ACKNOWLEDGEMENT

This work would not have been completed in this form without the divine blessings of **ALLAH**, the Merciful and the Compassionate.

I am absolutely lucky to be supervised and directed by **Prof. Dr. Liala Hassan Mohamed**, Professor of Anesthesia & Intensive care, Faculty of Medicine, Assiut University, who kindly offered her kind guidance, keen supervision, and constructive remarks through revising every part of this thesis.

I do express my gratitude towards **Prof. Dr. Kawser Hefny Mohamed**, Professor of Anesthesia & Intensive care, Faculty of Medicine, Assiut University, for her professional co-operation and guidance during the conduction of this work.

I would like to offer my great thanks to **Dr. Manal M.A. Mandour**, Assistant Professor of Biochemistry, Faculty of Medicine, Assiut University, for her great support, sympathetic help and kind attitude throughout this work.

I would like to express my grateful appreciation to **Dr. Hany A. I. Elmorabah**, Assistant Professor of Anesthesia & Intensive care, Faculty of Medicine, Assiut University, for his encouragement throughout the work.

Special thanks to **Dr. Nagwa M. Mostafa**, Lecturer of Anesthesia & Intensive care, Faculty of Medicine, Assiut University, for great encouragement, and her kind support.

Finally, many thanks to the *patients and their parents*; who participate and for whom this study had been done.
