صَدَقَ اللَّهُ الْعَظِيمُ

سورة البقرة آية ٢٠

ACKNOWLEDGEMENT

I owe the deep faith and thanks to Allah for the help and guidance he offered me to complete this work.

I wish to express my sincere appreciation and deep gratitude to Prof. Moustafa M.K. Eyada, Prof. and Head of the Department of Dermatology and Venerology, Faculty of Medicine, Suez Canal University for his endless help, close supervision and valuable advice all through the study.

Thanks are extended to Dr. Alad El-Din Saad Abd El-Hamid, Ass. Prof. of Clinical Pathology, Faculty of Medicine, Suez Canal University for his generous help, remarkable encouragement and constructive criticism.

I wish also to express my sincere thanks to Dr. Mohamed Refaat Habba, Ass. Prof. of Radiology, Faculty of Medicine, Suez Canal University for providing facilities and for his valuable advice and guidance.

All who have given hand during the progress of this work are cordially acknowledged.

TO

MY FAMILY

TO WHOM I OWE MY SUCCESS

LIST OF ABBREVIATIONS

- ACTH** = Adrenocorticotrophic hormone
- 3- α -diol-G** = 3 Alpha-androstanediol-glucuronide
- 17 beta-HSD** = 17 Beta-hydroxysteroid dehydrogenase
- β -LPH** = β -Lipoprotein
- BMI** = Body mass index
- C** = Complement component
- CD** = Cluster determinant
- CL** = Chemiluminescence
- DHEA** = Dehydroepiandrosterone
- DHEAS** = Dehydroepiandrosterone sulphate
- DHT** = Dihydrotestosterone
- FSH** = Follicle stimulating hormone
- FT** = Free testosterone
- G1, S, M & G2** = Phases of the cell cycle: G (growth), M (mitosis) & S (DNA synthesis)
- GH** = Growth hormone
- ICAM-1** = Intercellular adhesion molecule-1
- Ig** = Immunoglobulin
- IGF-1** = Insulin-like growth factor-1
- IL** = Interleukin

ILC = Inflammatory lesions count

IRMA = Immunoradiometric assay

K = Keratin

LH = Luteinizing hormone

M. furfur = Malassezia furfur

MHC = Major histocompatibility complex

MSH = Melanocyte-stimulating hormone

P. acnes = Propionibacterium acnes

P. avidum = Propionibacterium avidum

PCO = Polycystic ovary

PCOS = Polycystic ovary syndrome

P. granulosum = Propionibacterium granulosum

PMNs = Polymorphonuclear leukocytes

P. orbiculare = Pityrosporum orbiculare

P. ovale = Pityrosporum ovale

PUVA = Psoralens and UVA

ra = Receptor antagonist

rpm = Round per minute

SDS-PAGE = Sodium - dodecylsulphate - polyacrylamide gel electrophoresis

S. epidermidis = Staphylococcus epidermidis

SER = Sebum excretion rate

SHBG = Sex hormone binding globulin

T = Total testosterone

TNF-alpha = Tumor necrosis factor alpha

TSH = Thyroid-stimulating hormone

UV = Ultraviolet

LIST OF TABLES

<u>Review of literature:</u>	<i>Page</i>
1. Sebum composition -----	32
2. Drugs reported to cause acne & acne-like eruptions -----	64
 <u>Results:</u>	
1. Age of patients at the onset of their acne -----	87
2. Findings of menstrual history of acne patients -----	88
3. The relation of acne to pregnancy -----	89
4. Acne grades in the acne patients -----	91
5. Ovarian ultrasound findings in the acne patients -----	92
6. The percentage of PCO in acne patients with different grades of severity -----	93
7. Distribution of different grades of severity among acne patients according to ovarian ultrasonographic findings -----	95
8. Distribution of ultrasonic ovarian findings in acne patients with irregular menstrual cycles -----	95
9. Hormonal profiles of the acne and control group -----	96
10. Hormonal profiles in female acne patients with late-onset and persistent acne -----	100
11. Hormonal profiles in female acne patients persistent acne and the control group -----	101
12. Hormonal profiles in female acne patients with late-onset and the control group -----	103
13. Clinical & hormonal profiles in female acne patients with & without PCO -----	104
14. Clinical & hormonal profiles in female acne patients with PCO & the control group -----	107
15. Clinical & hormonal profiles in female acne patients without PCO & the control group -----	104
16. The percentage of androgenic signs in the studied group -----	110
17. Comparison of percentage of androgenic signs in acne patients with & without PCO -----	111
18. Clinical & hormonal profiles in female acne patients with & without other manifestations of hyperandrogenism -----	113
19. Clinical & hormonal profiles in female acne patients with & without other manifestations of hyperandrogenism -----	115
20. Clinical & hormonal profiles in female acne patients without other manifestations of hyperandrogenism & the control group -----	113

21. Clinical & hormonal profiles in female acne patients without other manifestations of hyperandrogenism & the control group -----	118
22. Clinical & hormonal profiles in female acne patients with other manifestations of hyperandrogenism & the control group -----	119
23. Clinical & hormonal profiles in female acne patients with other manifestations of hyperandrogenism & the control group -----	121
24. Clinical & hormonal profiles in female acne patients with & without hirsutism -----	122
25. Clinical & hormonal profiles in female acne patients with hirsutism & the control group -----	123
26. Clinical & hormonal profiles in female acne patients without hirsutism & the control group -----	125
27. Hormonal profiles of acne patients -----	126
