## **ACKNOWLEDGEMENT**

I offer my deepest gratitude to **Prof. Dr. Ahmed M. Salem**, Professor of Biochemistry, Faculty of Science, Ain Shams University, for his valuable supervision, continuous encouragement and giving every possible help and advice, as well as for his profound reading of the manuscript.

To the same extent, I am greatly indebted to **Prof. Dr. El Hussein G. El Ghoneimy**, Professor of Internal Medicine, Nephrology and Diabetology, Faculty of Medicine, Cairo University, for suggesting this interesting point of research, continuous advice, encouragement and constant support that made the completion of this work possible.

Special thanks and gratitude to **Prof. Dr. Nadia A. Hassaballa**, Consultant of Chemical and Clinical Pathology, Arab Contractors Medical Center, Cairo, for her valuable supervision and advice, as well as providing all possible laboratory facilities to accomplish this work. No words can satisfy and explain my gratitude, and thanks for her kind help.

I am also greatly indebted to **Dr. Magdy M. Mohamed**, Assistant Professor of Biochemistry, Faculty of Science, Ain Shams University, for his active and close supervision, as well as his indispensable instructions throughout this study.

Finally, I owe a great debt of gratitude to my colleagues in the Arab Contractors Medical Center, Cairo, especially to **Mr. Yehia Kholeif** for his generous cooperation and moral support.
