ACKNOWLEDGEMENT

I am greatly indebted to Dr. A. S. El Ghobashy Prof. of Plant Physiology, Faculty of Science, Ain Shams University for his continuous advice and kind encouragement.

I would also like to express my thanks to Dr. A. F. Abo Hadid Prof. of Horticulture, Faculty of Agriculture, Ain Shams University for his kind encouragement.

To Dr. M. M. F. Mansour assistant Prof. of Plant Physiology, Faculty of Science, Ain Shams University deep gratitude and appreciation are due. For without his reliable advice, continuos encouragement, help and generous assistance. I don't think that this work would have been possible.

Thanks are also due to Dr. M. M. Al-Mutawa, Lecturer of Plant Physiology Faculty of Education, King Khalid University for his assistance.

Thanks and gratitude are also due to all my colleagues in Faculty of Science, Ain Shams University for their kind help to me.

Finally I would like to express my deepest thanks to every one who helped me to complete this thesis.

Thanks are also offered to every person in the Arid Land Agriculture Research Unit for their assistant.

Special thanks and appreciation are due to My mother for her patience during this study
