Veterinary Medicine
Department of Microbiology

**Studies on Brucella causing abortion
in farm animals in Menofeia Governorate**

A Thesis Presented

By

Hatem Kamal Hamed Anwar

*B.V.Sc. Cairo University 1986)
M.V.Sc. Medical Microbiology,
Military Medical Academy (1992)*

For

The Degree of Doctor of Philosophy

In

*Veterinary Medical Science "Microbiology"
(Bacteriology-Mycology & Immunology)*

Supervised By

M. Ezzat

Prof. Dr. Mahmoud Ezzat El-Sayed

*Prof. Of Microbiology,
Faculty of Veterinary Medicine,
Suez canal University.*

M. Zeidan

Prof. Dr. Zeidan Mohamed Kheleaf
*Deputy Director of
Animal Reproduction Res. Inst.*

M. El-Fadaly

Maj. Gen. Dr. Mohamed A. El-Fadaly
*Director of Vet. Services,
Army Force.*

1999

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

﴿وما أو تيتم من العلم إلا قليلا﴾

صدق الله العظيم

الآية رقم ٨٥ سورة الإسراء

Dedicated

To :

*My Father,
My Mother
and
My Kids*

*Ahmed,
Mohamed
and
Dina*

Acknowledgment

I wish to express my deep gratitude for the **ALMIGHTY GOD** who give me ability to finish my research.

My prime and sincere gratitude is expressed and sent to Prof. Dr. Mahamoud Ezzat, Professor of Microbiology, Department of Microbiology, Faculty of Veterinary Medicine, Suez Canal University, for suggesting the theme of this thesis and under his supervision and directions this study was undertaken and thereafter fulfilled. He has given so much of his valuable time, experience and scientific knowledge to me. Indeed, his constant and spurring guidance will never be given sufficient gratitude and scope.

It is of great pleasure to express my thanks and gratitude to Prof. Dr. Zeidan M. Kholeaf, Deputy Director of Animal Reproduction Research Institute, El Haram, for his supervision, valuable advice, constructive criticism and for supplying of the necessary facilities required during the course of this study.

Thanks is also sent to Maj. Gen. Dr. Mohammed Abd El-Hamed El-Fadaly, Director of Vet. Services, Army Force, for his unlimited valuable help and advice, encouragement, and intense kind effort during this study.

It is of great pleasure to express my thanks to Prof. Dr. Hossny Abd El-Itif Abd El-Rahman, Dean of Faculty of Vet. Med., Suez Canal University, for his unlimited help, support and fatherly care.

I would like to express my sincere thanks to Prof. Dr. Mohamed Enany, Prof. And Head of Microbiology Department, Faculty of Veterinary Medicine, Suez Canal University for his help and cooperation.

I pray to ALLAH to provide the merciful father and my teacher Maj. Gen. (Med.) Ali M. Naser, Ph.D. Director, military Institute of Health and Epidemiology, Military Medical Academy, Cairo, with mercy and forgiveness to be the award of what he has done during his life and the principles he has planted in my soul that had a glorious effect on the achievement of such research.

I would like to express my sincere thanks to Maj. Gen. (Vet.) Dr. Mohammed Zakey Abd El-Fataah, Director of vet. Services, Army Forces, for his kind help and encouragment.

I grateful to Prof. Dr. Nabil El-Danaf, Director of the Animal Reproduction Research Institute, Al-Haram, for his help and encouragement.

I feel thankful to all members of the Brucella Unit, Dep. of Reproductive Diseases, A.R.R.I., Al Haram, with special reference Dr. Mohamed Ali Sadd and Dr. Talal Soliman, for their cooperation and help.

It is of great pleasure to express my thanks and gratitude to chemist Hebaa El-Sherbiney, Misr Radiology Center, Roxy, Cairo.

Indeed I would like to express my sincere for my wife Dr. hanan Shawkey, my sister Dr. (Med.) Gada Kamal M.V.Sc. Clinical path. who work at central laboratory analysis in Shebin El-Koom, El Menofia, my brothers Mohamed Kamal and Dr. (Med.) Mohamed El-Hossiny. All friendly vet. work in the veterinary services in El Menofia specially Dr. Fekery Sherif, First Col. Vet. Abd El Bakii Mahmoud, for their moral support and continual help during the course of this study.

Contents

	<i>Pages</i>
1. Introduction	1
2. Review of Literature	5
2.1 Brucellosis in Cows and Buffaloes	5
2.2 Brucellosis in Sheep and Goats	18
2.3 Brucellosis in Human being.	24
2.4 Diagnosis of Brucellosis	36
2.5 The Relationship between the Serological Tests	48
3. Material and Methods	52
3.1. Material	52
3.1.1 Animals	52
3.1.2 Milk samples	56
3.1.3 Tissue samples	56
3.1.4 Human	56
3.1.5 Laboratory media	59
3.1.6 Antigen for serological tests	61
3.1.7 Monospecific antisera	62
3.1.8 Experimental animals	63
3.1.9 Horse	63
3.1.10 Equipments & reagents and chemicals	63
3.2. Methods	66
3.2.1 Samples	66
3.2.1.1 Collection and preparation of blood samples for serological test	66
3.2.1.2 Collection and preparation of milk samples for abortus Bang Ring Test	66
3.2.1.3 Collection of foetal stomach contents from aborted foeti	67
3.2.2 Animal inoculation	67
3.2.3 Bacteriological examination	68
3.2.4 Serological examination for animal and human samples	76

	<i>Pages</i>
4. Results	83
4.1 Isolation and identification of Brucella from Animals	83
4.2 Results of Serological tests for Detection of Brucellosis in Animals and Human being	91
5. Discussion	145
6. Conclusion	180
7. Summary	182
8. References	184
9. Arabic Summary	217

List of Tables

	<i>Pages</i>
Table (1) Number of examined cows and buffaloes from different Districts, Villages and Cities in different locations	53
Table (2) Number of examined sheep and goats in different Districts, Villages and Cities in different locations	54
Table (3) Total number and geographical distribution of the different occupations being studied	58
Table (4) Differentiation of brucella species and their biotypes according to Alton et al. 1988	72
Table (5) Conversion of brucella titers to International units (IU) of antibody	80
Table (6) Brucella Biotypes isolated from aborted foeti of cows and buffaloes	88
Table (7) Brucella Biotypes Isolated from Aborted Foeti of Sheep and Goats	90
Table (8) Results of Rose Bengal Plate Test on sera from Cows Belonged to Menofia Governorate	92
Table (9) Results of the Serum Tube Agglutination Test of Cows belonged to Menofia Governorate	94
Table (10) Results of the Rivanol Test on Serum Derived From Brucella Positive Reactor Cows with Tube Agglutination Test in Menofia Governorate	96
Table (11) Results of Rose Bengal Plate Test of Buffaloes Belonged to Menofia Governorate	97
Table (12) Results of the Blood Serum Agglutination Test of Buffaloes belonged to Menofia Governorate	99
Table (13) Results of the Rivanol Test on Serum Derived From Buffaloes Brucella Reactor Positive with Tube Agglutination Test in Menofia Governorate	101
