EFFECT OF SOME AGRICULTURAL PRACTICES ON GROWTH, YIELD AND ACTIVE CONSTITUENTS OF MEXICAN MARIGOLD (*TAGETES LUCIDA*) PLANT

By

RASHA FOUAD ISMAIL AHMED

B.Sc. Agric. Sc. (Horticulture), Ain Shams University, 2008

Under the supervision of:

Dr. Awaad Mohamed Kandeel

Prof. Emeritus of Ornamental and Medicinal & Aromatic Plants,
Dept. of Horticulture, Faculty of Agriculture, Ain Shams University.
(Principal Supervisor).

Dr. Ayman Kamal Ibrahim

Assistant Prof. of Ornamental and Medicinal & Aromatic Plants,
Dept. of Horticulture, Faculty of Agriculture, Ain Shams University.

Dr. Elsayed Abouelfotowh Omer

Research Prof. Emeritus of Medicinal and Aromatic Plants, Dept. of
Medicinal & Aromatic Plants Research, National Research Centre.

Approval Sheet

**EFFECT OF SOME AGRICULTURAL PRACTICES ON
GROWTH, YIELD AND ACTIVE CONSTITUENTS OF
MEXICAN MARIGOLD (*TAGETES LUCIDA*) PLANT**

By

RASHA FOUAD ISMAIL AHMED

B.Sc. Agric. Sc. (Horticulture), Ain Shams University, 2008

This Thesis for M.Sc. Degree has been approved by:

Dr. Ahmed Atef Sadek Radwan.....

Head of Research Emeritus of Medicinal and Aromatic Plants,
Horticulture Research Institute, Agricultural Research Centre.

Dr. Sohair El-Sayed Mohamed Hassan.....

Prof. Emeritus of Ornamental and Medicinal & Aromatic Plants,
Faculty of Agriculture, Ain Shams University.

Dr. Awaad Mohamed Kandeel.....

Prof. Emeritus of Ornamental and Medicinal & Aromatic Plants,
Faculty of Agriculture, Ain Shams University.

Date of examination: 14 / 5 / 2013.

ACKNOWLEDGEMENT

First of all, I wish that I could thank Allah, the Almighty, the most beneficent, most merciful for all countless graces and overcoming all the obstacles in front of me to achieve goals and make them possible.

My heart is full of thanks and gratefulness to Spirit of Late ***Prof.Dr.Mahmoud Elsayed Hashem***, Professor of Ornamental and Medicinal & Aromatic Plants, Faculty of Agriculture, Ain Shams University, I pray to Allah to grant him mercy, forgiveness and continue living in paradise Insha'Allah.

My deepest thanks and gratitude are extended to ***Prof.Dr.Awaad Mohamed Kandeel***, Emeritus Professor of Ornamental and Medicinal & Aromatic Plants, Faculty of Agriculture, Ain Shams University, for his continuous supervision, valuable guidance, indispensable advice, beneficial instructions, moral encouragement, worthy support during the courses and the curriculum of this work as well as his suave help in the performance of the thesis.

Sincere appreciation and special gratefulness are due to ***Prof.Dr.Elsayed Abouelfotowh Omer***, Emeritus Professor of Medicinal and Aromatic Plants, National Research Centre for suggesting the subject of this work, his constant supervision, everlasting encouragement, constructive criticism, inspiring guidance, providing all necessary facilities required for the experimental work as well as his fruitful help in writing and performing the thesis.

I wish to express my indebtedness and profound gratitude to ***Dr.Ayman Kamal Ibrahim***, Assistant Professor of Ornamental and Medicinal & Aromatic Plants, Faculty of Agriculture, Ain Shams University, for his supervision, constructive encouragement during courses and his pleasant help in performing the thesis.

Special grateful and thanks to ***Dr.Saber Fayez Hendawy***, Associate Professor of Medicinal and Aromatic Plants, National Research Centre, for

his everlasting support, continuous help and great effort in the performance of the agricultural experiment.

Many and great thanks are due to ***Prof.Dr.Fayez Nazir Zaki, Prof.Dr.Mohamed Fared Abd-ElFataah, Prof.Dr.Mahfouz Abd-Elgawad and Dr.Azza Nour El-Deen*** for their help and valuable effort in the biological activity experiments.

Thanks are expressed to SEKEM Company for allowing me to cultivate in its farm. Also deep thanks to all staff members of Medicinal and Aromatic Plants Research Department, National Research Centre for their help, encouragement and co-operation during this work.

Finally, I dedicate this work to the most precious people in my life; to spirit of my grandfather and grandmother, to my dear parents who are the cause of my happiness and all beautiful things in my life, to my beloved sisters (***Heba and Hend***) and my dear brother (***Abd El-Rahman***) for their valuable cheer, help and support as well as to my sweethearts (***Alaa, Areeg and Ahmed***).

Special dedication is given to my dear ***Prof.Dr.Saeed El-Shazly*** for supporting and encouraging me.
