ,Alexandria Univerity

Finally, many people have indirectly contributed to accomlisstudy; my parents, brother, sisters and all my friends; thanks to all.

The reseach in this thesis was supported by the MED-POL, phase II, FAO/UNEP project to Prof Dr M. EL-Raey.

## LIST OF TABLES

	Page
Table (1)     Area of Manzala Lake	9
Table (2)     Recovery percentage of organochlorine pesticides and PCBs (1254 and 1260) in samples of Manzala Lake.	55
Table (3)     Concentrations of organochlorine pesticides and polychlorinated biphenyls (PCBs) in water samples from Manzala Lake ( $\mu\text{g/L}$ ) $n=18$	57
Table (4)     Concentrations of organochlorine pesticides and polychlorinated biphenyls (PCBs) in sediment samples collected from Manzala Lake ( $\mu\text{g/kg}$ dry weight ) $n=18$	59
Table (5)     Concentrations of organochlorine pesticides and polychlorinated biphenyls (PCBs) in four plants species from Manzala Lake ( $\mu\text{g/kg}$ wet weight ) $n=6$	62
Table (6)     Concentrations of organochlorine pesticides and polychlorinated biphenyls (PCBs) in fish samples from Manzala Lake ( $\mu\text{g/kg}$ wet weight ) $n=18$ .	65
Table (7)     Concentrations of organochlorine pesticides and polychlorinated biphenyls (PCBs) in the muscle of bird species from Manzala Lake( $\mu\text{g/kg}$ wet weight )	66
Table (8)     Bioaccumulation relationships for various trophic levels in Manzala Lake ecosystem.	92

## LIST OF FIGURES

Chapter	Page
1. INTRODUCTION	1
2. AIM OF THE WORK	3
3. REVIEW OF LITERATURE	4
I- The importance of Manzala Lake	4
II- Sources of Manzala Lake pollution	5
1- Agricultural drainage	5
2- Industrial drainage	6
III- Drying of the lake	7
IV- Occurrence and distribution of Organochlorine pesticides and polychlorinated biphenyls (PCBs) in aquatic environment.	10
V- Analytical procedures for the determination of Organochlorine pesticides and polychlorinated biphenyls	35
VI- The impact of organochlorines	38
1- Reproduction at risk	38
2- Reduced resistance	39
3- Connection with cancer	39
4. MATERIALS AND METHODS	41
I- Description of the study area	41
II- Sampling	44
1- Water	44
2- Sediments	44
3- Biota	45
3.1. Fish	45
3.2. Birds	45
4- Aquatic plants	45
III- Reagents	46
IV- Chemical analysis	46
V- Instruments used	48
VI- Gas chromatographic procedures	49
VII- Quantitative GC analysis	50

	VIII- Bioconcentration	54
	VIII- Recovery	54
5.	RESULTS AND DISCUSSION	56
6.	CONCLUSION	93
