**STUDIES ON HEAVY METAL INTOXICATION OF LABORATORY
ANIMALS WITH FUNCTIONAL ORGAN DISORDER.**

THESIS

**SUBMITTED TO FACULTY OF SCIENCE, TANTA UNIVERSITY
AS A REQUIREMENT FOR THE DEGREE OF Ph.D
IN ZOOLOGY (PHYSIOLOGY)**

BY

SALAH MAHMOUD EL-SAYED SOLIMAN

(M.Sc. PHYSIOLOGY)

SUPERVISORS

Dr. Hussein E. El-Sheikh
Prof. of Parasitology
Faculty of Science
Tanta University

Dr. Mostafa M. Omar
Prof. of Physiology
Faculty of Science
AL-Azhar University

Dr. Ismail M. Al-Sharkawi
Prof. of Physiology
Faculty of Science
Tanta University

Dr. Mohamed A. Basiony
Assist. Prof. of Physiology
Faculty of Science
Tanta University

**ZOOLOGY DEPARTMENT
FACULTY OF SCIENCE
TANTA UNIVERSITY
2002**

B 7197

1. The first part of the document is a list of the names of the persons who were present at the meeting.

SUPERVISORS

Dr. Hussein E. El-Sheikh
Prof. of Parasitology
Faculty of Science
Tanta University

Dr. Mostafa M. Omar
Prof. of Physiology
Faculty of Science
AL-Azhar University

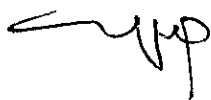

Dr. Ismail M. Al-Sharkawi
Prof. of Physiology
Faculty of Science
Tanta University

Dr. Mohamed A. Basiony
Assist. Prof. of Physiology
Faculty of Science
Tanta University

Dr
M.A.M. Hegazi
Head of Zool. Dep.

CURRICULUM VITA

Name in full: Salah Mahmoud El-Sayed Soliman.
Date of birth: 1 – 4 – 1960.
Locality: Quesna, El-Menoufia.
Nationality: Egyptian.
Social status: Married.
Primary school: Kffour El-Raml Primary School, Quesna.
Preparatory school: El-Wadi Mixed Preparatory School, Meet-Bra, Quesna.
Secondary school: Quesna Secondary School for Boys, Quesna
University: El-Menoufia University, Faculty of Science.
Master of Science: El-Menoufia University, Faculty of Science.
Present post: Assistant lecturer, Zoology Department, Faculty of Science (Assiut), Al-Azhar University.
Permanent address: Kffour El-Raml, Quesna, El-Menoufia, Egypt.

<p>Dr M.A.M Hegazi Head of Zool.Dep</p>

100-100-100
[unclear]

ACKNOWLEDGEMENTS

First and foremost, all praises and thanks are due to Allah, the Beneficent and the Merciful, by the grace of whom, this work was possible; never could we have found guidance to complete this work.

I wish to convey my sincere appreciation and everlasting gratitude to **Dr. Hussein E. El-Sheikh**, Professor of Parasitology, Faculty of Science, Tanta University, for his experienced guidance and continuous encouragement.

It is my pleasure to express my deep gratitude to **Dr. Mostafa M. Omar**, Professor of Physiology and head of Zoology Department, Faculty of Science, Al-Azhar University, Cairo, for his keen interest and faithful advice.

My hearty acknowledgement, grateful gratitude and great appreciation to **Dr. Ismail M. Al-Sharkawi**, Professor of Physiology, Faculty of Science, Tanta University, for suggesting and planning the present work and for valuable guidance and ready given help at all times. His kind attention, sincere advice, critical supervision and encouragement throughout this work had overcome me over many difficulties.

I'm also greatly indebted with grateful gratitude and deepest appreciation to **Dr. Mohamed A. Basiony**, Assist. Professor of Physiology, Faculty of Science, Tanta University, for his help, encouragement and guidance throughout this work.

I would like to express my sincere thanks with great appreciation to **Dr. Saber A. Sakr**, Professor of Zoology, faculty of Science, Menoufia University, for his advice and help in histopathological examination.

Thankfulness and sincere indebtedness are extended to **Dr. Abdel-Daiem M. Nossair**, Dean of the Faculty of Science, Al-Azhar University, Assiut, for his kind attention, support and encouragement.

My extended thanks to all colleagues in AL-Azhar and Tanta University.

The candidate does not find words to express love he feels towards his parents and family.

May Allah bless all of you

The Candidate

Salah M. Soliman

I. INTRODUCTION.....	1
II. REVIEW OF LITERATURE.....	3
1. Heavy metals and environmental pollution.....	3
2. Heavy metal pollution in Egypt.....	5
3. Heavy metals and food contamination.....	8
4. Lead pollution.....	8
5. Fate of lead in the body (Metabolism of lead).....	12
6. LD ₅₀ of lead.....	15
7. Bioaccumulation due to lead exposure	15
8. Lead toxicity.....	16
9. Pathological effects of lead.....	18
10. Combined effects due to lead exposure and infection with <i>S.mansoni</i>	29
11. Treatment of lead poisoning.....	30
12. Protective effects of 2-MPG against heavy metal intoxication.....	32
III. MATERIAL AND METHODS.....	34
1. Sampling for lead analysis.....	34
2. Dose regimen.....	35
3. Experimental animals	36
4. Parasite and <i>S. mansoni</i> infection.....	36
5. Experimental design and animals groups	37
5.1. Determination of the LD ₅₀ of lead for normal and bilharzial mice.....	37
5.2. Determination of the effect 2-MPG treatment on the survival curves of Pb-intoxicated bilharzial mice	38
5.3. Determination of the chronic effects of lead intoxication in mice infected with <i>S. mansoni</i> and the protective effect of 2-MPG	38
5.4. Determination of the acute effects of lead intoxication in mice infected with <i>S. mansoni</i> and the protective effect of 2-MPG	39
5.5. Determination of the histopathological effects of lead intoxication in liver and kidney of <i>S. mansoni</i> infected mice and the protective effect of 2-MPG ...	39
6. Body weight.....	42
7. Determination of the relative liver and kidney weights.....	42
8. Worm count.....	42
9. lead contents of liver, kidney and blood	42
10. Collection of serum samples and preparation of tissue homogenate.....	43
11. Biochemical assays.....	44
11.1. Determination of acetylcholinesterase activity.....	44
11.2. Determination of 5'-nucleotidase activity.....	46
11.3. Determination of alkaline phosphatase activity.....	48
11.4. Determination of aminotransferases (ALT & AST) activity.....	51
11.5. Determination of serum creatinine.....	54
11.6. Determination of serum urea.....	55
12. Histopathological preparations.....	56
13. Statistical analysis of the data.....	56
IV. RESULTS.....	57
1. Lead levels of the collected samples.....	57
2. Dose-mortality curves of lead for normal healthy and schistosomal. infected mice.....	57
