

***Value of assessment of Thrombomodulin level in
patients with type II DM with and without peripheral
ischemia***

Thesis

**Submitted for partial fulfillment of the Master degree
in**

Clinical Haematology

By

Mohammed Elsayed Abd ElHamid Osman

M.B.B.CH

Under Supervision of

Professor Dr. Hanan Hamed Abdel-Hamid

Professor of Internal Medicine and Clinical Haematology

Faculty of Medicine, Ain Shams University

Dr. Walaa Ali Elsalakawy

lecturer of Internal Medicine and Clinical

Haematology

Faculty of Medicine, Ain Shams University

Dr. Botheina Ahmed Thabet Farweez

Lecturer of Clinical and Chemical Pathology

Faculty of Medicine, Ain Shams University

Faculty of Medicine

Ain Shams University

2013

List of Contents

Title	Page
• Introduction	1-3.
• Aim of the Study	4.
• Review of Literature:	
▪ Diabetes	5-27.
▪ Thrombomodulin	28-65.
• Subjects and Methods	66-73.
• Results	74-86.
• Discussion	87-95.
• Summary and Conclusion	96-101.
• Recommendations	102-103.
• References	104-121.
• Arabic Summary	1-3 .

List of Figures

Fig. No	Subjects	Page
Fig. (1)...	Molecular Location of thrombomodulin.....	2.
Fig. (2)...	anti coagulant and anti fibrinolytic properties.....	.
Fig. (3)...	Thrombomodulin (TM) anchors to endothelial cell.....	.
Fig. (4)...	Comparison between the three groups as regarding sex.....	5.
Fig. (5)...	Comparison between the three groups as regarding renal Impairment.....	7.
Fig. (6)...	Comparison between the three groups as regarding FBS.....	8.
Fig. (7)...	Comparison between the three groups as regarding 2HPP.....	79.
Fig. (8)...	Comparison between the three groups as regarding associated symptoms of ischemia.....	80.
Fig. (9)...	Comparison between the three groups as regarding Microalbumenuria.....	1.
Fig. (10)...	Comparison between the three groups as regarding Hb.....	82.
Fig. (11)...	Comparison between the three groups as regarding TLC.....	.
Fig. (12)...	Comparison between the three groups as regarding sTM.....	.
Fig. (13)...	Correlation between STM and 2HPP.....	.

List of Tables

Tab. No	Subjects	Page
Table (1):	Comparison between group I, and group III regarding sex.....	5.
Table (2):	Descriptive statistics of group I, II and III regarding sex	6.
Table (3):	Comparison between group I, and group III regarding renal impairment.....	7.
Table (4):	Comparison between group I, II and group III regarding FBS.....	8.
Table (5):	Comparison between group I, II and group III regarding 2HPP.....	79.
Table (6):	Comparison between group I, II and group III regarding associated symptoms ischemia	80.
Table (7):	Comparison between group I, II and group III regarding Micro albuminuria.....	1.
Table (8):	Comparison between group I, II and group III regarding Hb.....	82.
Table (9):	Comparison between group I, II and group III regarding TLC.....	3.
Table (10):	Comparison between group I, II and group III regarding STM.....	4.
Table (11):	Correlation between STM and other variables among cases (group I & II).....	86.

Introduction and Aim of the Work

Thrombomodulin

Diabetes mellitus

Subjects and Methods

Results

Discussion

Summary and Conclusion

References

Recommendations

Abbreviations

- T2DM type 2 diabetes mellitus.
- sTM soluble Thrombomodulin.
- PVD peripheral vascular disease.
- ARICAtherosclerosis Risk in Communities.
- CRPC-reactive protein.
- HR..... hazard ratio.
- KORACooperative Health Research in the
Region of Augsburg.
- MONICA.....Monitoring of Trends and
Determinants in Cardiovascular Disease.
- sE-selectin..... soluble E-selectin.
- sICAM-1 soluble intercellular adhesion
molecule-1.
- gla domains..... gammacarboxyglutamic
acid residues .
- Hb.....haemoglobin.
- TLC.....total leucocytic counts .

*First of all, all gratitude is due to **God** almighty for blessing this work, until it has reached its end, as a part of his generous help, throughout my life.*

*I wish to express my deepest thanks, gratitude and appreciation to **Professor Dr. Hanan Hamed Abdel-Hamid**
Professor of Internal Medicine and Clinical Haematology
Faculty of Medicine, Ain Shams University*

for her meticulous supervision, kind guidance, valuable instructions and generous help.

Special Thanks to Dr. Walaa Ali Elsalakawy *lecturer of Internal Medicine and Clinical Haematology Faculty of Medicine, Ain Shams University for her sincere efforts, great help, outstanding support, active participation and kind guidance.*

My sincere Thanks to Dr. Botheina Ahmed Thabet Farweez
Lecturer of Clinical and Chemical Pathology Faculty of Medicine, Ain Shams University for her kind guidance, valuable instructions and generous help.
