# COMPLICATIONS OF ENDOVASCULAR SURGERY

Essay

*Submitted for partial fulfillment of the  
master degree in general surgery*

**By**

Amr El-Sayed Mohamed  
M.B.,B.Ch

SUPERVISED BY

**Prof. Dr: Tarek Ahmed Abdel- Azim (MD)**

Professor of general and vascular surgery  
Faculty of medicine Ain shams university

**Prof. Dr: Sherif Mohamed Sholkamy (MD)**

Assistant professor of general and vascular surgery  
Faculty of medicine Ain shams university

**Dr: Maged Abdel- Hakim Zaki (MD)**

Lecturer of general surgery  
Faculty of medicine Ain shams university

**AIN SHAMS UNIVERSITY**

**2002**

*Amr El-Sayed Mohamed*  
*Sherif Mohamed Sholkamy*  
*Maged Abdel- Hakim Zaki*

# AKNOWLEDGEMENT

*Above all and first of all thanks to  
**Allah.***

*I would like to express my sincere thanks and deepest gratitude to Prof. Dr. **Tarek Ahmad Abdel-Azim** professor of vascular and general surgery faculty of medicine, Ain-Shams university, who suggested the topics and offered me the useful guidance and kind criticism.*

*I am deeply grateful to Prof. Dr. **Sherif Mohamed Sholkamy** assist. professor of vascular and general surgery faculty of medicine, Ain-Shams university, for his great help and cooperation.*

*A special note of gratitude goes to Dr. **Maged Abdel-Hakim Zaki** lecturer of general surgery faculty of medicine, Ain-Shams university for his guidance and valuable supervision of this work.*

*Finally, my deepest thanks to **my family** that gives me a lot and get a little.*

Amr El-Sayed Mohamed

<i>Introduction and Aim of the work</i>	1
<i>Historical background about endovascular surgery</i>	3
<i>Review of literature</i>	8
<i>Review about endovascular surgery</i>	23
<i>Complications of endovascular surgery</i>	54
<i>Summery and conclusions</i>	167
<i>References</i>	168
<i>Arabic summary</i>	183

## List of pictures

FIGURE		PAGE
1	<i>Fibrous plaque and medial thickening</i>	11
2	<i>Diagram for illustration of shear stress</i>	12
3	<i>Picture of fibrodysplasia</i>	15
4	<i>Picture of intimal hyperplasia</i>	16
5	<i>Haemangioma at acute and remission state</i>	19
6	<i>Arteriovenous malformation of the hand</i>	19
7	<i>Venovenous abnormality of the lip</i>	20
8	<i>Types of injectors</i>	24
9	<i>Diagram of atherectomy device at work</i>	28
10	<i>Head of directional atherectomy</i>	28
11	<i>Head of rotational atherectomy</i>	29
12	<i>Different shapes of atherectomy heads</i>	29
13	<i>Diagram for iliac artery, patient selection</i>	34
14	<i>Method of double wall needle application</i>	37
15	<i>Smart needle</i>	37
16	<i>Sheath component with its connection</i>	38
17	<i>Magic guide wire during use</i>	39
18	<i>Diagram of a classic component of the guide wire</i>	40
19	<i>Nonselective pigtail catheter</i>	42
20	<i>Different shapes of guiding catheters</i>	43
21	<i>Different types and shapes of balloon angioplasty catheters</i>	44
22	<i>Balloons during inflation and deflation</i>	45
23	<i>Palmaz stent collapsed and expanded</i>	46
24	<i>Self expanding stent and its flexibility</i>	46
25	<i>Different shapes of laser probes</i>	47

26	<i>IVUS as a diagnostic tool in contrast to angiography</i>	48
27	<i>Diagram of IVUS with its protected cover</i>	48
28	<i>Nitinol filters &amp; Green filter at its site of application</i>	49
29	<i>Endovascular endograft</i>	50
30	<i>Diagram of steps of vascular accesses</i>	51
31	<i>Diagram of endovascular operation room and the optimal position of the persons and articles</i>	52
32	<i>A picture of well-organized endovascular theater</i>	53
33	<i>Angiogram demonstrates the presence of multiple pulmonary embolizations</i>	62
34	<i>Retroperitoneal hematoma</i>	68
35	<i>method of retroperitoneal iliac artery perforation</i>	69
36	<i>A picture of brain protector device</i>	73
37	<i>Diagram to demonstrate the radiation distribution inside the theater</i>	76
38	<i>Relations of the femoral artery and the classical puncture site</i>	83
39	<i>Sites of upper limb cannulations</i>	84
40	<i>Pseudoaneurysm of the popliteal artery</i>	87
41	<i>Local instillation of thrombin</i>	89
42	<i>Hematoma of the brachial artery</i>	90
43	<i>Thrombin needle at use</i>	91
44	<i>A-V fistula of the femoral and brachial arteries</i>	91
45	<i>Pulmonary A-V fistula</i>	92
46	<i>Guide wire dissection of the renal artery successfully treated by stent insertion</i>	94
47	<i>Expandable sheath</i>	95
48	<i>Diagram of the guide wire insertion to show how the dissection happens</i>	96
49	<i>Guide wire perforation of the renal artery</i>	96

50	<i>Guide wire inside the heart</i>	97
51	<i>Snare, grasper, nest and vascular loop</i>	97
52	<i>Different shapes of the guide wires tips</i>	98
53	<i>Curling of the guide wire</i>	98
54	<i>Jamming of the coil in the catheter tip</i>	100
55	<i>Failure of the balloon to dilate a calcific area</i>	102
