Acknowledgment

This thesis is a continuation of Agricultural Zoology and Nematology Department, Faculty of Agriculture, Al-Azhar University for his kind help and comprehensive guidance.

Sincere thanks to **Prof. Dr. Mohamed R. Abdel-Kader**, Professor of zoology, Agricultural Zoology and Nematology Department, Faculty of Agriculture, Al-Azhar University, for his kind help and guidance.

Many thanks are due to **Prof. Dr. Hassan Ibrahim El-Deeb**, Head of Harmful Animals of Agriculture Department, Plant Protection Research Institute, for suggesting the plan of this work, supervision and continuous guidance throughout the present study.

Thanks are also due to **Prof. Dr. Sayed A. Montasser**, Professor of Nematology, Agricultural Zoology and Nematology Department, Faculty of Agriculture, Al-Azhar University, for his kind help and guidance.

My deepest gratitude and sincer thanks are also due to **Prof. Dr. M. Wilson** and **Dr. Fatma Khidr**, Harmful Animals of Agriculture Department, Plant Protection Research Institute.

Thanks are also to all staff members of Agric. Zoology and Nematology Dept. , Faculty of Agriculture , Al-Azhar University for their help . Thanks are due to all my college of H.A.R. Dept.

Thanks are also for Scientific Research Academy for their financial help during this course .
