Local Lignocaine (Lidocaine) Intratympanic Instillation In Treatment Of Tinnitus

Thesis

*Submitted For Partial fulfillment of the M.Sc Master
Degree In Otorhinolaryngology*

Presented By

*Tamer Mohammed Abdel Majeed Attia
(MB., B.Ch)*

under the Supervision of

Prof. Dr. Abdel Hay Rashad El-Assy
Professor & Chairman of Otorhinolaryngology department
Faculty of Medicine, Menoufiya University

Prof. Dr. Adel Tharwat Atallah
Assistant Professor of Otorhinolaryngology
Faculty of Medicine, Menoufiya University

Prof. Dr. Omar Abdel Monaem El-Banhawy
Assistant Professor of Otorhinolaryngology
Faculty of Medicine, Menoufiya University

Dr. Ayman El-Sayed Abdel Aziz Abo- El Aeneen

Lecturer of Otorhinolaryngology
Faculty of Medicine, Menoufiya University

*Faculty Of Medicine
Menoufiya University
2004*

Acknowledgement

First of all, thanks GOD. Then I would like to express my sincere gratitude and cordial thanks to my supervisors during this thesis for their great encouragement and valuable guidance since the beginning of setting the idea of this thesis and for their continuous enthusiasm and patience all through the work, for them I will be always grateful.

Many thanks to you Prof. Dr. Abdel Hay El-Assy- Prof. & Chairman of E.N.T. department, Menoufiya University.

Many thanks to you Prof. Dr. Adel Tharwat- the assistant Prof. Of E.N.T, Menoufiya University.

Many thanks to you Prof. Dr. Omar El-Banhawy- the assistant Prof. Of E.N.T, Menoufiya University.

Many thanks to you Dr. Ayman El-Sayed Abdel-Aziz- the lecturer Of E.N.T, Menoufiya University.

I would like to express my deep thanks and sincere appreciation to all members of the E.N.T. department, Menoufiya University for their indispensable guidance, great help & kind support.

I am also very grateful to Dr. Fayssal Farahat- the lecturer of community medicine, Menoufiya University, who helped me a lot in the statistics of this thesis and to Abeer Allam- the resident of neurology & psychiatry, Menoufiya University, who helped me a lot in the neurological examination of the patients in this thesis.

Finally I am indebted to my patients as their cooperation was the corner stone in the success of this work & I am indebted also to my family whose care, patience & pray had been the beam of light in the darkness.

Tamer Attia, 2004

List Of Tables

Page

Tables in the Review:

<i>Table 1:</i> Main concepts related to proposed mechanisms of tinnitus	8
<i>Table 2:</i> Medical conditions that may be associated with tinnitus	9
<i>Table 3:</i> Grading of tinnitus	10
<i>Table 4:</i> Methods used for evaluation of tinnitus.	10
<i>Table 5:</i> Properties of local anaesthetics.	29
<i>Table 6:</i> Methods of administration, uses & adverse effects of local anaesthetics (LAs).	30

Tables in the Results:

<i>Set-1: tables that compare group I(Rt.) with group I(Lt.).</i>	46
<i>Table (1-A):</i> comparison of tinnitus status after completion of five instillation sessions	46
<i>Table (1-B):</i> Comparison of tinnitus frequency & intensity after completion of five instillation session.	48
<i>Table (1-C):</i> Comparison of complications developed during instillation &/or during 6 months follow up later.	48

<i>Set-2: Tables that compare group II(Rt.) with group II(Lt.):</i>	50
<i>Table (2-A):</i> Comparison of tinnitus status after completion of five instillation sessions.	50
<i>Table (2-B):</i> Comparison of tinnitus frequency & intensity after completion of five instillation sessions.	52
<i>Table (2-C):</i> Comparison of complications developed during instillation &/or during 6 months follow up later.	52
<i>Set-3: Tables that compare group I with group II:</i>	55
<i>Table (3-A):</i> Comparison of age.	55
<i>Table (3-B):</i> Comparison of sex.	56
<i>Table (3-C):</i> Comparison of Residency.	56
<i>Table (3-D):</i> Comparison of average daily activities	58
<i>Table (3-E):</i> Comparison of smoking	58
<i>Table (3-F):</i> Comparison of the frequency of tea intake a long the day.	59
<i>Table (3-G):</i> Comparison of the frequency of coffee intake along the day.	59
<i>Table (3-H):</i> Comparison of the type of sound heard by the patients.	61
<i>Table (3-I):</i> Comparison of the course of tinnitus a long the day.	61
<i>Table (3-J).</i> Comparison of the duration of the complaint (C/O).	63
<i>Table (3-K):</i> Comparison of vertigo association.	63
<i>Table (3-L):</i> Comparison of tinnitus grade.	65
<i>Table (3-M):</i> Comparison of tinnitus frequency & intensity prior to instillation	66

<i>Table (3-N):</i> Comparison of tinnitus status after completion of five instillation sessions.	68
<i>Table (3-O):</i> Comparison of maximal improvement occurred after how many instillation sessions?	70
<i>Table (3-P):</i> Comparison of immediate post-instillation vertigo.	72
<i>Table (3-Q):</i> Comparison of tinnitus frequency & intensity after completion of five instillation sessions.	74
<i>Table (3-R):</i> Comparison of complications developed during instillation &/or during 6 months follow up later.	75
<i>Table (3-S):</i> Comparison of recurrence of symptoms during 6 months follow up after completion of the instillation sessions.	77
<i>Table-4: Table that study the effect of the personal history & the behavior of tinnitus on the response to lignocaine.</i>	79
<i>Table (4-I-A)</i> Simple linear regression for group I personal characteristics.	79
<i>Table (4-I-B):</i> Simple linear regression for group I tinnitus characteristics.	83
<i>Table (4-I-C):</i> Multi variant regression analysis of the only significantly found personal characteristics & tinnitus behavior of group I by the simple linear regression.	87
<i>Table (4-II-A):</i> Simple linear regression for group II personal characteristics.	88
<i>Table (4-II-B):</i> Simple linear regression for group II tinnitus characteristics.	90
<i>Table (4-II-C):</i> Effect of the degree of hearing loss on the response of group II (Rt.) ears to lignocaine.	90
