ACKNOWLEDGMENT

Praise be to ALLAH, the most merciful, the compassionate for all the countless gifts I have been blessed with. Of these gifts, those persons who were assigned to give me a precious hand to be able to complete this thesis. Some of them will be cordially acknowledged.

I would like to express my deepest thanks, and extreme sincere gratitude to may kind teacher *Prof. Dr. Mohamed Abd El-Moniem El-Oseily*, Professor of General Surgery, Assiut University, for all his kind help in every step in this work, for his constructive support, encouragement and his close and generous supervision during the conduction of this work. Indeed this work could not be delivered without his continous guidance.

I am also grateful and deeply indebted to *Dr. Ahmed Mostafa*Hamed, Assistant Professor of Radiology, Assiut University, for his guidance encouragement and expert advice. It is a great honour to work under his supervision.

I would like to express my deepest appreciation to *Dr. Hany Abd-El-Kareem*, Assistant Professor of General Surgery, Assiut University, for his encouragement and for his continuous advice, support and guidance throughout this work, without his help, it would have been rather a difficult task.

- Many thanks also to all staff members and to my colleagues in the General Surgery Department for various help and facilities offered by them during the progress of this work.
