ACKNOWLEDGEMENT

*First and foremost...thanks to ALLAH, to whom
I relate any success in achieving any work in
my life.....*

*Words stand short when they come to express
my gratefulness to my SUPERVISORS...*

*I was really fortunate to carry out this work
under the precious guidance of Prof.Dr.Adel Ein
Shouka, Professor of General Surgery...Faculty
of Medicine, AIN Shams University.*

*I wish to express my thanks and grattitude for
his continous encouragement and meticulous
supervision*

*I would also like to express my gratefulness to
Prof.Dr.Abd Alla El -said, Professor of General
Surgery...Faculty of Medicine, AIN Shams
University. for his kind supervision and
assisstance.*

*I would also like to express my deepest thanks
to Prof.Dr.Awad Elkayal.Professor of General
Surgery...Faculty of Medicine, AIN Shams
University. for sharing his expertise, valuble
time and helpful suggestions to ensure the
accuracy of this work.*

DEDICATION

***I dedicate this work to the
soul of my father as well to
the soul of Professor: Abd Alla
Elsaid Rageb***

LIST OF CONTENTS

1	<i>Introduction and aim of the work</i>	1-2
2	<i>Review of literature:</i> <i>A) Anatomy of the urinary bladder and ureters in the pelvis</i>	3-17
	<i>(B) Epidemiology of urinary bladder carcinoma</i>	18-21
	<i>(C) Pathogenesis of urinary bladder carcinoma</i>	22-27
	<i>(D) Pathology of urinary bladder carcinoma</i>	28-67
	<i>(E) Diagnosis of urinary bladder carcinoma</i>	68-81
	<i>(F) Management of urinary bladder carcinoma</i>	82-161
3	<i>Patients and methods</i>	162-164
4	<i>Results</i>	165-178
5	<i>Discussion</i>	179-186
6	<i>Summary</i>	187-189
7	<i>Conclusion</i>	190
8	<i>References</i>	191-217
9	<i>Arabic summary</i>	

LIST OF TABLES

TABLE	TITLE OF TABLE	PAGE
1	The site of origin of bilharzial bladder cancer	28
2	Classification of bilharzial bladder cancer according to their size	34
3	Histologic types of bladder cancer in Egypt	35
4	The TNM classification	42
5	% staging of cases of bilharzial bladder carcinoma-1033	45
6	Comparative study of the American Joint Committee classification versus different classifications of carcinoma of the urinary bladder.	46
7	% grading of cases of bilharzial bladder carcinoma.	49
8	Incidence of lymph-node metastases by stage.	54
9	Incidence of pelvic nodal metastasis from bladder cancer (%) according to pathologic tumor stage.	54
10	Five-year survival rate following radical cystectomy in-patients with pathologic nodal metastases from bladder cancer.	115
11	Actuarial probability of survival ($\bar{x} \pm 2$ SD) for 132 bladder cancer patients with nodal metastases.	116
12	Pelvic recurrence and distant metastases rates in contemporary series of radical cystectomy.	156
13	(Results): Presenting symptoms	166
14	(Results): Preoperative clinical staging	167

TABLE	TITLE OF TABLE	PAGE
15	<i>(Results):</i> Preoperative s.creatinine level.	169
16	<i>(Results):</i> Follow up s.creatinine level after 3 month	169
17	<i>(Results):</i> Follow up s.creatinine level after 12 month	169
18	<i>(Results):</i> Comparing preoperative renal function s.creatinine with postoperative s.creatinine	170
19	<i>(Results):</i> Comparing preoperative renal function s. BUN with postoperative s.BUN	170
20	<i>(Results):</i> Early and late postoperative complications	173
21	<i>(Results):</i> Histopathological types and grades	174
22	<i>(Results):</i> Extravesical spread & lymph node affection	175
23	<i>(Results):</i> Site of locoregional recurrence	176
24	<i>(Results):</i> Time of detection of local recurrence	176
25	<i>(Results):</i> Distant metastases after radical cystectomy	177
26	<i>(Results):</i> Oncologic outcome	177

LIST OF FIGURES

FIGURE	TITLE OF FIGURE	PAGE
1	Pelvic relationship of the bladder base	4
2	Prostatic and vesical ligaments	8
3	Arterial supply of the urinary bladder	13
4	Venous drainage of the urinary bladder	14
5	Lymphatic drainage of the urinary bladder	16
6	Staging of Bladder Cancer	47
7	The low Lithotomy position.	87
8	A midline incision	88
9	Dissection of the ureter.	92
10	Pelvic Lymph node Dissection	92
11	Exposure of the internal iliac artery	95
12	Dissection of posterior pedicle	95
13	Division of Lateral Pedicle	97
14	Radical cystectomy in female	101
15	Outcome of 36 patients with bladder cancer and nodal metastases treated with radical cystectomy.	117
16	Maintaining the urinary flow via catheters	124
17	Holding an ileal loop to demonstrate the feeding vessels	124
18	The terminal ileum is marked	125
19	The isolated segment is wrapped in moist gauze pack	126
20	End to end anastmosis	126

FIGURE	TITLE OF FIGURE	PAGE
21	Closure of the defect in the mesentery	127
22	Technique of ileal conduit	128
23	Formation of the stoma	129
24	Treatment algorithm for locally recurrent cancer after cystectomy.	158
25	<i>(Results):</i> Male to female ratio	165
26	<i>(Results):</i> Main presenting symptom	166
27	<i>(Results):</i> Staging of the patients	168
28	Locoregional control and survival in this study	178
29	Comparing this study % outcome and A, Kaplan-Meier estimated survival of 36 patients with bladder cancer and nodal metastases treated with radical cystectomy	185

LIST OF PICTURES

PICTURE	TITLE OF PICTURE	PAGE
1	Bilateral nephrostomy in a patient presented by acute renal failure.	167
2	Right hydroureter due to ureteroileal sticture.	171
