Title: Studies on Resistance of Wild Oat (*Avena fatua* L.) to Flamprop-m-isopropyl (Suffix) and Clodinafop-propargyl (Topik) Herbicides in Assiut Area

Name: Ibrahim Abdel-Wahab Mohamed Mahmoud

This thesis for M.Sc. degree has been thoroughly examined and approved by:

Prof. Dr. Taha Y. Helal

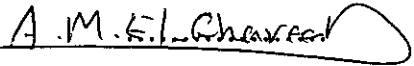

Prof. Dr. Abo Shabana M. Abd El-Rahman

Prof. Dr. Sayed A. Ahmed

Prof. Dr. Abdel-Raof M. El-Ghareeb

(Committee in charge)

Date: 27 / 12 / 2006

ACKNOWLEDGEMENTS

All praises and thanks are due to **ALLAH**, the great merciful and the great beneficent.

I wish to express my sincere appreciation and gratitude to Prof. Dr. Sayed A. Ahmed, Prof. Dr. Abdel-Raouf M. El-Ghareeb and Dr. Gamal I.A. Hassan*, Plant Protection Department and *Genetic Department, Faculty of Agriculture, Assiut university, for supervising to this dissertation, much helpful, enthusiastic cooperation and for their precious advices.

Sincere thanks are due to Prof. Dr. Farouk A. Abdel-Galil, Head of Plant Protection Department his for help and encouragement.

Thanks must be given to Prof. Dr. Samir H. Manna, Plant Protection Department for his precious advice in the statistical analysis of the data presented in this dissertation.

Thanks to staff members of the Plant Protection Department, Faculty of Agriculture, Assiut University, for their encouragement.

Thankful and grateful to my Family for their continuous encouragement, understanding and support during the preparation of manuscript.

INTRODUCTION	1
REVIEW OF LITERATURE	5
1-History of weed resistance to herbicides globally.....	5
2-Factors affecting the evolution of herbicide weed resistance phenomenon.....	13
3-Effect of herbicides on growth and (chlorophyll / protein) content of resistant and susceptible weed plants.....	17
4-Mode of action of arylaminopropionic acid, aryloxyphenoxypropionate (APP) and cyclohexanedione (CHD) herbicides in plants.....	26
5-Mechanisms of herbicide resistance in plant species.....	27
6-A seed bioassay method to identify the resistance/susceptibility of plants to herbicides.....	32
MATERIALS AND METHODS	35
- Herbicides used.....	35
- Plant material and seedling growth.....	35
I. Green-house studies (pot experiments)	36
1. Measured parameters.....	37
1.1. Vegetative growth.....	37
1.2. Chemical analyses.....	37
1.2.1. Chlorophyll and carotenoid assay.....	37
1.2.2. Protein assay.....	38
1.2.2.1. Buffers and solutions required.....	38
1.2.2.2. Sample preparation.....	39
1.2.2.3. Preparation and casting of the SDS-polyacrylamide gel.....	39
1.2.2.4. Electrophoresis.....	40
1.2.2.5. Staining and destaining of protein gel.....	40
2. Statistical analysis.....	40
