**Relevant Biochemical and Physiological
Parameters of Osteoporosis Risk
In Menopausal Women**

THESIS

Submitted to the Faculty of Science
Ain Shams University
For the award of the Ph. Degree.
In
Zoology - Physiology

By

Tahany Farid Matta

Assistant Lecturer

Nuclear Research Center – Atomic Energy Authority

Supervised by

Prof. Dr. Nefissa H. Meky

Professor of Physiology

Faculty of Science

Ain Shams University

Prof. Dr. Ibrahim I. Ibrahim

Professor of Biological Science

Nuclear Research Center

Atomic Energy Authority

Dr. Laila S. Hanna

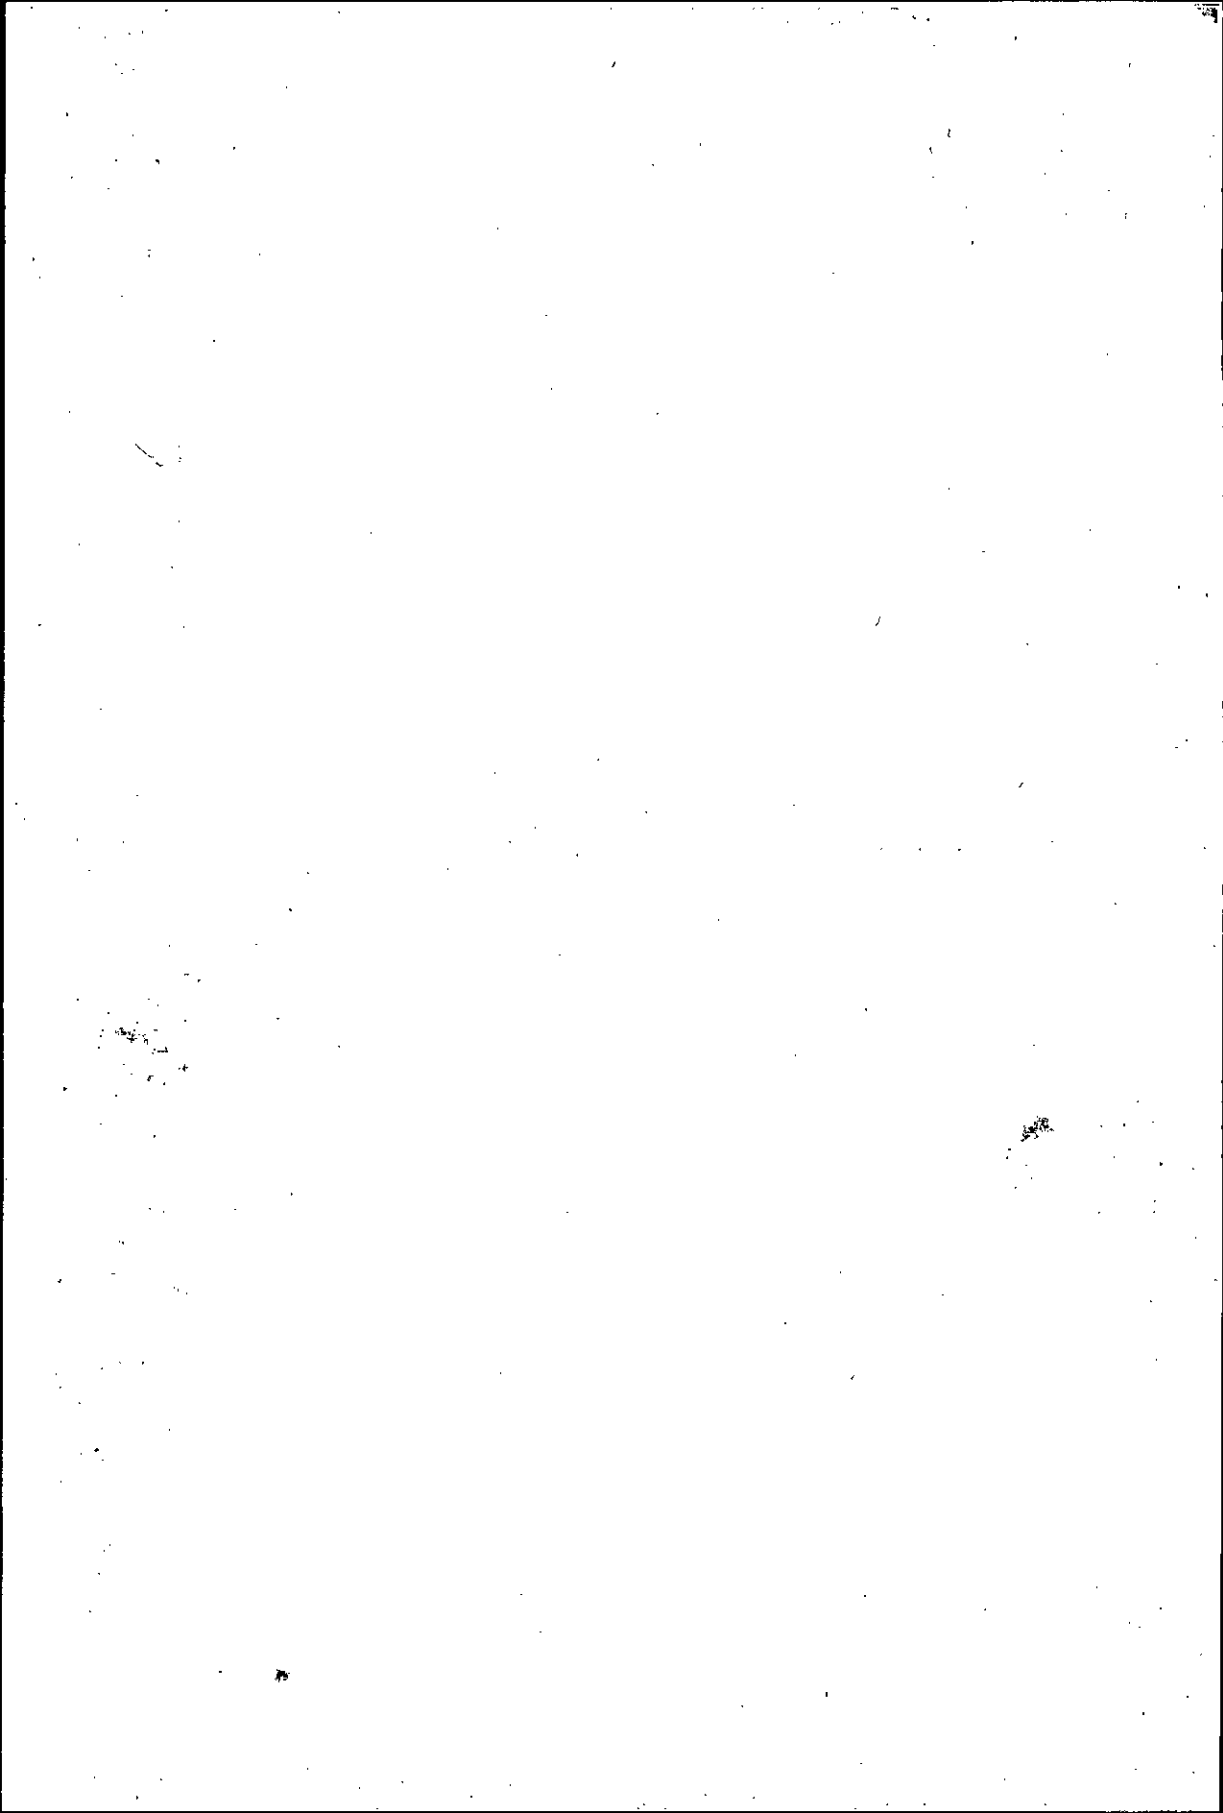

Assistant Professor of Biological Science

Nuclear Research Center

Atomic Energy Authority

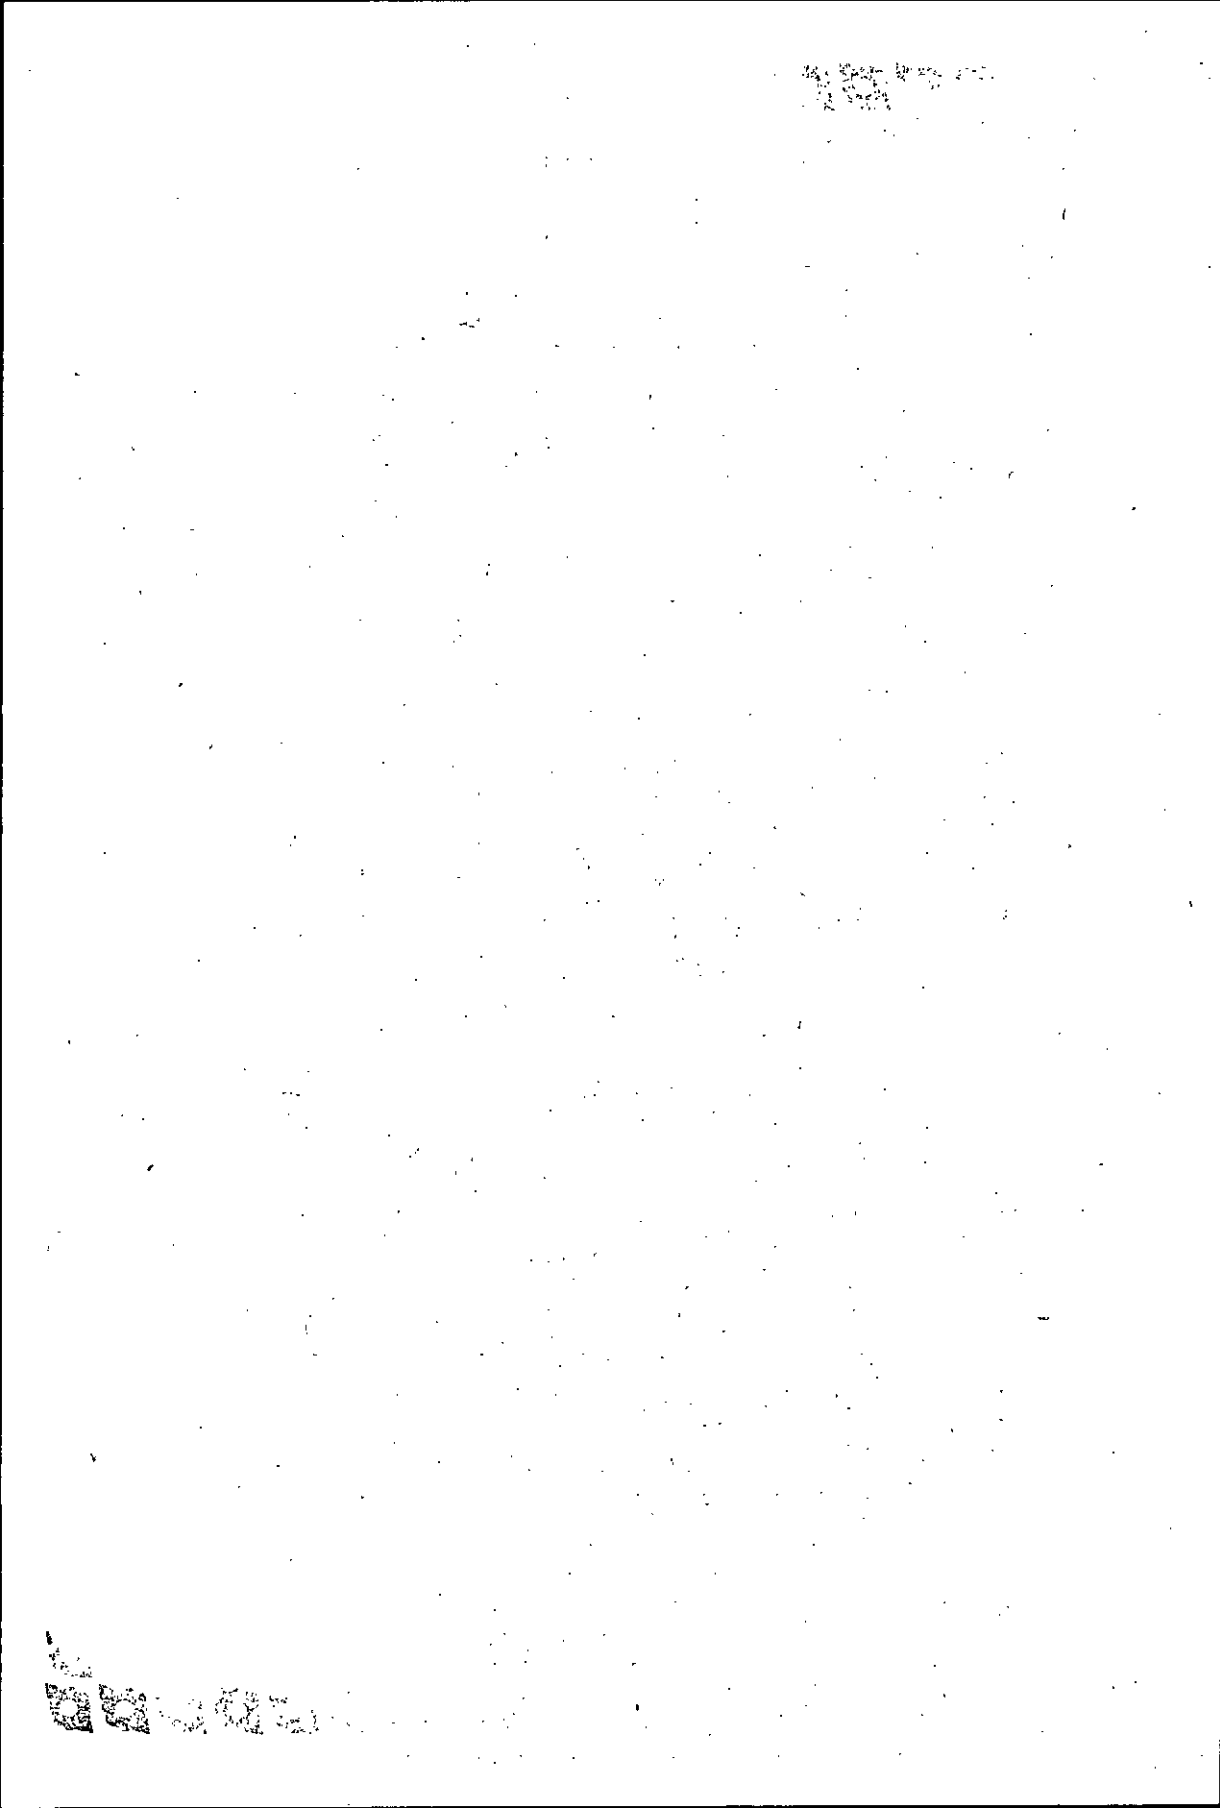

Laila S. Hanna

THANKS TO GOD
FOR
ACCOMPLISHING THIS WORK

DEDICATION

- * *To the memory of my beloved father hoping that this work may be of any compensation for all the sacrifices, care and love he has always given to me.*
- * *To all my lovely family especially my beloved mother and sisters for all their care and love.*
- * *To my dear husband who sustained me with care and love and helped me so much from start to finish.*

ACKNOWLEDGEMENT

*It is a great pleasure to express my deepest appreciation and sincerest gratitude to my thesis committee members **Prof. Dr. N. H. Meky, Prof. Dr. I. I. Ibrahim, and Dr. L. S. Hanna** for giving me the honor to work under their supervision.*

*I would like to express my deepest obligation and sincerest appreciation to **Prof. Dr. Nefissa H. Meky**, Professor of Physiology, Zoology Department, Faculty of Science, Ain Shams University for her kind supervision, constructive advices and significant review of the manuscript. She generously offered me a great help through her valuable guidance, continuous support, encouragement, keen interest and many facilities to complete this work.*

*I am greatly indebted to **Prof. Dr. Ibrahim I. Ibrahim**, Professor of Biological Science, Nuclear Research Center, Atomic Energy Authority for his keen interest, valuable supervision continuous support, and many fruitful advices through his experience. His precise and careful review of the manuscript and constructive remarks help in accomplishing this work in the present form.*

*I offered my heartfelt gratitude, deepest thanks and appreciation to **Dr. Laila S. Hanna**, Assistant Professor of Biological Science, Nuclear Research Center, Atomic Energy Authority, for suggesting the plan of the study, precise supervision throughout all the practical investigations, spending continuous*

effort accomplishing the manuscript writing and review in addition to the statistical work of this study. Her unlimited help, generous cooperation and valuable supervision during all stages made the completion of this work possible.

*I am deeply obliged to **Dr. Mina Samaan**, Orthopaedic Surgeon, for 'giving me a great help through his experience, and for his continuous support, unlimited cooperation and facilities in the collection of the osteoporotic samples.*

A heartfelt thanks is also extended to the staff members of the Medical Center of El-Nosha (El-Mahkama) for providing me with all the subjects needed for the practical part of this work.

I would like, as well, to thank all those who shared this work in whatsoever way, hoping that it may be of some interest.
