BIOLOGICAL STUDIES OF SOME SOIL MITES IN TWO AGROSYSTEMS IN EGYPT

595, 42

Thesis

م.س.س.س

Submitted in partial fulfillment
for the Degree of Master of Science
(M.Sc. Degree)

In Zoology (Invertebrate)

By

HEBATALLAH ESHMAWY MOHAMED

B.SC. (Zoology and Chemistry, 2003)

Faculty of Science

**Department of Zoology
Faculty of Science
Cairo University**

2009

Approval Sheet

Title of the M.Sc. Thesis

BIOLOGICAL STUDIES OF SOME SOIL MITES IN TWO AGROSYSTEMS IN EGYPT

Name of Candidate

HEBATALLAH ESHMAWY MOHAMED

Supervision committee:

Signature

1-Prof. Dr. Amira Kamal Ahmed

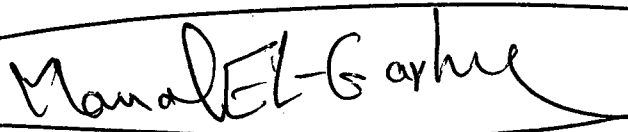

Professor of Parasitology, Zoology Dept.,

Faculty of Science, Cairo University,

Cairo, Egypt.

2-Prof. Dr. Manal F. El Garhy

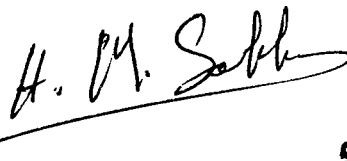

Professor of Parasitology, Zoology Dept.,

Faculty of Science, Cairo University,

Cairo, Egypt.

3-Dr. Hassan Mohamed Sobhy

Associate Professor of Animal Ecology,

Institute of African Research and Studies, Cairo University,

Cairo, Egypt.

Head of Zoology Department

Faculty of Science, Cairo University

Prof. Dr. Kawther S. Abou Elala

Cairo University
Faculty of Science
Dr. Faten A. Nour El-Dien
Professor of Analytical Chemistry
Vice Dean For Postgraduate Studies

CAIRO UNIVERSITY
FACULTY OF SCIENCE

TO WHOM IT MAY CONCERN

This is to certify that **Hebatallah Eshmawy Mohamed**, has attended and passed successfully the following Postgraduate Courses as a Partial Fulfillment of the requirements of the degree of Master of Science, Zoology (**Immunology & Parasitology, 2004**).

- 1- Immunochemistry (1)
- 2- Immunochemistry (2)
- 3- Biochemistry of Parasites
- 4- Advanced Immunity (1)
- 5- Advanced Immunity (2)
- 6- Immunity of Parasites
- 7- Radiobiology
- 8- Computer Science
- 9- Electronmicroscope
- 10- Nematology
- 11- Structural Function of Parasites
- 12- Invertebrate Phelogeny
- 13- Parasitology (1)
- 14- Parasitology (2)
- 15- Fine Structure of Protozoa
- 16- Immuno-diagnosis
- 17- Applied Immunity
- 18- Biostatistics
- 19- Parasites diagnosis
- 20- Comparative and Advanced Immunity
- 21- Molecular Biology
- 22- German Language

This Certificate is issued at his own request.

Date of Birth : 3/4/1981

Plasce of Birth : Cairo

Controller

Prof. Dr. Mona Sharkawy Ali

Cairo University
Faculty of Science
Department of Zoology
Head of Department
Kawthar Sayed Abou El-Ala

Prof. Dr. Kawthar Sayed Abou El-Ala

Acknowledgement

Praise and Thanks are to Allah without Whose help, I would not have been able to complete this work.

I am greatly honored to acknowledge Prof. Dr. Amira Kamal Ahmed, Professor of Parasitology, Zoology Department, Faculty of Science, Cairo University, for supervising the present work. I would thank her for her tutorial guidance and careful reading and for her kind comments on the draft manuscript.

I would like to express my deep grateful thanks and deep appreciation to Prof. Dr. Manal F. El Garhy, Professor of Parasitology, Zoology Department, Faculty of Science, Cairo University, who initiated and planned the research work, for her very deep feeling; her valuable step-by-step supervision; her everlasting support; continuous encouragement and for critical reading of the manuscript.

My sincere gratitude and deep appreciation to Dr. Hassan Mohamed sobhy, Associate Professor of Animal Ecology, Zoology Department, Institute of African Research and Studies, Cairo University, for his generous assistance; sincere cooperation and his support in carrying out this work. I would thank him for reading and constructively criticizing the manuscript.

I owe my outmost gratitude to Prof. Dr. Mahmoud Ismael Mohamed, Professor of Acarology, Department of Zoology and Agriculture Nematology, Faculty of Agriculture, Cairo University, for his great endless help, his support in carrying out this work and analysis of thesis data.

I owe a special debt with gratitude to my father, my mother and my brothers for their help and constant encouragement and support.

Much sincere gratitude to my dear husband Sherif Abd El-Aziz and his family for their help and constant encouragement and to my son Eyad for his patience till this work has been completed.

Table of Contents

	Page
I- List of Tables-----	IV
II- List of Figures -----	VII
INTRODUCTION -----	1
THE AIM OF PRESENT STUDY -----	8
MATERIALS AND METHODS -----	9
1-Study sites -----	9
2-Sampling & preparation -----	10
3-Extraction of soil fauna -----	10
4. Examination and identification of mite specimens -----	12
5. Rearing method-----	12
6. Demography and life table statistics-----	14
7-Soil analysis-----	14
A. Mechanical Analysis (Particle size distribution)-----	14
B. Chemical analysis -----	15
RESULTS -----	16
Part I: Survey and abundance of soil fauna-----	16
A- Study of soil fauna under two different crops in sandy and clayey soils-----	16
I- Soil fauna collected under bean and maize crops -----	16
II- Abundance of mites under broad bean and maize crops -----	21
III- Seasonal abundance of mites and Collembola -----	24
IV- Classification of soil mites under broad bean and maize crops ----	27
1-Suborder Gamasida-----	27
2-Suborder Actinedida-----	27
3-Suborder Acaridida-----	28
4-Suborder Oribatida-----	28

B- Survey of soil fauna under seven different crops in sandy soil at El-Saff district, Helwan Governorate-----	30
I- Soil fauna collected under different crops -----	30
II- Abundance of mite suborders under different crops-----	33
III- Classification of soil mites collected under different crops-----	35
1-Suborder Gamasida-----	35
2-Suborder Actinedida-----	35
3-Suborder Acaridida-----	35
4-Suborder Oribatida-----	35
Part II: Studies on <i>Histiogaster bacchus</i> -----	49
A-Biological studies-----	49
1- Hatching-----	49
2-Moulting-----	49
3-Sex ratio-----	50
4-Mating-----	50
5-Incubation period (egg duration)-----	50
6- Development-----	50
7- Adult longevity-----	51
8- Generation period and life span-----	51
B- Description of developmental and adult stages-----	55
1- Egg-----	55
2-Larva-----	55
3- Protonymph-----	55
4- Tritonymph-----	56
5- Adult female-----	57
6-Adult male-----	58

C- Demography and life table statistics-----	66
DISCUSSION-----	69
SUMMARY -----	81
REFERENCES -----	86
APPENDIX I-----	98
APPENDIX II-----	99
APPENDIX III-----	100
APPENDIX IV-----	101
ARABIC SUMMARY	

List of Tables

IV

	Page
1. Climatological data of Giza station -----	9
2. Mechanical and chemical analyses of the two studied sites -----	18
3. Arthropod categories and their abundance per kg under broad bean and maize in sandy and clayey soils -----	18
4. Total number of soil mites per suborders per kg over the sampling period (one year) under broad bean and maize crops in sandy and clayey soils -----	22
5. Monthly abundance of mite suborders per kg in sandy and clayey soils -----	25
6. Monthly abundance of Collembola per kg in sandy and clayey soils -----	25
7. Total population density of mite families collected under broad bean and maize crops -----	29
8. Arthropod categories and their abundance per kg under different crops cultivated at El-Saff district -----	31
9. Total number of soil mite suborders per kg under different crops over the sampling period (one year) -----	34
10. Total population density of mite families per kg collected under the seven crops -----	36
11. Soil and climate characteristics of the study site (El-Saff site) -----	52
12. Duration of developmental stages of <i>Histiogaster bacchus</i> at 22°C ± 2 & 55% ± 10 R.H. -----	53

List of Figures

V

Page

1. Diagrammatic representation of a typical mite body -----	3
2. (A) Aunit of modified Tullgren funnel apparatus. (B) Diagram of a modified Tullgren funnel apparatus -----	11
3. Percentage of arthropod taxa collected from sandy and clayey soil under broad bean and maize -----	19
4. Abundance of mites per kg under broad bean and maize crops in sandy and clayey soils -----	20
5. Abundance of Collembola per kg under broad bean and maize crops in sandy and clayey soils -----	20
6. Abundance of soil mites per kg under broad bean crop in sandy and clayey soils -----	23
7. Abundance of soil mites per kg under maize crop in sandy and clay soils -----	23
8. Monthly abundance of total mites per kg in sandy and clayey soils -----	26
9. Monthly abundance of collembola per kg in sandy and clayey soil -----	26
10. Percentage of soil arthropods taxa in sandy soil under different crops -----	31
11. Percentage of mite abundance under different crops -----	32
12. Percentage of Collembola under different crops -----	32
13. Abundance of soil mites under different crops -----	34
14. Family Macrochelidae -----	37
15. Family Pachylaepidae -----	38
16. Family Ascidae -----	39
17. Family Rhodacaridae -----	40
