Note

This thesis is submitted to the Faculty of Science, Ain Shams University in partial fulfillment of the requirement of the Master Degree of Science in Geology.

In addition to the research work materialized in this dissertation, the candidate has attended and successfully passed examination in the following M.Sc. courses:

- Field Geology
- Geo-statistics & basic language
- Sedimentary rocks & Sedimentology
- Litho-stratigraphy & Bio-Stratigraphy
- Structural Geology & Geo-tectonics
- Remote Sensing & Geomorphology

Beside the student has also passed in the final examination of a course in English language.

Prof. Samir Ahmad Awad

Head of Geology Department
Faculty of Science
Ain Shams University

TO WHOM I TOUGHT BY

ACKNOWLEDGEMENT

The present work is carried out in the Department of Geology, Ain Shams University, for such assistance, the writer wishes to express deep thank for the staff member, who kindly offered all facilities and unfailing help during the progress of the investigations.

The writer would like to express his deep gratitude to Prof. Dr. M. A. Yehia, Geology Department Ain Shams University (Now chairman of National Authority for Remote Sensing and Space science) for his supervision, continuous guidance and fruitful discussions during the progress of this work.

Grateful thanks are also due to Dr. Zeinhom S. A. El Alfy the General Manager of Information Center and Supporting The Decision maker for his direct supervision, guidance, help, encouragement and giving the time and chance to do this work.

The writer gratefully thanks Dr. Hamed M. Dowidar Geology Department Ain Shams University, for his direct supervision, help, and advice in each stage of the present work.

The writer wishes to express his deep thanks for the all member of Egyptian Geological Survey and Mineral Projects Authority, who provided facilities during the all stage of work.

I am also grateful to the Documenting Center, The Central Library, Remote Sensing and GIS staff EGSMA for their help and cooperation.

Geologist
Abd El Aal Hassan Atia
