ACKNOWLEDGMENT

First of all; all thanks to **Allah** who helped me throughout the progress of this work, for letting it come to its end and giving me all these people I'm going to thank. I would like to express my profound appreciation, deepest satisfaction and deepest gratitude to **Prof. Nawal Abdel Reheem ElSayed**, Professor of Nutrition, High Institute of Public Health, University of Alexandria, for her valuable advice, guidance and consideration throughout the whole work with her kind open heart personality.

No words can convey my deepest appreciation, deepest gratitude and sincere thanks to **Prof. Samia Ahmed Nosseir**, Professor of Maternal and Child Health, High Institute of Public Health, University of Alexandria, for her unlimited help, unfailing effort in supervising all the steps of this work. I will always remain grateful for her valuable guidance and experienced advice in preparing this thesis to the final form.

It is with great pleasure and gratitude that I acknowledge the collaboration of **Dr. Azza Ahmed Abu Zeid**, Director of Maternal and Child Health Care Department, Directorate of Health Affairs, Alexandria Governorate, for her help, guidance and encouragement.

I wish to express my heart full thanks and endless gratitude to **my parents** who loved and faithfully supported me throughout this work especially **my great mother**.

DEDICATION

I dedicate this success to my lovely **husband** who without his support and love, this work would never be accomplished and my lovely kids **Omar and Mariam** who are the light in my life.
