A Comparative Study of Two Different Designs of Kennedy Class III Modification 1 in Removable Partial Dentures: Finite Element Analysis

Thesis Submitted to

The Faculty of Oral and Dental Medicine

Cairo University

In partial fulfillment for the requirements of Master Degree in Removable Prosthodontics

By

Heba Ahmed Mohamed Ahmed Saleh

B.D.S 2002

Cairo University

Faculty of Oral and Dental Medicine

Cairo University

أ.د.م / ايمان محمد عبد الوهاب

أستاذ مساعد بقسم الاستعاضة الصناعية

كلية طب الفم والأسنان – جامعة القاهرة

مقارنة بين تصميمين مختلفين للاطقم الجزئية في حالات كينيدى القسم الثالث تعديل رقم ١: دراسة بطريقة العناصر المحدده

رسالة مقدمه من

الطبيبة/ هبه احمد محمد احمد صالح

بكالوريوس طب الفم والأسنان

جامعة القاهرة-٢٠٠٢

كجزء مكمل للحصول على درجة الماجستير فى الاستعاضة الصناعية

كلية طب الفم والأسنان

جامعة القاهرة

٢٠١١

Acknowledgment

First of all I would like to thank God who paved the way and only by his will everything can be achieved.

I would to express my deep appreciation to ***Prof. Dr. Amal Mahmoud*** *Professor of Prosthodontics, Faculty of Oral and Dental Medicine, Cairo University, for her supervision, patience and instruction during the course of the study.*

I am deeply grateful to ***Prof. Dr. Nadia Lashin Soliman,*** *Head of Basic Dental Science Department, Oral and Dental Research Division, National Research Centre, for her greater assistance in the preparation of this work. I will remain indebted to her and never forget her kind help and cooperation.*

I would like to express my sincere thanks to ***Assist. Prof. Dr .Iman Abd El-Wahab****, Faculty of Oral and Dental Medicine, Cairo University for her*

constructive cooperation and valuable supervision throughout the study.

Special thanks to ***Dr. Ahmed El Ragi,*** *Lecturer of Civil Engineering, Fayoum University, for his great support, generous help and guidance, owing him all that I learned in the field of finite element analysis.*

I would like to acknowledge the whole Staff members of Fixed and Removable Prosthodontic Department, Oral and Dental Research Division, National Research Centre, for their encouragement and help specially ***Prof. Dr. Magda Ramzy****, Head of Fixed and Removable Prosthodontic Department and* ***Dr. Amany Ramadan,*** *Researcher in Fixed and Removable Prosthodontic Department.*

Last but not least, I would like to thank my dearest sister, ***Assist. Prof. Dr.Ola Ahmed saleh****, for her cooperation and support in this study.*

To my Caring Mother

Soul of my Father

Beloved Sisters

Dear Friends

For their love and support
