Alexandria University
Faculty of Agric. (Saba-Bacha)
Soil and Agric. Chemistry Dept.,

**STUDIES ON THE SUITABILITY OF WATER RESOURCES
IN SIWA OASIS, EGYPT FOR AGRICULTURAL USES**

A THESIS

**Presented to the Graduate School
Faculty of Agriculture
(Saba-Bacha)
Alexandria University**

**In Partial Fulfillment of the Requirements
For the Degree of
MASTER OF AGRICULTURAL SCIENCE
IN
(SOIL AND WATER)**

**BY
ABDELHAFID ABDELRAHMAN MOSSA**

1999

Alexandria University
Faculty of Agric. (Saba-Bacha)
Soil and Agric. chemistry Dept.,

**STUDIES ON THE SUITABILITY OF WATER
RESOURCES IN SIWA OASIS, EGYPT FOR
AGRICULTURAL USES**

Presented by

ABDELHAFID ABDELRAHMAN MOSSA

For the degree of

MASTER OF AGRICULTURAL SCIENCES

(Soil & Water)

Examiner's Committee:

Prof. Dr. Maher G. Nasseem

**Prof. and Head of Soil and Agric. Chemistry Dept.,
Fac. of Agric. Saba Bacha, Alex. Univ.**

Approved

Prof. Dr. Hussein A. Zeid

**Prof. of Soil and Water,
Fac. of Agric. Saba Bacha, Alex. Univ.**

Prof. Dr. Mohamed S. Shams

**Prof. and Head of Soil and Water Dept., Faculty
of Agric. Kafr El-Sheikh, Tanta University**

Prof. Dr. Ahmed Y. Mourad

**Prof. of Soil and Water and Vice Dean for
community Development and Environment Affairs,
Fac. of Agric., Damanhour Alex. Univ.**

ADVISOR'S COMMITTEE

Prof. Dr. Maher G. Nasseem

**Prof. and Head of Soil and Agric. Chemistry Dept.,
Faculty of Agriculture, Saba Basha,
Alexandria University**

Prof. Dr. Hussein A. Zeid

**Prof. of Soil and Water
Faculty of Agriculture, Saba-Bacha
Alexandria University**

Dr. Magda A. Hussein

**Lecturer of Soil and Water
Faculty of Agriculture, Saba-Bacha
Alexandria University**

DEDICATION

**To the spirit of my departed
Mother, my dear father, my
dear wife and my children. I
dedicate this modest effort.**

ACKNOWLEDGEMENT

Thanks are fully due to my God, most gracious, the most merciful, for being able to complete this work.

I wish to express my profound gratitude and sincere appreciation to **Prof. Dr. Maher G. Nasseem**, Prof. and Head of Soil & Agric. Chemistry Dept., Fac. of Agric. Saba Bacha, Alexandria Univ., for suggesting this research problem, supervision, sympathetic encouragement and devoting much of his precious time in valuable discussions and reading throughout the entire work.

Also, I wish to express my gratitude and deep thanks to **Prof. Dr. Hussien A. Zeid**, Prof. of Soil and Water, Soil & Agric. Chemistry Dept., Fac. of Agric. Saba Bacha, Alexandria Univ., for his supervision and help during the preparing of this thesis.

My gratitude extends to **Dr. Magda A. Hussien**, Lecturer of Soil and Water, Soil & Agric. Chemistry Dept., Fac. of Agric. Saba Bacha, Alexandria Univ., for her supervision, help, constructive discussions and devoting much effort during the preparing of this work.

It is a pleasure to express my gratitude to my dear parents, my dear wife, my sons, my Daughter, my brothers, my sisters and my friends to whom I owe so much.

My sincere thanks are due to the General Secretariat of Education and Scientific Research and Omar Al-Mukhtar University, Libya, for their support given to this study.

ACKNOWLEDGEMENT	
I. INTRODUCTION	1
II. REVIEW OF LITERATURE	3
II.1 Area studied.....	3
II.1.1. Location.....	3
II.1.2. Climate.....	3
II.1.3. Geology.....	6
II.1.4. Hydrogeology.....	7
II.1.5. Water resources.....	9
II.1.6. Soil.....	10
II.1.7. Cultivated area.....	12
II.2. Water quality problems.....	13
II.2.1. Salinity problem.....	14
II.2.2. Infiltration problem.....	21
II.2.3. Toxicity problem.....	24
II.2.4. Miscellaneous problem.....	33
II.3. Water quality evaluation.....	36
II.4. Water quality guidelines	41
III. MATERIALS AND METHODS.....	46
III.1. Samples location.....	46
III.2. Water sampling techniques.....	47
III.2.1. Measurements.....	51
III.3. Water quality evaluation.....	52
III.3.1. Water quality for irrigation.....	52
III.3.1.1. Wilcox method.....	52
III.3.1.2. U.S. Salinity laboratory method...	53
III.3.1.3. Doneen's method.....	54
III.3.1.4. Gupta's method.....	56

III.3.1.5. FAO method.....	57
III.3.2. Water quality for livestock and poultry.....	59
IV. RESULTS AND DISCUSSION.....	60
IV.1. The water quality evaluation of Siwa Oasis.....	60
IV.1.1. Evaluation water quality for irrigation.....	60
IV.1.1.1. The water quality evaluation according to wilcox method.....	65
IV.1.1.2. The water quality evaluation according to U.S salinity laboratory method.....	70
IV.1.1.3. The water quality evaluation according to Doneen method...	75
IV.1.1.4. The water quality evaluation according to Gupta method.....	80
IV.1.1.5. The water quality evaluation according to FAO method.....	85
IV.1.2. Evaluation water quality for livestock and poultry.....	92
IV.1.2.1. The water quality evaluation according to total salt content	93
IV.1.2.2. The water quality evaluation according to magnesium ion content	95
IV.1.2.3. The water quality evaluation according to toxic substances..	95
IV.2. Management of water problems for irrigation.....	96
IV.2.1. Management of salinity problems.....	96
IV.2.2. Management of infiltration problems.....	103
IV.2.3. Management of toxicity problems.....	104
IV.2.4. Management of other problems.....	106
SUMMARY.....	108
LITERATURE CITED	115
ARABIC SUMMARY.....	

LIST OF TABLES

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
1	The classification of saline waters for irrigation according to U.S salinity laboratory and <i>et al.</i>	19
2	Crop tolerance and yield potential of selected crops as influenced by irrigation water salinity (EC _w) or soil salinity (EC _e).....	20
3	The approximate levels of chloride, sodium and Boron to the three categories of plant tolerance according to maas.....	25
4	Relative Boron Tolerance of agricultural crops according to wilcox.....	31
5	Guidelines for interpretations of water quality for irrigation.....	43
6	Laboratory determinations needed to evaluate common irrigation water quality problems.....	44
7	Water quality guide for livestock and poultry uses.....	45
8	U.S. Salinity laboratory staff classification for irrigation water.....	54
9	Tentative standards for potential salinity of irrigation water according to Doneen.....	55
10	Classification the suitability of water for irrigation according to Gupta.....	57
11	Suggested limits for magnesium in drinking water for livestock.....	59

<u>Table No.</u>	<u>Title</u>	<u>Page</u>
12	Chemical analysis of springs water samples.....	61
13	Chemical analysis of wells water samples.....	62
14	Chemical analysis of Drains water samples.....	63
15	Chemical analysis of lakes water samples.....	64
16	The values of EC_w and Na ion content of springs water for Wilcox evaluation method.....	66
17	The values of EC_w and Na ion content of wells, drains and lakes water for wilcox evaluation method.....	68
18	The values of EC_w and SAR values of springs water for U.S. Salinity laboratory evaluation method.....	71
19	The values of EC_w and SAR values of wells, drains and lakes waters for U.S. salinity laboratory evaluation method.....	73
20	Evaluation of springs waters according to Doneen evaluation method.....	78
21	Evaluation of wells, drains and lakes waters according to Doneen evaluation method.....	79
22	Values of adj. SAR, Boron concentration and EC_w of springs water for Gupta evaluation method.....	83
23	Values of adj. SAR, Boron concentration and EC_w of wells, drains and lakes water for Gupta evaluation method.....	84
