EFFECT OF LEARNING ON LOT SIZING

THESIS

**Submitted for the Partial Fulfillment of
M.Sc.Degree
in
Mechanical Engineering
(Production)**

Cairo 1997

I would like to express my sincere appreciation to the members of the
 Board of Directors for their kind and generous support of the
 work of the Society during the past year.

The work of the Society during the past year has been most
 successful and we are proud to have achieved our objectives.

We are most grateful to the members of the Society for their
 continued support and interest in the work of the Society.

Yours truly,

W. H. H. H.

STATEMENT

This dissertation is submitted to Ain Shams university for the degree of M.Sc. in Mechanical Engineering (Production).

The work included in this thesis was carried out by the author in the Departement of Production , from 1995 to Nov. 1997.

CONTENTS

No part of this thesis has been submitted for a degree or a qualification at any other university or insituation.
