Acknowledgment

First, I would like to thank GOD for giving me the opportunity and well power to accomplish my Master degree.

I would like to express my thanks and sincere gratitude to Professor Dr. Taha Kamel Taha Alloush, Professor of Neurology, Faculty of Medicine, Ain Shams University for suggesting the topic of the present work, continuous valuable guidance, supervision, useful discussions, criticism during this work and reading throughout the manuscript.

I want to express thanks and sincere gratitude to Dr. Mohamed Yasser Metwally, Assistant Professor of Neurology, Ain Shams University for his valuable supervision, help and his continuous encouragement at all times.

Thanks and sincere gratitude are dedicated to Dr. Nagia Aly Fahmy, Lecturer of Neurology, Faculty of Medicine, Ain shams university for her valuable discussion, criticism during the work, help, continuous encouragement and reading throughout the manuscript.

I also wish to express my thanks to all staff members of Neuropsychiatry department, Faculty of Medicine, Ain Shams University for their cooperation.

There are no words to express my gratitude to my parents, my husband, and my sisters, without whose help and sacrifice this work would not have been possible. To them I dedicate all my work.

Hala El-Said Sayyah.
