# **The Relation between Vitamin D Receptor Gene Polymorphism and the Increased Risk of Osteoporosis**

Systematic review submitted for  
Partial fulfillment of Master Degree in clinical pathology

**Maha Mohamed Mahmoud Enany**

M.B, B.Ch

## **Supervisors**

**Prof. Ahmed M. El-Gohary,**

Prof of Clinical Pathology,  
Faculty of Medicine,  
Suez Canal University.

**Prof. Mohamed Zada,**

Prof of Orthopedics,  
Faculty of Medicine,  
Suez Canal University.

**Dr. Alaa Abou El-Ela,**

Ass. Prof. of Clinical Pathology,  
Faculty of Medicine,  
Suez Canal University.

Faculty of Medicine  
Suez Canal University  
2005

## Acknowledgement

Thanks to God to whom we owe the surrounding blessings and gifts and without his mercy and help, none of our work could have been accomplished.

I would like to express my deepest gratitude to **Prof. Ahmed EL-Gohary**, for his continuous instructive education, his support in every step in this work.

I would like to express my sincere gratitude and appreciation to **Prof. Mohamed Zada** for his encouragement, constant guidance and help in bringing out this work to light.

Also my great thanks to **Dr. Alaa Abo El-Ela**, for his great support, constructive criticism and encouragement together with his valuable directions.

My great thanks to all the members of the clinical pathology department, Suez Canal University, for their generous help, support and advice.

# Dedication

To those who were always there for me.

My family and my husband

For their sustained support, encouragement  
and understanding.
