Factors Affecting the Clinical Training among Pediatric Nursing Students in Technical Institutes

Thesis

*Submitted for Partial Fulfillment of the Requirements
of the Master Degree in Pediatric Nursing*

Under Supervision of

Prof.Dr/ Iman Ibrahim Abd Al-Moniem

Professor of **Pediatric Nursing** and Vice Dean of Community
Service and Environment Development Affairs
Faculty of Nursing
Ain Shams University

Dr. Asmaa Nasr Eldin Mosbeh

Assistant Prof. of Pediatric Nursing
Faculty of Nursing
Ain Shams University

*Faculty of Nursing
Ain Shams University*
2015

Acknowledgments

First and foremost, I feel always indebted to Allah the Most Beneficent and Merciful.

*I wish to express my deepest gratitude and thanks to **Prof.Dr/ Iman Ibrahim Abd Al-Moniem**, Professor of Pediatric Nursing and Vice Dean of Community Service and Environment Development Affairs Faculty of Nursing – Ain Shams University, for her constructive criticism, unlimited help and giving me the privilege to work under her supervision.*

*My most sincere gratitude is also extended to **Dr. Assma Nasr Eldin**, Assistant Prof. of Pediatric Nursing, Faculty of Nursing, Ain Shams University, for her enthusiastic help, continuous supervision, guidance and support throughout this work,*

My thanks are extended to all participant students in this study for their help and cooperation.

Candidate

 **Rabab AlSayed Khalil**

List of Tables in Results

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table (1):	Number and percentages distribution of the studied students regarding their characteristics	42
Table (2):	Number and percentages distribution of the studied students regarding environmental factors related to hospital that affecting clinical training	45
Table (3):	Number and percentages distribution of the studied students regarding environmental factors related to institute laboratory that affecting clinical training.	46
Table (4):	Number and percentages distribution of the studied students regarding personal factors related to nursing team that affecting clinical training.....	47
Table (5):	Number and percentages distribution of the studied students regarding personal factors related to medical team that affecting clinical training.....	48
Table (6):	Number and percentages distribution of the studied students regarding personal factors related to patients and relatives that affecting clinical training	49

List of Tables Results (Cont.)

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table (7):	Number and percentages distribution of the studied students regarding personal factors related to personal characteristics of clinical instructor that affecting clinical training.....	50
Table (8):	Number and percentages distribution of the studied students regarding personal factors related to personal relation between clinical instructor and students that affecting clinical training	51
Table (9):	Number and percentages distribution of the studied students regarding facilities that affecting clinical training....	52
Table (10):	Number and percentages distribution of the studied students regarding role of clinical instructor in clinical training that affecting clinical training.....	53
Table (11):	Number and percentages distribution of the studied students regarding evaluation that affecting clinical training	54
Table (12):	Relation between environmental factors related to the hospital and students` charecteristics	55

List of Tables Results *(Cont.)*

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table (13):	Relation between environmental factors related to the institute laboratory and students' charecteristics....	56
Table (14):	Relation between personal factors related to nursing team the and students` charecteristics.....	57
Table (15):	Relation between personal factors related to medical team the and students` charecteristics.....	58
Table (16):	Relation between personal factors related to patients and relatives and students` charecteristics.....	59
Table (17):	Relation between personal factors related to personal characteristics of clinical instructor and students` charecteristics	60
Table (18):	Relation between personal factors related to personal relation between students and clinical instructor and students` charecteristics.....	61
Table (19):	Relation between personal factors related to role of clinical instructor and students` charecteristics.....	62

List of Tables Results (Cont.)

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table (20):	Relation between the facilities and students' characteristics.....	63
Table (21):	Relation between the evaluation and students' characteristics of the students.	64
Table (22):	Relation between total score of factors that affecting clinical training and students' characteristics	65
Table (23):	Correlation between all factors that affecting clinical training with total score	66
Table (24):	Percentage & distributions of student's performance achievement scores in the cord care.....	67
Table (25):	Percentage & distributions of students performance achievement scores in the respiration measurement	68
Table (26):	Percentage & distributions of students' performance achievement scores in the mechanical suction	69

List of Tables Results *(Cont.)*

<i>Table No.</i>	<i>Title</i>	<i>Page No.</i>
Table (27):	Percentage & distributions of students' performance achievement scores in the gavage feeding.....	70
Table (28):	Percentage & distributions of students' performance achievement scores in the measuring apical pulse	71
Table (29):	Percentage & distributions of students' performance achievement scores in the measuring axillary temperature	72
