**PROTECTIVE EFFECT OF L-METHIONINE ON SOME
PHYSIOLOGICAL ASPECTS IN RATS EXPOSED
TO GAMMA IRRADIATION**

Thesis

Submitted to the faculty of Science

Ain Shams University

For the Award of the M.Sc. Degree

In Zoology

By

Elham Abd Elaziz Abdou Elshamy

National Center for Radiation

Research and Technology

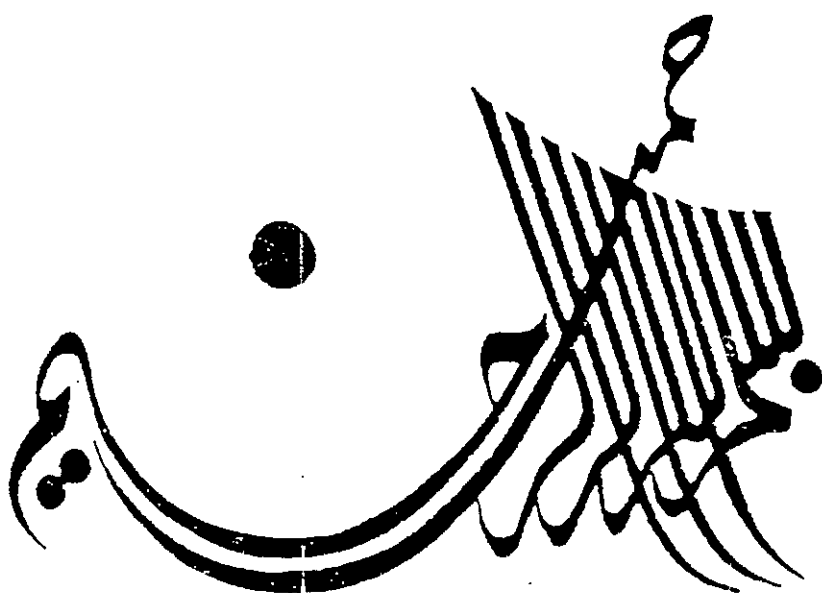

Zoology Department

Faculty of Science

Ain Shams University

(1995)

**Protective effect of L-methionine on some
physiological aspects in rats exposed
to gamma irradiation**

By:

Elham Abd Elaziz Abdou Elshamy

supervised by:

Prof. Dr. Nadia Mohamed El-Beih

Prof. Dr. Nefissa Hussein Abd El-Rheem Meky

Prof. Dr. Mohamed Abd Elhamid Mansour

Note

The present thesis is submitted to Ain Shams university in partial fulfillment of the requirements for the degree of Master of Science in Physiology.

Besides the research work materialized in this thesis, the candidate has attended five graduate courses for one year in the following topics:

- Endocrinology
- Radiobiology
- Hematology
- Statistics
- English language

She has successfully passed the final examinations in these courses.

Prof. Dr. Abdalla M. Ibrahim

Head of Zoology Dep.,
Ain Shams University

Biography

Name : Elham Abd Elaziz Elshamy
Date and place of birth : 1964, Cairo.
Degree awarded : B.Sc., " Zoology-Chemistry" Mayo 1985.
Present Position : Biologist -
National Center for Radiation Research and Technology
Date of registration : April 13 th. 1992

List of Table

Table	Page
1 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum total protein level.	59
2 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum total protein level.	61
3 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum total protein level.	63
a Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum total protein.	65
4 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum glutamic oxaloacetic transaminase (GOT) activity.	68
5 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum glutamic oxaloacetic transaminase (GOT) activity.	70
6 Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum glutamic oxaloacetic transaminase (GOT) activity.	72

Table		Page
b	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum glutamic Oxaloacetic transaminase (GOT) activity.	74
7	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum glutamic pyruvic transaminase (GPT) activity	77
8	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum glutamic pyruvic transaminase (GPT) activity.	79
9	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum glutamic pyruvic transaminase (GPT) activity.	81
c	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum glutamic pyruvic transaminase (GPT) activity.	83
10	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum total cholesterol level.	86
11	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum total cholesterol level.	88

Table		Page
12	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum total cholesterol level.	90
d	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum total cholesterol level.	92
13	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum high density lipoprotein (HDL) level.	95
14	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum high density lipoprotein (HDL) level.	97
15	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum high density lipoprotein (HDL) level.	99
e	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum high density lipoprotein (HDL)	101
16	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on serum low density lipoprotein (LDL) level.	104
17	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on serum low density lipoprotein (LDL) level.	106

Table		Page
18	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on serum low density lipoprotein (LDL) level.	108
f	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on serum low density lipoprotein (LDL).	110
19	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on blood reduced glutathione (GSH).	113
20	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on blood reduced glutathione (GSH).	115
21	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on blood reduced glutathione (GSH).	117
g	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats on blood reduced glutathione (GSH).	119
22	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on blood glucose-6-phosphate dehydrogenase (G-6-PDH) activity.	122

Table		Page
23	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on blood glucose-6-phosphate dehydrogenase (G-6-PDH) activity.	124
24	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on blood glucose-6-phosphate dehydrogenase (G-6-PDH) activity.	126
h	Effect of L-methionine treatment pre-whole body gamma-irradiation of male albino rats on blood glucose-6-phosphate dehydrogenase (G-6-PDH) activity.	128
25	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 100 rad on blood glutathione stability.	131
26	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 300 rad on blood glutathione stability.	133
27	Effect of L-methionine treatment pre-whole body gamma irradiation of male albino rats at the dose of 600 rad on blood glutathione stability.	135
