

**A Retrospective Study of Acute Toxicity by  
Typical and Atypical Antipsychotics in  
Patients Admitted to Poison Control  
Center-Ain Shams University Hospitals  
from Year 2013 to 2015**

*Thesis*

*Submitted for Partial Fulfillment of the Master Degree in  
Clinical Toxicology*

*By*

**Mariam Mohammad Abd-El Azim**

*Demonstrator in Forensic Medicine and Clinical Toxicology Department  
Faculty of Medicine, Assiut University*

*Supervised by*

**Professor Dr. Hoda Salah Osman**

*Professor in Forensic Medicine and Clinical Toxicology Department  
Faculty of Medicine - Ain Shams University*

**Professor Dr. Nahed Abd El-Maksoud**

*Professor in Forensic Medicine and Clinical Toxicology Department  
Faculty of Medicine - Assiut University*

**Professor Dr. Gihan Boshra Azab**

*Professor in Forensic Medicine and Clinical Toxicology Department  
Faculty of Medicine - Ain Shams University*

**Faculty of Medicine  
Ain Shams University  
2017**

سوره البقرة ايه ۳۲

## **Acknowledgements**

*Before all, Thanks to **Allah**, The Most Kind and The Most Merciful.*

I would like to express my profound gratitude to **Prof. Dr. Hoda Salah Osman**, Professor in Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine- Ain Shams University, for her valuable help, assistance, encouragement, supporting me and devoting her time to facilitate the production of this work.

Also I'm deeply grateful to **Prof. Dr. Nahed Abd El-Maksoud**, Professor in Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine- Assiut University, for her most valuable advices and support all through the whole work and for dedicating much of her precious time to accomplish this work. I really have the honor to complete this work under her generous supervision.

I am also grateful to **Prof. Dr. Gihan Boshra Azab**, Professor in Forensic Medicine and Clinical Toxicology Department, Faculty of Medicine- Ain Shams University, for her unique effort, considerable help, assistance and knowledge she offered me throughout the performance of this work.

Last but not least, I can't forget to thank my **husband** and all members of my **Family**, for pushing me forward in every step in the journey of my life.

 **Mariam Mohammad**

## List of Abbreviations

<b>Abb.</b>	<b>Full term</b>
<b>bpm</b>	Beats per minute
<b>°C</b>	Degree Celsius
<b>ABG</b>	Arterial Blood Gases
<b>Ach</b>	Acetylcholine
<b>CK</b>	creatinine kinase
<b>CNS</b>	Central nervous System
<b>CT</b>	Computed Tomography
<b>CTZ</b>	Chemoreceptor Trigger Zone
<b>CVS</b>	Cardiovascular System
<b>DBP</b>	Diastolic Blood Pressure
<b>EAD</b>	Early After Depolarization
<b>ECG</b>	Electrocardiogram
<b>EPS</b>	Extrapyramidal syndrome
<b>g/kg</b>	Gram / kilogram
<b>GABA</b>	Gama-aminobutyric acid
<b>HCO<sub>3</sub><sup>-</sup></b>	Bicarbonate
<b>ICU</b>	Intensive care unit
<b>IFE</b>	intravenous fat emulsion
<b>IM</b>	Intramuscular
<b>IV</b>	Intravenous
<b>L</b>	Liter
<b>L/kg</b>	Liter per Kilogram
<b>mEq/kg</b>	Milliequivalent / Kilogram
<b>mEq/L</b>	Milliequivalent / Liter
<b>Mg</b>	Milligram

<b>Abb.</b>	<b>Full term</b>
<b>mg/dl</b>	Milligram/deciliter
<b>mg/kg</b>	Milligram / kilogram
<b>mL/kg</b>	Milliliter / kilogram
<b>Mm</b>	Millimeter
<b>mm/s</b>	Millimeter/second
<b>mmHg</b>	Millimeter mercury
<b>mmol/l</b>	Millmole /liter
<b>Msec</b>	Millisecond
<b>NMS</b>	Neuroleptic Malignant Syndrome
<b>P</b>	Probability
<b>PCC</b>	Poison Control Center
<b>PCC-ASUH</b>	Poison Control Center -Ain Shams University Hospitals
<b>PCO2</b>	Partial carbon dioxide pressure
<b>QTc</b>	Corrected QT interval
<b>RBS</b>	Random Blood Sugar
<b>RR</b>	Respiratory rate
<b>SBP</b>	Systolic Blood Pressure
<b>SCD</b>	Sudden Cardiac Death
<b>SD</b>	Standard deviation
<b>TdP</b>	Torsades de pointes
<b>Yr</b>	Years

## List of Tables

<b>Table No.</b>	<b>Title</b>	<b>Page No.</b>
<b>Table (1):</b>	Some of the more commonly used antipsychotics .....	7
<b>Table (2):</b>	Antipsychotics classified according to their affinity for the D2 receptor and antipsychotic potency .....	8
<b>Table (3):</b>	Receptor affinity (antagonism) of common second generation atypical antipsychotic agents .....	44
<b>Table (4):</b>	Receptor affinity (antagonism) of common third generation atypical antipsychotic agents .....	46
<b>Table (5):</b>	Vital signs at various children ages.....	60
<b>Table (6):</b>	Reed's classification of the level of consciousness .....	62
<b>Table (7):</b>	Chi square test comparing percentages of different types of typical and atypical antipsychotics acute overdose between adults and children patients .....	72
<b>Table (8):</b>	Chi square test (X <sup>2</sup> ) comparing percentages of adults and children patients admitted to ICU and inpatient.....	74

## List of Tables *(Cont...)*

Table No.	Title	Page No.
<b>Table (9):</b>	Chi square test ( $X^2$ ) comparing percentages of different types of acute typical and atypical antipsychotics overdose between ICU and inpatient children .....	76
<b>Table (10):</b>	Chi square test comparing percentages of different types of acute typical and atypical antipsychotics overdose between ICU and inpatient adult patients .....	78
<b>Table (11):</b>	Student -t test and Mann Whitney U test comparing age and delay time between neurazine and clozapex acute overdose of ICU admitted children .....	82
<b>Table (12):</b>	Fisher's Exact test ( $X^2$ ) comparing sex and manner of toxicity between neurazine and clozapex acute overdose of ICU admitted children .....	82
<b>Table (13):</b>	Student -t test comparing age and delay time between neurazine and clozapex acute overdose of ICU admitted adults .....	83
<b>Table (14):</b>	Chi square test and Fisher's Exact test ( $X^2$ ) comparing sex and manner of toxicity between neurazine and clozapex acute overdose of ICU admitted adults .....	83
