

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

؟ قَالُوا سُبْحَانَكَ لَا عِلْمَ لَنَا إِلَّا مَا
عَلَّمْتَنَا إِنَّكَ أَنْتَ الْعَلِيمُ الْحَكِيمُ ؟

صَلَّى الْعَظِيمِ

سورة البقرة الآية (32)

**Effect of different motions on the
mechanical behavior of recent NiTi
enlarging systems and the stress
distribution on curved root canal dentin
(Finite Element study)**

*Thesis submitted to the Faculty of Dentistry
Ain Shams University
For
Partial fulfillment of the requirement of Ph.D. in
Endodontics*

By

Manar Mohammed Galal Helmy Hamouda
BDS Ain Shams University 2004
Master degree in Endodontics -Seuz Canal
University 2011
Assistant Researcher in Department of Restorative
and Dental materials
National Research Center

2015

Supervisors

Prof. Dr. Salma Hassan El-Ashry

*Professor in Department of Endodontic
Faculty of Dentistry- Ain Shams University*

Prof. Dr. Mohamed Hussein Zaazou

*Professor Researcher in Department of Restorative and
Dental materials National Research Center*

Ass. Prof. Dr. Shehab El-Deen Mohamed Saber

*Associate Professor in Department of Endodontic
Faculty of Dentistry- Ain Shams University*

Dr. Tamer Mounier Mousa Nassef

*Senior Lecturer in Department of computer and software
engineering
Misr University for science and technology*

Dedication

I would like to express my deepest appreciation and gratitude to my father and mother for their endless love, to my dear husband for his support, to my lovely kids Ali and Malak, and to my sweet sisters

Acknowledgment

*Thanks to God first I would like to express my
gratefulness and respect to*

***Prof. Dr. Salma Hassan El-Ashry**
Professor of Endodontics, Faculty of Dentistry, Ain
Shams University,
for her moral and scientific support and for giving me the
honor of working under her careful supervision and
valuable guidance.*

*I would like also to express my gratefulness and respect to
Ass. Prof. Dr. Shehab El-Deen Mohamed Saber
Ass. Prof. of Endodontics, Faculty of Dentistry, Ain
Shams University,
for his expert guidance and great encouragement*

*I would like also to thanks
Prof. Dr. Mohamed Hussien Zazou
Prof. of conservative dentistry, NRC
For his continuous, unlimited support, and his sincere help*

*I would like to extend my thanks to
Ass. Prof. DR. Tamer Mounier Mousa Nassef*

*Senior Lecturer in Department of computer and software
engineering -Misr University for science and technology
For his extended effort and encouragement*

*I would like also to thanks
Dr. Maram Khallaf
Researcher of conservative dentistry, NRC
For her continuous and sincere help*

*I would like to extend my thanks to
Eng. Ahmed Samy
For his extended effort and continuous help*
