# THE EFFECT OF SCHOOL MEAL GIVEN TO ELEMENTARY SCHOOL PUPILS AT GHARBIA GOVERNORATE ON THEIR ANTHROPOMETRIC MEASUREMENTS AND SCHOLASTIC ACHIEVEMENT

BY

Ahlam Mosa Abd-El.Megeed Ghanem

BSc in

Education

Faculty of Home Economics

Hellwan University, 1976.

Thesis

SUBMITTED IN PARTIAL FULFILMENT OF THE  
REQUIREMENT FOR THE DEGREE OF MASTER IN  
HOME ECONOMICS NUTRITION AND FOOD  
SCIENCE.

"Supervisors"

Prof. Dr.

Ahmed M. Khorshed

Director of food Technology  
Research Institute  
Agricultural Research  
Center

*Ahmed Khorshed*

Dr.

Laila Mohammed Tawfik

Assistant Prof. Of Nutrition  
Faculty of Home Economics  
Minufiya University

*Laila Tawfik*

Nutrition And Food Science Dept.

Faculty of Home Economics

Minufiya University

- 2000 -

## APPROVAL SHEET

**Title of thesis:**

*The effect of school meal given to elementary school pupils at Gharbia Governorate on their anthropometric measurements and scholastic achievement*

**Degree:**

*M. Sc. Degree of Nutrition And Food Science.*

**Name of Student:**

*Ahlam Mosa Abd-El Megeed Ganem*

*This thesis has been approved by:*

**Prof. Dr.**

.....

**Prof. Dr.**

*M. N. El-Sayed*.....

**Prof. Dr.**

*Abdel R. M. ...*.....

**Prof. Dr.**

*... Laila ...*.....

**Committee in charge**

**Date / / 2000**

# Acknowledgement

## First

*I would like to thank "Allah" who helped me to accomplish this work.*

*A special acknowledgment to Prof. Dr. Mohammed Mostafa El-Sayed [Dean of Home Economics Faculty, Minufiye University] for his encouragement, valuable advice and psychological support to the student during conducting this research.*

*A special appreciation and thanks are also extended to Professor Dr. Ahmed M. Khorshed, 'Director of Food Technology Research Institute, Agricultural Research Center' for his supervision, constructive criticism and unlimited help during this study.*

*A special appreciation and my deepest thanks are due to Dr. Laila Mohammed Tawfik, "Assistant prof. Of nutrition faculty of Home Economics Minufiya University" for her kind supervision and her sincere efforts extended to me during conducting this work.*

*A special acknowledgement is also due to Dr. Bothayne M. Abd El-Lateef "Assistant Professor, Food Technology Research Institute, Agricultural Research Center" for her kind help and suggestion for the new meals.*

*A whole heartedly thanks to my husband Mr. Mohammed Taher Ghanem, and to my kids for their continuous support to me all along the time it took me to finish up this thesis.*

*Finally, I would like to express my thanks to all those who have helped me in any way in order to finish up this work.*

# List of Contents

Introduction .....	(1)
Aim of the study .....	(4)
REVIEW OF LITERATURE	
1-Factors effecting pupils nutrition .....	(5)
A -Income	
B - Food price	
C - Occupation	
D - Education	
E - Family size	
2-Dietary requirements .....	(8)
3-Nutritional problems of school children .....	(20)
A - Iron deficiency anemia	
B - Childhood obesity	
C - Under weight	
D - Attention deficit hyperactivity disorder & food allergies	
E - Dental caries	
F - Infection	
4-Feeding during school day .....	(26)
5-Effect of feeding programs on the nutritional status of school children in Egypt .....	(27)
6-Nutritional assessment .....	(28)
A- Components of nutritional assessment .	

B- Anthropometric measurements . . . . .	(33)
7-Growth and nutritional status of Egyptian school children . . .	(39)
8-Biochemical measurements . . . . .	(45 )
9-Scholastic achievement . . . . .	(48)
MATERIAL AND METHODS . . . . .	(54)
RESULTS AND DISCUSSION . . . . .	(66)
CONCLUSION AND RECOMMENDATION . . . . .	(234)
SUMMARY . . . . .	(236)
REFERENCES . . . . .	(245)
APPENDICES	
ARABIC SUMMARY	

## List of Tables

1-Nutritional requirements children for (7-12 years). . . . .	(19)
2-The total studied pupils according to the study sites. . . . .	(54)
3-Classification of pupils according to school location and gender.(54)	
4-Presents measurements and specific test carried out on the studied sample. . . . .	(57)
5-A detailed list of food consumed from typical 24hr food recall for males and females. . . . .	(60)
6-Characteristics of the study sample. . . . .	(68)
7-Distribution of the sample according to daily meals number.. . .	(71)
8-Distribution of the sample according to school meal consumption. . . . . .	(72)
9-Means and standard deviation for the whole sample with respect to social variables. . . . .	(74)
10- Means and standard deviation of age and monthly income for the three samples of study. . . . .	(76)
11-Follow up L.S.D test comparisons with respect to age and monthly income for three groups. . . . .	(77)
12-Inter correlation between social variables.. . . .	(82)
13-Means and standard deviations of nutrients intake for the whole sample and compared with the standard (R.D.A, 1989).. . . . .	(88)
14-Means and standard deviations of nutrients intake for the three samples and compared with (R.D.A, 1989). . . . .	(94)
15-Follow up L.S.D test comparisons nutrients intake for three groups. . . . . . . . .	(100)

16- percentages of protein, fat and carbohydrate from the total calories for all samples. ....	(103)
17- percentages of protein, fat and carbohydrate from the total calories for three groups. ....	(106)
18-Frequency distribution of nutrients intake percent as compared with (R.D.A, 1989). ....	(113)
19- Inter correlation between nutrients intake. ....	(137)
20-Correlation coefficient between nutrients intake and social variables. ... .....	(144)
21-Frequency distribution of food consumption for the whole sample. ... .....	(150)
22-Inter correlation between food consumption.. ....	(162)
23-Correlation coefficient between nutrients intake and food consumption.. ....	(168)
24- Means and standard deviations of the whole samples with respect to anthropometric measurements. ....	(170)
25- Means and standard deviation of anthropometric measurements and compared with the standard (Jellife, 1966). ....	(172)
26-Follow up L.S.D test comparisons anthropometric measurements for three groups. ....	(174)
(27-31)Frequency distribution of anthropometric measurements as percentage of standard (Jellife, 1966). ....	(177-181)
32-Inter correlation between anthropometric measurements. ....	(192)
33-Correlation coefficient between anthropometric measurements and social variables. ....	(194)

34-Correlation coefficient between anthropometric measurements and nutrients intake. . . . .	(196)
35-Means and standard deviation for hemoglobin level. . . . .	(197)
36- Means and standard deviation for hemoglobin level for three groups . . . . .	(199)
37-Follow up L.S.D test comparisons hemoglobin level for three group. . . . .	(200)
38-Frequency distribution of hemoglobin level.. . . .	(202)
39-Correlation coefficient between hemoglobin level and social variables. . . . .	(205)
40-Correlation coefficient between hemoglobin level and nutrients intake... . . . .	(207)
41- Correlation coefficient between hemoglobin level and anthropometric measurements. . . . .	(208)
42- Means and standard deviation for the whole sample with respect to scholastic achievement and psychological test. . . . .	(210)
43- Means and standard deviation of the scholastic achievements and psychological test for three group. . . . .	(213)
44- Follow up L.S.D test comparisons scholastic achievements and psychological test for three groups. . . . .	(216)
45- Correlation coefficients between a scholastic achievement and psychological test. . . . .	(218)
46- Correlation coefficient between a scholastic achievement, psychological test and social variables. . . . .	(212)
47- Correlation coefficient between scholastic achievement psychological test and nutrients intake.. . . .	(224)

- 48- Correlation coefficient between scholastic achievement  
psychological test and anthropometric measurements. . . . . (226)
- 49- Correlation coefficient between scholastic achievement  
psychological test and hemoglobin level . . . . . (227)
- 50- Comparison between chemical composition and cost of product in  
piasters of school meal introduced to the pupils, pies and  
Biscuits. . . . . (229)
- 51- Composition [in gram] of high nutritional values baked products for  
school children . . . . . (232).
- 52- The number and percentage of sensory evaluation judgments for the  
school meal and the suggested meals. . . . . (233)

## List of Figure

- Fig (1) : Distribution of Calories, protein, and Essential Minerals  
Consumed by Boys As Compared with The RDA, 1989.. (95)
- Fig (2) : Distribution of Calories, protein, and Essential Minerals  
Consumed by Girls As Compared with The RDA, 1989.. (96)
- Fig (3) : Distribution of vitamins Consumed by Boys As Compared  
with the RDA, 1989..... (97)
- Fig (4) : Distribution of vitamins Consumed by Girls As Compared  
with the RDA, 1989..... (98)
- Fig (5) : Percentage of Energy yielding from protein, Fat,  
Carbohydrate for Girls. ... (104)
- Fig (6) : Percentage of Energy yielding from protein, Fat,  
Carbohydrate for Boys. .... (104)
- Fig (7) : Distribution of percentage of energy yielding from protein,  
fat, carbohydrate for boys and girls according to school  
meal ..... (107)
- Fig (8) : Distribution of Calories Intake Percentage As Compared  
with RDA, 1989..... (114)
- Fig (9) : Distribution of Protein Intake Percentage As Compared  
with RDA, 1989..... (115)
- Fig (10) : Distribution of Calcium Intake Percentage As Compared  
with RDA, 1989..... (116)
- Fig (11) : Distribution of Phosphor Intake Percentage As Compared  
with RDA, 1989..... (117)
