AIN SHAMS UNIVERSITY
FACULTY OF SCIENCE

B V 91 A

Rupture Process Characteristics of August 1993 Aqaba Earthquake Sequence

A Thesis

Submitted to the Geophysical Department,
Faculty of Science,
Ain Shams University

for

Doctor Philosophy

by

Ali Kamel Abdel Fattah

(M. Sc. Geophysics)

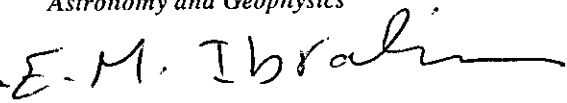

Supervised by

Prof. A. S. A. Abu El Ata

Prof. Of Geophysics,
Geophysics Dept.,
Faculty of Science,
Ain Shams University

Prof. E. M. Ibrahim

Prof. Of Seismology,
Seismology Dept.,
National Research Institute of
Astronomy and Geophysics

Acknowledgment

My all gratitude is due to Almighty God guided and helped me to bring-forth the present study.

I would like to express my sincere appreciation to **Prof. A. S. A. Abu El Ata**, Professor of Geophysics, Geophysics Dept., Faculty of Science, Ain Shams Univ., for his kind supervision, guidance, encouragement throughout this study and for critical reading of the manuscript.

I am also grateful to **Prof. E. M. Ibrahim**, Prof. of Seismology, National Research Institute of Astronomy and Geophysics (NRIAG), for his generous supervision and offering to accomplish this work.

I have great pleasure in expressing my deep gratitude to my colleague **Mr. A. Deif** for his valuable scientific discussion, comments and continuous assistance.

I wish to express my deepest gratitude to **Mr. A. Megahed** who participated us in suggesting this point of research and for kind advice.

I am greatly indebted to **Prof. N. Abu Ashour**, Chairman of the Geophysics Dept. Faculty of Science, Ain Shams University and **Prof. H. Deeks**, President of NRIAG, for their continuous encouragement and for providing me by all the possible facilities during the preparation of this article.

Many thanks are also due to **Prof. R. N. H. Albert**, Head of Seismology Dept., NRIAG and the staff members of NRIAG for their sincere assistance, urging and contribution all the laboratory and office facilities during the preparation of this thesis.

I would like to thank the Staff members **Prof. Dr. M. M. Dosseky**, **Mr. M. Mahfoz**, **Mr. H. Fathy**, **Mr. M. Farouk** and **Mr. A. Hosny** of our very broadband Kottamia seismic station, for offering me the waveform data.
