FACULTY OF MEDICINE

OUTCOME OF ENDOSCOPIC TREATMENT OF LOWER URETERIC PATHOLOGY

THESIS

Submitted for Partial Fulfillment of MD Degree in UROLOGY

By

Ehab Mohamed Galal

MBBCh., Msc

Faculty of Medicine, El-Minia University

Under Supervision of

Prof. Dr. Mohamed Hamdy Abou-El-Hassan

Professor of Urology

Faculty of Medicine, El-Minia University

Prof. Dr. Mohamed Abdel-Malek Hassan

Professor and chairman of Urology department

Faculty of Medicine, El-Minia University

Prof. Dr. Ahmed Abdel-Hamid Awad

Professor of Urology

Faculty of Medicine, El-Minia University

Dr. Taha Abo-Elmagd Abdel-Meguid

Assistant Professor of Urology

Faculty of Medicine, El-Minia University

FACULTY OF MEDICINE
EL-MINIA UNIVERSITY

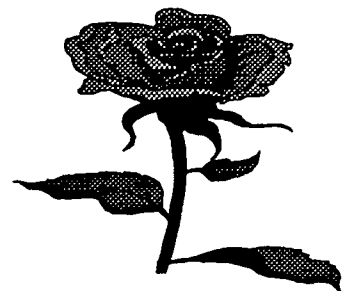

2006

TO
MY PARENTS

TO
MY WIFE

TO
MY SON (Hazem)

ACKNOWLEDGMENT

First and above all thanks to merciful **ALLAH**, who enabled me to complete this work, and for the countless gifts I have been offered.

It is a great honor to express many deep gratitude and appreciation to **Prof. Dr. Mohamed Hamdy Abou-El-Hassan**, Professor of Urology, Faculty of Medicine, El-Minia University, for his encouragement, creative suggestions and whole hearted support, both scientific and moral. For him no words can express my actual feelings.

I would like to express my deepest and sincere indebtedness and gratitude to **Prof. Dr. Mohamed Abdel-Malek Hassan**, Professor and chairman of Urology Department, Faculty of Medicine, El-Minia University, for his over whelming kindness and continuous help, also for his remarkable efforts, advice and support throughout the study. I owe him a lot.

I would like to express my best thanks and gratitude to **Prof. Dr. Ahmed Abdel-hamid Awad**, Professor of Urology, Faculty of Medicine, El-Minia University, for his sincere help, kindness and constructive directions. He spared no effort in supporting me throughout the work.

I would like to express my deepest thanks to **Dr. Taha Abo-Elmagd Abd-Elmeguid**, Assistant professor of Urology, faculty of Medicine, El-Minia University, for unlimited assistance, advice and his guidance throughout the study.

I would like also to express my deepest appreciation to all members of the Urology Department, Faculty of Medicine, El-Minia University, for providing unfailing help all through my work.

Finally, however much I try to thank my parents and my wife for all the unconditional love, baking and care they have bestowed upon me. I hope I shall never disappoint them.

CONTENTS

	PAGE
INTRODUCTION AND AIM OF THE WORK.....	1 – 3
REVIEW OF LITERATURE	4 – 83
* Anatomy of the ureter.....	4
* Types of ureteroscopes	16
* Indications of ureteroscopy	42
* Technique of ureteroscopy	60
* Difficulties during ureteroscopy	72
* Complications of ureteroscopy	78
PATIENTS AND METHODS	84-94
RESULTS	95-130
DISCUSSION	131-144
SUMMARY AND CONCLUSIONS	145-151
REFERENCES	152-175
ARABIC SUMMARY	

LIST OF TABLES

TABLE	SUBJECT	PAGE
(1)	Classification of Endoscopic Lithotripsy Devices by Mechanism of Action.....	28
(2)	The analog pain scale questionnaire	85
(3)	Endoscopes used in the study.....	92
(4)	Previous operation in calculi group	96
(5)	KUB findings.	98
(6)	Degree of postoperative pain.	102
(7)	Outcome in relation to history of previous surgery.	103
(8)	Outcome in relation to stone location.....	104
(9)	Outcome in relation to stone size.....	104
(10)	Outcome in relation to stone number.....	104
(11)	Outcome in relation to stone shape.....	105
(12)	Outcome in relation to the degree of hydronephrosis.	105
(13)	Outcome in relation to method of stone treatment..	106
(14)	Outcome in relation to postoperative stenting	106
(15)	Previous operation in stricture group.....	122
(16)	Characters of stricture.	123

LIST OF FIGURES

FIGURE	SUBJECT	PAGE
(1)	Normal variations in ureteral caliber	6
(2)	Cystoscopic appearance of the normal ureteral orifice and 3 degree of incompetence of the UVJ ...	9
(3)	Ureteral segmentation and nomenclature	12
(4)	Semirigid ureteroscope with straight eyepiece.....	19
(5)	Semirigid ureteroscope with movable eyepiece.....	19
(6)	Flexible ureteroscope.....	21
(7)	Schematic diagram of the lithoclast handpiece and probe.....	39
(8)	Picture of ureteroscopes used in the study.....	92
(9)	Six mm balloon dilation catheter used for treatment of stricture.....	93
(10)	Hand piece of wolf pneumatic lithoclast	93
(11)	Tipless- flat wire stone extractor, 3FR., 65cm, 4 wire.....	94
(12)	Sex distribution in calculi group.....	95
(13)	Stone site..	97
(14)	Degree of hydronephrosis.	99
(15)	Cortical thickness.....	99
(16)	Methods of treatment.....	100
(17)	Endoscopic picture of ureteral stone.....	107
(18)	Endoscopic picture of disintegration by pneumatic lithoclast.....	107
(19)	Endoscopic picture after disintegration with residual fragments.....	108
(20)	KUB showing solitary stone lower 1/3 Lt. ureter...	109

LIST OF FIGURES (CONTINUED)

FIGURE	SUBJECT	PAGE
(21)	Preoperative IVU of the same patient showing moderate hydroureter hydronephrosis.....	109
(22)	Postoperative KUB after stone extraction.....	110
(23)	Postoperative IVU 3 months after ureteroscopy showing complete resolution of obstruction.....	110
(24)	KUB showing juxtavesical stone Rt. Ureter.....	111
(25)	Preoperative IVU showing moderate degree of obstruction.....	111
(26)	Postoperative IVU 6 months later with complete resolution of obstruction.....	112
(27)	KUB showing bilateral lower 1/3 ureteral stones...	113
(28)	Preoperative IVU showing bilateral obstruction....	113
(29)	Postoperative KUB with bilateral ureteral catheters.....	114
(30)	Preoperative IVU after 3 months showing resolution of obstruction.....	114
(31)	KUB showing multiple stones lower 1/3 Lt ureter..	115
(32)	Preoperative IVU showing severe dilation of the PCS.....	115
(33)	KUB postoperative after stone extraction and insertion of ureteral catheter.....	116
(34)	Postoperative IVU of the same patient after 6 months with residual dilation.....	116
(35)	KUB showing juxtravesical stone Lt. ureter.....	117
(36)	Preoperative IVU showing obstructed Lt ureter....	117

LIST OF FIGURES (CONTINUED)

FIGURE	SUBJECT	PAGE
(37)	Postoperative KUB with Lt. ureteral catheter after removal of stone.	118
(38)	Postoperative IVU 3 months later showing resolution of obstruction.	118
(39)	KUB showing solitary stone lower 1/3 Rt. ureter...	119
(40)	Preoperative IVU showing no proximal dilatation..	119
(41)	Postoperative abdominal U/S after 3 months showing normal Rt. kidney.	120
(42)	Sex distribution in stricture group.	121
(43)	Endoscopic picture of meatal stricture.....	125
(44)	Endoscopic picture of meatotomy using the hot knife.....	125
(45)	Endoscopic picture of balloon dilation for intramural stricture.....	126
(46)	Endoscopic picture of double J insertion after dilation of stricture.....	126
(47)	Preoperative IVU showing stricture lower 1/3 Lt. ureter.....	127
(48)	Postoperative KUB showing double J stent.....	127
(49)	Postoperative IVU 6 months after balloon dilatation showing complete resolution of obstruction.....	128
(50)	Preoperative IVU showing Lt. ureteral dilatation...	129
(51)	KUB after balloon dilatation and double J insertion.	129
(52)	Postoperative IVU 3 months after treatment showing resolution of obstruction.....	130
